SECURITIES NEWS

CAMBODIA : CSX extends trading hours

The Cambodia Securities Exchange has extended its trading hours in a bid to boost trading volumes. The movement, approved by the Securities and Exchange Commission of Cambodia earlier this month, was publically announced during a press conference on Tuesday. The local stock market will now be open seven hours a day, from 8 am to 3 pm. Before the move, trading sessions were just 3.5 hours long. The new timetable will come into effect on Monday. Hong Sok Hour, CSX CEO, said the move follows an increase in public awareness of the industry and remarkable hikes in the trading volume year after year. On average, \$500,000 worth of shares were traded every day during the second quarter of the year. The total number of trading accounts has risen from just 5,577 in 2013 to 21,471 now, Mr Sok Hour noted. "With the new trading hours, CSX expects several positive outcomes as a result of longer access to the market," Mr Sok Hour said. He said CSX will now offer an even more convenient trading environment to investors, adding that the longer trading sessions allow market participants to react faster to changes in the market. CAMBODIA : S'ville port reports revenue up 16% in Q2, profits drop

Cambodia Stock Exchange (CSX) listed Sihanoukville Autonomous Port (PAS) saw a 16.55% year-on-year increase in revenue during the second quarter of this year, according to an unaudited report filed on the exchange. In the second quarter of this year, the port earned \$20.42 million, up from \$17.52 million in the second quarter of last year, the report said. However, net profit fell 93.98% year-on-year from \$4.72 million in the second quarter of last year to \$283,655. The year-on-year drop in profit is explained by massive expenditure on ongoing upgrades being made to the port. PAS chairman and CEO Lou Kim Chhun told The Post on Wednesday that the volume of goods through the port steadily increased in the second quarter, with container throughput increasing by about 22% year-on-year by weight and 15.5% year-on-year by volume. "I expect that Sihanoukville's port will continue to

improve, as currently we are also looking to expand the container terminal and equip more machinery to respond to this situation,” he said. While the PAS currently has a water depth of 11.5m and a length of 450m, Kim Chhun said the port is slated to expand another 14.5m in water depth and 350m in length. Construction will begin by the end of next year and is scheduled to be finished by mid-2024. *(Phnom Penh Post)*

CAMBODIA : MoU to attract foreign investors

The Securities Exchange Commission of Cambodia has signed a Memorandum of Understanding with China’s Zhong Lian Zhong Chou in order to cement joint consultation initiatives on the development of the Kingdom’s capital market. The MoU was signed on Friday in Phnom Penh and it aims to attract foreign investors. “The MoU is designed to share knowledge and experience for the development of the securities market in Cambodia, as well as to give advice on regulations related licensing, regulatory frameworks and other technical issues,” the SECC said in a statement. “It is also to raise awareness among the public about the securities market. At the same time, it aims to promote Cambodia’s capital market to Chinese investors, as well as other investors.” Kim Sophanita, director of Cambodia Securities Exchange’s market operations department, said any move that will contribute to the development of the capital market in the Kingdom is welcomed. Ms Sophanita said the SECC is open to more agreements like this. “This technical assistance is very crucial for developing the market,” Ms Sophanita said. “We want to have more cooperation like this and we highly appreciate SECC’s efforts in bringing many beneficial cooperation locally and internationally for the sake of market development”. *(Khmer Times)*

BUSINESS & ECONOMIC NEWS

CAMBODIA : Cambodia, Malaysia discuss bike parts manufacturing

Minister of Commerce Pan Sorasak on Tuesday met with the Malaysian ambassador in Phnom Penh to consider the establishment of several factories in Cambodia to manufacture bicycle components. Minister Sorasak and newly-appointed Malaysian ambassador Eldeen Husaini Bin Mohd Hashim agreed that working together to build bike parts manufacturing facilities will help bolster the countries’ trade relation. The bicycle components produced at the factories would be used to supply local manufacturers, it was suggested during the meeting. “At the meeting, the discussion centred on working together to build bike parts manufacturing facilities to feed local supply chains,” Mr Sorasak said in a press release after the meeting. Last year, the Kingdom exported 1.52 million bicycles to the European Union, worth a combined \$331 million, according to a World Bank report released in May. In 2017, the Kingdom became the largest bicycle supplier to the EU, overtaking Taiwan. Bicycles need to be comprised of a minimum of 40% local components to qualify for duty-free status in the EU, although goods from other Asean nations can count as local materials, according to the ministry. *(Khmer Times)*

