SECURITIES NEWS

CAMBODIA : Companies awarded licences to manage pooled investments

The Securities and Exchange Commission of Cambodia (SECC) has issued licences to manage cooperative investment schemes (CIS), a new tool in the local stock market, to three companies. One more company has applied for the licence and is waiting for approval, said Sou Socheat, SECC director-general. Mr Socheat declined to reveal the name of any of the firms, but said that two of the four companies that have applied for licences related to CIS are foreign-owned. Speaking at an event yesterday, Sou Socheat, SECC director-general, explained collective investment schemes. He said they are pooled investment funds, generally collected from individuals. They are managed by a professional investment team and put into different businesses. The investment team acts on behalf of the individual investors, who may have no investment skills or lack the time to manage their own investments. (Khmer Time)

VIETNAM : Securities firms warn companies may not meet EVFTA standards

Vietnam's benchmark VN-Index has risen since the ratification of the Europe-Vietnam Free Trade Agreement (EVFTA) on the back of listed firms whose exports would be boosted by the deal. However, securities firms have warned their increased share prices may not be sustained as those companies face some internal challenges in meeting the EU's requirements. Logistics and industrial property are two economic sectors that would benefit from the transfer of capital from the EU to Vietnam as the free trade agreement has opened the door for more foreign investors. Viet Dragon Securities Co (VDSC) says Vietnam may become a new manufacturing hub as Sino-US trade tensions could shift global manufacturers to Vietnam from China. With the signing of the EVFTA, shipments to Vietnam will increase as foreign companies will have to import machines and equipment to establish their plants in the country. However, VDSC warns that Vietnam is becoming highly dependent on foreign direct investment (FDI). Therefore, if FDI firms underperform, the logistics sector will also dive. (Viet Nam News)

CAMBODIA : Acleda, Ly Hour join forces

Acleda Bank and local conglomerate Ly Hour Pay Pro (Ly Hour Veluy) on Friday signed an agreement on cooperation on transfer services. Under the agreement, Acleda customers can deposit and withdraw money from one of the more than 4,500 Ly Hour agents throughout the country. Ly Hour, chairman and CEO of the Ly Hour Group, said the goal of the partnership is to increase convenience for customers and save time. "This is the beginning of a new chapter for us, expanding into the financial sector to improve people's lives and provide convenient services, including investment advice, deposits and withdrawals," he said. Dr. In Channy, Acleda Bank president and group managing director, said the cooperation expands access to fintech in Cambodia and promotes the modernisation of the industry. "This cooperation makes transfers faster, easier and more secure. Both Acleda and Ly Hour have a broad network that covers all provinces in the country. "This partnership benefits many people in the country, and promotes customer growth with reduced cost and risk," he said. *(Khmer Time)*

CAMBODIA : More mergers, acquisitions ahead says banking insiders

MGN Emperor Bank Plc's launch into Cambodia's growing financial industry on Sunday has led insiders to believe that fierce competition in the crowded market will lead to more mergers and acquisitions. In Channy, president and CEO of Acleda Bank, a leading local bank, said the sector will face fiercer competition as credit consumption narrows. "The banking sector is currently like an orange. Before we used to cut it into eight pieces but now we cut it into 10 pieces. It means market shares are narrower for each bank," said Channy. However, he said creating new products will help operators maintain their competitiveness. "The number of customers remains the same, but the number of banks is increasing, so we need to have more good products for our customers," he said. In the first six months of this year, Acleda Bank provided \$3.5 billion in loans to 400,000 customers. Some 90% of these were provided to new start-ups or business expansions, said Channy. National Bank of Cambodia (NBC) figures show that there are 45 commercial banks in Cambodia, 14 specialist banks, 81 microfinance institutions (MFIs), of which seven are microfinance deposit-taking institutions (MDIs). *(Phnom Penh Post)*

