**CAMBODIA : ABA gets regulator's approval to issue bonds**

The capital market regulator on Tuesday approved ABA's request to issue bonds in the Cambodia Securities Exchange (CSX). Advanced Bank of Asia Limited (ABA Bank), a member of the National Bank of Canada Group, is set to become only the third company to issue bonds at CSX, following in the footsteps of Hattha Kaksekar Limited and LOLC. The bank plans to raise 128 billion riel (about \$32 million) with a maturity date of three years and an annual coupon rate of seven to 7.75%. Zhiger Atchabarov, chief international operations officer at ABA, confirmed that the listing has received the approval of the Securities and Exchange Commission of Cambodia (SECC) and said the bank will now begin preparing other documentation needed for the issuance. "Yesterday we received SECC's approval in principle, but there are a few other procedures that must be completed before the final listing. We will follow all legislative and regulatory requirements needed for the issuance of the bonds," he said. Kim Sophanita, director of the market operations department at CSX, said that after securing CSX and SECC approvals, ABA can now begin the booking, building and subscription process to set the final interest rate (yield) of the bond, open the subscription, and finally list on CSX. **CAMBODIA : SECC approves Acleda as selling agent**

The Securities and Exchange Commission of Cambodia (SECC) has approved in principle Acleda Securities Plc to be a selling agent, according to the minutes of its meeting on Tuesday. Acleda Securities, which is a subsidiary of Acleda Bank Plc, currently operates as a broker and bondholder representative from the Cambodia Securities Exchange (CSX). The firm's vice-president and head of operations Hor Simeth told The Post on Wednesday that SECC's approval is a sign of progress for the Kingdom's infant stock exchange. "Getting approval from the SECC is another opportunity for Acleda Securities Plc to provide its clients with more broad

services. “With the growing number of listed companies and growing trading volume, we expect that the market will continue to improve,” he said. According to the minutes of its 56th meeting, which was led by Minister of Economy and Finance Aun Pornmoniroth, the SECC has also approved in principle other securities-related operations, including Advanced Bank of Asia Limited (ABA Bank) to issue bonds in the CSX. *(Phnom Penh Post)*

#### CAMBODIA : Tax collection rises 66% in H1

The General Department of Taxation (GDT) collected more than \$1.5 billion in tax revenue in the first six months of this year, up 66% from the same period last year, according to a report released by the department on Wednesday. At its first-half tax collection revenue meeting, GDT director-general Kong Vibol noted that tax revenue increased more than \$324 million from the same period last year. The report shows that in June alone, the GDT collected more than \$197 million, an increase of \$57.18 million compared to June last year. It said tax collection revenue has increased an average of 20% annually over the last five years, after the government vowed in-depth tax reform following the 2013 general election. Minister of Economy and Finance Aun Pornmoniroth, who attended the meeting, voiced his support for the GDT’s mission of an optimal yield this year through the efficient implementation of tax revenue collection. Pornmoniroth said the GDT must continue to effectively encourage and exchange information with relevant parties and provide tax incentives to attract more investment. “With a new draft law, we need to avoid double taxation and strengthen tax collection in the property sector. “We need to boost tax collection on enterprises and businesses under the ‘casino’ label,” he said. *(Phnom Penh Post)*

#### PAS DAILY STOCK PRICE

#### CAMBODIA : Six-fold increase in investment from Jan to May

The Council for the Development of Cambodia approved \$3.6 billion in investment projects during the first five months of the year, a six-fold increase over the corresponding period last year, according to the latest report from the Ministry of Economy and Finance. Eighty-one projects were greenlighted by CDC, with two tourism-related projects accounting for a significant portion of the overall investment, the report noted. While the names of the projects were not disclosed, the report referred to them as a “tourism center” and a “tourism vacation town”, valued at \$1.4 billion and \$1.5 billion, respectively. Sothida An, CBRE Cambodia director, told Khmer Times on Wednesday that the number of tourism-related projects has increased markedly in the last few years as a result of better transportation infrastructure and connectivity with the region and the world. “The surge in direct flights allows more foreigners to visit the country,” she said, adding that the influx of tourists has led investors to pursue projects in the tourism industry. *(Khmer Time)*

#### CAMBODIA : Exports up by 15% in first five months of the year

Exports during the first five months of the year increased by more than 15%, reaching a value of \$5.3 billion, according to the latest report from the Ministry of Economy and Finance. During the same period, the value of imports reached \$8.2 billion, a 21.5% hike compared to the same months last year. The growth in exports was largely supported by strong demand in the United States, with a surge in the shipments of travel goods, according to the report. Exports to the European Union, however, slipped compared to the same five months last year, the report said. The EU now represents 34% of the Kingdom’s total exports. The report also notes that, “Accelerating business models, economic diversification, and the expansion of target markets are enabling Cambodia to generate growth and alleviate pressure from external risks. “This will ensure that the country is able to sustain this growth in the near future.” According to the US Department of Commerce, last year Cambodia was the United States’ 57th largest supplier of goods. US imports of Cambodian goods totalled \$3.8 billion in 2018, an increase of 24.8% year-on-year. *(Khmer Time)*

#### GLOBAL : IMF downgrades world growth, warns of ‘precarious’ 2020

Global trade tensions, continued uncertainty and rising prospects for a no-deal Brexit are sapping the strength of the world economy, which faces a “precarious” 2020, the International Monetary Fund warned on Tuesday. Trade conflicts are undercutting investment and weakening manufacturing, and the IMF urged countries to avoid using tariffs to resolve their

differences. In the quarterly update of its World Economic Outlook, the IMF trimmed the global forecast issued in April by 0.1% point this year and next, with growth expected to hit 3.2% in 2019 and 3.5% in 2020. But the report sounded the alarm, saying things could easily go wrong. "Global growth is sluggish and precarious, but it does not have to be this way, because some of this is self-inflicted," IMF chief economist Gita Gopinath told reporters. "Dynamism in the global economy is being weighed down by prolonged policy uncertainty as trade tensions remain heightened despite the recent US-China trade truce... and the prospects of a no-deal Brexit have increased," she said at a briefing in Santiago, Chile. (*Khmer Time*)

**SINGAPORE : Full-year growth could be lower than forecast**

Singapore's full-year economic forecast could be cut again in view of the weak performance in the second quarter and strong headwinds in the global economy, the Ministry of Trade and Industry (MTI) has told the Sunday Times. The forecast stands at between 1.5% and 2.5%, and may be downgraded further. The revised forecast will be announced with preliminary growth estimates next month, MTI said, in response to queries. It added that Singapore does not expect a full-year recession for now. Amid calls by economists to consider more accommodative policies to cushion the impact of slowing growth, MTI said the authorities are ready to boost support for businesses and workers if need be. The ministry's comments come shortly after flash figures for the second quarter showed almost flat growth from last year at 0.1%, the slowest in a decade. The economy also shrank 3.4% from the first quarter, prompting warnings of a technical recession, or two consecutive quarters of slowdown. Last month, Monetary Authority of Singapore chief Ravi Menon said the country's full-year growth forecast was already under review. (*The Straits Times*)