CAMBODIA : Thai group launches tourism food centre

The Thailand-based Thalias Hospitality Group on Thursday launched its Assessment Centre for Tourism Professionals in Food Production in Phnom Penh. The group expects the centre to strengthen human resources in the Kingdom’s tourism sector. Minister of Tourism Thong Khon, who attended the launch, said the centre will promote food safety in line with international standards which, he said, is key to attracting tourists. “The development of human resources in the tourism sector through the training and evaluation of tourism experts is one of the Ministry of Tourism’s top priority goals and is also in response to Asean’s strategic plan,” the minister said. Accreditation of the centre is in line with the government’s 2017-2025 Tourism Human Resource Development Strategic Plan, he said. “We will encourage stakeholders, tourism professional training institutes, staff, especially chefs, to promote and participate and further evaluate their capabilities,” said Khon. The ministry’s spokesman Top Sopheak said the centre will help attract tourists and tourism development. “The centre is designed to improve our food quality and safety with the support of our customers and tourists. We want to promote Cambodian cuisine and obtain international recognition,” said Sopheak. *(Phnom Penh Post)*

CAMBODIA : Cambodia, Japan bilateral trade reaches \$1B in first half

Bilateral trade between Cambodia and Japan reached more than \$1 billion in the first half of this year, up 16% year-on-year, according to data from the Japan External Trade Organisation (Jetro). Cambodia's exports to Japan in the first half of this year grew 34% year-on-year to more than \$792 million, as imports grew 34% year-on-year to \$256 million, the data showed. Two-way trade between the two countries in the first six months of last year reached \$897 million, with the Kingdom's exports at more than \$706 million and imports at \$191 million. Cambodia Chamber of Commerce vice-president Lim Heng said trade relations between the countries have gradually shown signs of progress as Japanese firms increase investment in the Kingdom, especially in the Phnom Penh Special Economic Zone (SEZ). "Most of the products that Japanese investors invest in within the Kingdom's SEZs are exported to Japan. "Because Japan is a good market for Cambodian products, it's in our best interest to strive to increase exports there," said Heng. The majority of Cambodia's exports to Japan are clothing, footwear, components, electronics and bicycles. The Kingdom's imports mainly comprise of electronics and finished products. *(Phnom Penh Post)*

CAMBODIA : Consumer credit hits \$7B in Q2

The total outstanding balance of consumer credit in Cambodia continued to steadily increase, reaching \$7.16 billion by the end of June a 6.8% increase from the first quarter according to a Credit Bureau Cambodia (CBC) report released last week. The number of consumer loan accounts increased by 5.03% quarter-on-quarter, bringing the total number of accounts to 1.19 million, equal to 37.67% of total individual accounts in the market, said the report. As of June, non-performing loans after 30 days (NPL 30) fell to 1.19% from 1.24% at the end of March, it said. The \$7.16 billion in outstanding consumer credit accounted for roughly 30.22% of the total outstanding balance of individual loans in the market. However, the report said, the number of customers applying for consumer credit in its three forms personal finance, credit cards and mortgages all dropped 19.29%. The report said the biggest drop was in mortgage applications, which fell by 36% quarter-on-quarter, with the coastal regions seeing the sharpest drop at 49%. Applications for credit cards fell by 9% and personal finance applications shrank 18%, it said. CBC CEO Oeur Sotheaorath said this quarter was not entirely different from previous years, in which consumer credit applications consistently dropped in the second quarter. *(Phnom Penh Post)*

SOUTH KOREA : S. Korea, Japan trade row intensifies

South Korea put Japan into its own new export category, intensifying a trade war between the two neighbours and US allies. The move came after Seoul announced earlier this month it would remove Tokyo from its list of trusted trading partners, reciprocating an identical move by Japan. That followed Tokyo's imposition of tough restrictions on exports crucial to tech titans such as Samsung following a series of South Korean court rulings ordering Japanese firms to pay for forced labour during World War II. The dispute has raised concerns over the potential implications for their security cooperation in the face of North Korean missile tests, and the possible impact on global supply chains. South Korea's list of trade partners is currently divided into two groups, those who are members of the world's top four export control agreements and those who are not. But Seoul's trade ministry said Monday it added a new category for countries that had signed the four pacts "but operate an export control system that violates international norms". Japan is the only country in the new category. "Since it's hard to work closely with a country that frequently violates the basic rules we need an export control system that addresses this," South Korean trade minister Sung Yun-mo told reporters. *(AFP)*

CHINA : Chinese firms learn to adapt as US trade war rages

Export-reliant Chinese companies are slashing prices, moving production abroad, creating new domestic markets and even rebranding goods as they try to survive the escalating trade war with the United States. Factories along the eastern coast, fish processors in the south, apple juice exporters in central China and farmers in the northeast have all been forced to change their business models since US President Donald Trump launched the conflict more than a year ago, hitting everything from motorcycles to MRI machines. But no matter what the survival tactic, times are tough and set get worse with newly threatened tit-for-tat tariffs meaning that virtually all trade between the world's two biggest economies would be covered.

“It’s impacted all of us exporters we include the tariffs in our quotes now,” a sales manager at Shaanxi Hengtong Fruit Juice, who gave his surname as Liu, told AFP. Chinese apple juice exports have nosedived 93% in the first half of the year since Mr Trump hit them with tariffs in September last year. (AFP)