CAMBODIA : Cambodia seeks to export rice to Africa through Korean firms

Cambodia plans to export rice to African markets through South Korean companies, as its EU market share showed signs of drop in the first half of this year. In addition to the Chinese market, the Cambodia Rice Federation (CRF) expects exports to Africa to help fill the EU market share, said its secretary-general Moul Sarith. The CRF met George Kim J H, the CEO of South Korean manufacturer JS Global Corporation and many other South Korean government small and medium-enterprise agents on Wednesday to explore opportunities to export Cambodian rice to African markets. Sarith told The Post that JS Global Corporation expressed its interest in investing in rice exports from Cambodia to Africa. He says Korean companies will only buy pure white rice from the Kingdom to meet market demand in Africa. "Rice exports to Africa does not need to be expensive. Africa just needs white rice. I think we'll find a country that needs lower grades of rice. The living standards of many Africans are still low and they need affordable rice," he said. Cambodia's rice exports in the first half of this year were 281,538 tones up 3.7% year on year. Of these 118,401 tones (42.06%) went to China. Only 93,503 tones (33.21%) went to Europe, said a report from the Secretariat of the One Window Service for Rice Exports for Formality. *(Phnom Penh Post)*

CAMBODIA : US delegation eyes trade

AUS-ASEAN Business Council (USABC) delegation held a two-day trade mission to Cambodia to discuss trade and investment opportunities in the Kingdom, the US Embassy's Facebook page said. With 29 representatives from 15 companies, this is the largest ever USABC trade delegation to the Kingdom. On Monday, the delegation met with the ministries of Commerce, and Posts and Telecommunications to strengthen bilateral cooperation in business and investment between Cambodia and the US. Following the meeting, Minister of Commerce Pan Sorasak said the USABC delegation discussed various issues such as medical equipment import

PAS DAILY STOCK PRICE

procedures, machinery for the aviation sector and e-commerce and digital economy development. Other topics discussed include Asean vehicle standards as well as preventing the smuggling of Coca-Cola products across borders. "The Ministry of Commerce is committed to continuing to promote the business and investment environment as well as trade facilitation to attract more foreign investment," he said.

CAMBODIA : Korea, Cambodia central banks to study interbank market

The National Bank of Cambodia and the Bank of Korea yesterday agreed to cooperate in a study on the development of the interbank market in Cambodia. This would be the fourth research cooperation between the central banks of Cambodia and Korea, and is part of Bank of Korea's Knowledge Partnership Program. NBC director-general Chea Serey said the study aims to find ways of promoting the growth of the local interbank market and making it more efficient, which, she said, will help stabilise the financial sector in the Kingdom. "We want to study this new instrument and how to get more banks to join it," she said, adding that the research will take four months and that work on it begins immediately. She said the research also aims to find ways of using excess liquidity in the banking system more efficiently. NBC has been encouraging lending between banks, but the system still faces some serious challenges, the Central Bank's chief said. "The global financial situation is constantly changing, so we must adapt to this and constantly improve," she added. The first collaboration between the central banks was in 2016 and focused on modeling for macroeconomic analysis and inflation forecasting in Cambodia. The second looked at the empirical analysis of the relationship between exchange rate and inflation in the Cambodian economy. *(Khmer Time)*

US : US places new duties on Mexico and China

The US announced fresh duties on some Mexican and Chinese steel goods on Monday, saying those countries helped their manufacturers with unfair subsidies. The decision comes two months after US President Donald Trump agreed to lift tariffs on steel and aluminium from Mexico and Canada after the three nations agreed on a revised North American free trade pact. The Commerce Department found that imported steel used in construction benefited from subsidies in China, Mexico and Canada, but in the case of Canada the subsidies were negligible, so no retaliatory duties were imposed. The action was in response to a grievance lodged in February by US steel producers. In its preliminary findings Commerce found Mexican and Chinese exporters of fabricated structural steel benefitted from subsidies ranging from 30.3% to 177.43%. Structural steel imports from China and Mexico together amounted to \$1.5 billion last year, the Commerce Department said in a statement. US customs agents will begin collecting import duties based on the subsidy rates, but the funds could be returned if officials later reverse the finding. The independent US International Trade Commission sometimes blocks Commerce Department actions if they find US firms were not harmed by the subsidies. *(AFP)*
