CAMBODIA : Kingdom's biggest SEZ to get even bigger

The Kingdom's biggest industrial park is moving beyond its initial development stage and looking to attract nearly 200 new tenants in the next five years as it doubles its footprint. Established in 2008, the Sihanoukville Special Economic Zone (SSEZ) sprawls over 1,100 hectares in the hills to the east of Sihanoukville and the Kingdom's only deepsea port. Jointly developed and operated by Jiangsu Taihu Cambodia International Economic Cooperation Investment Co Ltd and the Cambodia International Investment Development Group Co Ltd (CIIDG), the industrial estate has become a platform for cooperation between China and Cambodia under Beijing's One Belt, One Road initiative. SSEZ currently boasts 110 predominantly Chinese enterprises with 93 factories in operation on it 525-hectare first-phase development, making it the biggest SEZ in the country both in terms of size and occupancy. More than 16,000 people are employed in the industrial park, which includes housing for factory workers and managers. (Phnom Penh Post)

PHILIPPINE : Philippines to raise \$1b via global bonds

The Philippines plans to issue \$1 billion in sovereign bonds to help finance next year's record budget, National Treasurer Rosalia de Leon said. Borrowing from both domestic and foreign sources was expected to reach a total 888 billion pesos (\$17.45 billion) next year, documents from the Bureau of Treasury showed, an increase of 22% from this year. Manila raised \$500 million from a new 25-year US dollar bond offering in January, which was the tightest-priced long-dated global bond issued by the Philippines one of Asia's most active sovereign bond issuers. The Philippines' improved fiscal position and debt management programmes have impressed global credit rating agencies. Moody's and Standard & Poor's both rate the country two notches above investment grade. The government also plans to fund the increase in next year's spending plan via \$2.45 billion of project and programme loans, the documents showed. (Reuters)

CAMBODIA : Yuan-riel exchange rate launched

The National Bank of Cambodia and the People’s Bank of China yesterday officially launched the yuan-riel exchange rate at the China-Asean expo in Nanning. “The yuan-riel exchange rate proves the importance of economic and financial ties between Cambodia and China,” said Sum Saniseth, vice governor of the NBC. Mr Saniseth said the yuan-riel exchange rate was useful for Cambodia because China is the country’s first source of foreign investment flow and Chinese tourists are also ranked first among foreign tourists. “Bilateral trade has more than doubled in the past five years,” he said. The 14th China-Asean Expo currently being held in Nanning is titled “Co-Building the 21st Century Maritime Silk Road, Promoting Regional Economic Integration through Tourism”. The four-day event has attracted 2,709 exhibitors, up 1.5% from the previous year, while the number of buyers is expected to exceed 10,000, including about 4,000 international buyers, according to the expo secretariat. *(Khmer Times)*

CAMBODIA : Sihanouk airport upgrade on track

Renovations to Sihanoukville international airport which will allow it to handle bigger planes will be finished by the end of the year as planned, the country’s aviation body said. About 60% of construction was complete, said Sin Chansereyvutha, spokesman for the State Secretariat of Civil Aviation. Taxiway construction was now under way after the rainy season caused delays to preparing the groundwork, he said. Cambodia Airports planned to put the new facilities into operation early next year, Mr Chansereyvutha said. A ground-breaking ceremony for the expansion took place in December. Work to the terminal and taxiway will give the airport, about 12 kilometres from the coastal beach and seaport, the capacity to handle up to 500,000 tourists a year. The plan is to speed up the rotation of planes and to accommodate larger aircraft. The cost of the terminal extension and new taxiway is between \$12 million and \$15 million. It is part of a \$2 billion investment programme until 2040 for the development of Phnom Penh, Siem Reap, and Sihanoukville international airports. *(Khmer Times)*

CAMBODIA : Cambodia, Nepal sign tourism MoU

The Cambodia Association of Travel Agents (CATA) and Nepal’s Tourism Agents Association signed a memorandum of understanding on Tuesday in Phnom Penh to promote joint tourism between the countries. “The MoU signing marks another milestone of stronger cooperation between Cambodia and Nepal in the tourism industry,” said Chhay Sivlin, president of CATA. “Nepal is one of the choices among Cambodian people when they travel to religious sites. In Buddhism, Lumbini in Nepal is sacred because it was the birthplace of Buddha,” added Ms Sivlin. She said last year 2,505 Nepali tourists visited Cambodia and added she was optimistic more Nepalis would head to Cambodia in the near future. Bimal Kandel, director of the Nepal National Tourism Board, said there were commonalities in the tourism sector of both countries. “These common factors make us feel like home in Cambodia,” said Mr Kandel. “About 100,000 Nepali tourists visited Southeast Asia last year and a similar number of tourists from the region visited Nepal,” he added. *(Khmer Times)*

CAMBODIA : Finance, World Bank lead reform workshop

The Ministry of Economy and Finance and the World Bank launched a two-day workshop yesterday focused on the progress of Cambodia’s Public Financial Management Reform Program (PFMRP), an initiative that aims to improve the governance and transparency of the national budget. The workshop was organised to review Cambodia’s experience since implementing a programme in 2004 aiming to increase efficiency of the public financial sector reforms and to benchmark performance against other countries. Addressing the opening session, Finance Minister Aun Pornmoniroth said the World Bank programme was in its third stage and was focusing on implementing budget-policy linkages that could transform the current centralised public financial management system into a decentralised one. *(Phnom Penh Post)*

ASEAN : Asean to ink FTA with Hong Kong

The 10-member Association of Southeast Asian Nations (Asean) is set to sign a free trade agreement (FTA) with Hong Kong following three years of negotiations, according to a Ministry of Commerce official who said the agreement could spur more investment and expand trade with the bloc's second-largest trading partner after mainland China. Commerce Ministry spokeswoman Soeng Sophary said yesterday that the long-awaited FTA between Asean and Hong Kong would be signed in November when the Philippines hosts the next Asean Summit. The Asean-HKC Free Trade Agreement comes more than seven years after a similar agreement between Asean and Mainland China came into effect. Sophary explained that separate FTA negotiations were needed because Hong Kong was a British colony until 1997, when it was handed over to China as a special administrative region that will operate semi-autonomously until 2047. (*Phnom Penh Post*)

CHINA : China sets 2020 target for nationwide ethanol use

China plans to roll out the use of ethanol in gasoline nationally by 2020, state media reported yesterday citing a government document, as Beijing intensifies its push to boost industrial demand for corn and clean up choking smog. It's the first time the government has set a targeted timeline for pushing the biofuel, known as E10 and containing 10% ethanol, across the world's largest car market, although it has yet to announce a formal policy. Mandates requiring that a minimum amount of biofuel must be blended into fuel for the nation's cars, similar to the United States and Brazil, are currently set at a provincial level. "This news has greatly boosted confidence inside the industry," said Michael Mao, analyst with Sublime China Information, adding that without government support ethanol would likely be too expensive to survive in the market. (*Reuters*)
