SECURITIES NEWS

CAMBODIA : ABA Bank takes step towards bond listing with CSX approval

The Cambodia Securities Exchange (CSX) granted its approval in principle on a bond listing eligibility review to Advanced Bank of Asia Limited (ABA Bank), it said on Tuesday. Following CSX approval, ABA Bank needs to be approved by the Securities and Exchange Commission of Cambodia to publicly issue corporate bonds. ABA Bank, a National Bank of Canada Group member, will become the third bond issuer in the Kingdom's capital market after it obtains approval from the National Bank of Cambodia. The bank plans to raise 128 billion riel (\$32 million) through its first corporate bonds. Net proceeds from the bond issuance will be used as operating expenditures and to grow the lending business, the bank said. "The money will support rural micro, small and medium enterprises, including women entrepreneurs in Cambodia," the press release said. As of May 31, ABA Bank's assets totaled \$3.36 billion, making it the third largest bank in Cambodia. (Phnom Penh Post)

CAMBODIA : Hattha Kaksekar Ltd posts 49.28 per cent increase in net profit

Cambodia Securities Exchange-listed (CSX) Hattha Kaksekar Limited (HKL), a microfinance institution (MFI), posted a 49.28% increase in net profit in the first quarter of this year, according to a financial report filed on the stock exchange. This is HKL's first public financial report since the company listed on CSX late last year. The report shows that HKL received a net profit of more than \$6 million in the first quarter of this year up from more than \$4 million in the same period last year. HKL CEO Him Vibol told The Post on Tuesday that the boost was due to an increase in loan issuance and deposits. "This, together with consumer confidence, increases net profit," he said. The report shows that pre-tax profits also increased by 52.80% to \$7.7 million in the first quarter of this year, up from \$5 million compared to the same period of last year. Total assets rose 6.29% from \$925 million as of December 31 last year, to \$986 million as of March 31. HKL was the first Cambodian MFI to issue bonds on CSX. (Phnom Penh Post)

CAMBODIA : Cambodia launches National Single Window

The Ministry of Economy and Finance last week launched the National Single Window (NSW) aiming to facilitate import and export activities. According to a statement dated June 25, NSW is a facility that allows parties involved in trade and transport to lodge standardized information and documents with a single entry point to fulfill all import, export, and transit-related regulatory requirements. Authorised agencies are allowed to register for information submitted electronically and individual data elements will only be submitted once, the statement read. Its goal is to strengthen government-to-government, government-to-business, and business-to-business relationships, it said. The General Department of Customs and Excise (GDCE) will manage the planning, development, and implementation of the NSW in accordance with the government’s policy and directions, the implementation plan of the Asean Economic Community 2015, and the Asean Single Window. On Friday, GDCE announced that the ATIGA e-Form D can be issued via NSW starting today. The ATIGA e-Form D is a certificate of origin for exports and imports used within Asean. *(Khmer Time)*

CAMBODIA : Vietnam firm says it has harvested half of its plantations in Cambodia

The Vietnam Rubber Group on Tuesday announced that it has harvested about half of all its rubber plantations in the country. The group, which has investments in large-scale rubber farms in seven provinces in Cambodia, announced the figure during a meeting with Agriculture Minister Veng Sakhon. At the meeting, the Vietnam Rubber Group was represented by chairman Tran Ngoc Thuan. Mr Thuan said the group’s investment has substantially contributed to the development of the country, providing thousands of jobs to local residents and financial assistance for road development. Pol Sopha, director-general of the General Department of Rubber, told Khmer Times on Monday that the group’s investment in Cambodia is valued at about \$800 million, spread across 90,000 hectares in Kampong Thom, Preah Vihear, Siem Reap, Oddar Meanchey, Kratie, Mondulakiri, and Ratanakkiri. He said the Vietnam Rubber Group operates through 19 subsidiaries in the Kingdom. Last year, the group collected 25,400 tonnes of latex in Kampong Thom province alone, according to local media reports. *(Khmer Time)*

CAMBODIA : France advises on Siem Reap’s tourism master plan

France is providing input in the drafting of a tourism master plan for Siem Reap city, according to an official from the Ministry of Tourism. According to Top Sopheak, Ministry of Tourism spokesperson, on Sunday, two French organisations Universite Toulouse 1 Capitole and Acting For Life participated in a workshop organised by the ministry to provide technical assistance in the drafting of the master plan. Mr Sopheak said the ministry is organising workshops with different organisations to collect input from experts to draft the master plan. He said the master plan will identify high-rise building, industrial, and waste management areas, among others. Water supply systems and plans to reduce traffic congestion will also be included in the plan. Mr Sopheak said the development of ‘supreme tourism areas’ will also be considered in the master plan. In March, the government issued a sub-decree that created ‘supreme tourism areas’ in provinces with high tourism potential. They are described as zones that have accommodation, food and beverage services, entertainment complexes, sports facilities, gardens, parks, and health care centres, among other tourism-related facilities. *(Khmer Time)*

CAMBODIA : American Tech Companies Grow Cambodia’s Digital Economy

From ICT sector professionals to the general Cambodian public, it has been no secret that the tech sector in Cambodia has been booming in recent years, especially in the capital of Phnom Penh. With its place in the heart of Southeast Asia, fast internet connectivity and a young, digitally savvy population, Cambodia is poised for rapid growth in the digital economy. What makes Cambodia attractive as a growth hub for digital economy business? Three main factors stand out, according to industry professionals of the ICT committee of the American Chamber of Commerce in Cambodia. The first is the young population, the most youthful in South-East Asia, with half of people below the age of 25. Many are digitally savvy, having grown up with smartphones and access to social media, with over 7 million Facebook users out of the 16 million

total population according to research by the Asia Foundation, with an estimated 54% internet penetration. *(Khmer Time)*

CAMBODIA : Cambodia, China sign deal on securities cooperation

The regulator of the Cambodian securities market has signed a cooperation agreement with its Chinese counterpart. According to a press release published on June 1, the Securities and Exchange Commission of Cambodia (SECC) and the China Securities Regulatory Commission have signed a memorandum of understanding in Beijing on cooperation in the development of their securities markets. "The MoU aims to enhance cooperation between the two regulators by promoting mutual understanding and the exchange of information and skills, including futures regulation, and other investment products," the statement read. SECC deputy director-general Sok Dara said Cambodia can learn a lot from the more mature Chinese market. "It is an important agreement for us because we are a young market and have a lot to learn to continue expanding," Mr Dara said. Cambodia has signed similar agreements with Thailand and Vietnam. The Cambodia Securities Exchange (CSX) launched in 2012, with support from Korea, and now has five listed companies. *(Khmer Time)*

LAOS : Laos heading for half-year trade surplus

Laos is likely to enjoy a trade surplus of about \$121 million for the first six months of this year, even as the government is predicting an overall trade deficit of around \$259 million for this year. Projected exports for the first six months of this year are \$2.409 billion or 55.2% of the annual plan (\$5.516 billion) with imports at \$2.288 billion or 39.6% of the yearly plan (\$5.775 billion), Minister of Planning and Investment Souphanh Keomixay informed a meeting of cabinet members, provincial governors and the Vientiane mayor in the capital last week. The major areas for export income are electricity, mineral products and some agricultural produce, according to the Ministry of Industry and Commerce. Imports are mostly from Thailand, China, Vietnam, Japan, South Korea, Indonesia, Germany, India and the US, and exports are bound for China, Thailand, Vietnam, India, Japan, Germany, the US, Sweden and Switzerland. However, the country risks facing an annual trade deficit with more goods imported than exported, especially construction materials, fuel, vehicles and related items. *(Vientiane Times)*
