SECURITIES NEWS

CAMBODIA : Net profit margin up on all CSX listed stocks

The net profit margin of all stocks listed on the Cambodia Securities Exchange (CSX) showed a significant increase last year, with an average of 20.89%, led by the Phnom Penh Autonomous Port (PPAP), a CSX statement said on Monday. PPAP topped the rank with a 39.09% increase, followed by Phnom Penh Water Supply Authority (PPWSA), Phnom Penh Special Economic Zone (PPSP) and Sihanoukville Autonomous Port (PAS), whose figures stand at 27.77%, 19.86% and 16.54 respectively, the CSX said. Grand Twins International (Cambodia) Plc (GTI), on the other hand, had the lowest net profit margin with 1.2%, said the CSX. Compared to 2017, the average net profit margin of all listed stocks increased by more than 40%. Net profit margin is equal to how much net profit is generated as a percentage of revenue. All stocks have shown a positive performance during the last three years, in terms of revenue and net income, except for GTI, which saw a drop in net income in 2017. It recovered slightly last year. CSX said over the previous three years, last year had the highest trading volume, comprising nearly four million shares. (Phnom Penh Post)

ASIAN : Asian markets sink, gold gains amid Iran tension

Increasing concerns about a conflict between the US and Iran hit equity markets on Tuesday and sent gold prices to a fresh six-year high, jolting investor confidence days ahead of crucial trade talks between US President Donald Trump and his Chinese counterpart Xi Jinping. The latest round of sanctions against supreme leader Ayatollah Ali Khamenei and military top brass meant the “permanent closure of the path to diplomacy”, the Islamic republic’s foreign ministry said. Trump unveiled the new restrictions on Monday, days after the downing of a US drone that Tehran said had entered its airspace. The Iranian tweet, from ministry spokesman Abbas Mousavi, provided a catalyst to sell for Asia stock traders, who had been sitting on their hands ahead of the Trump-Xi meeting at the end of the week. Hong Kong fell more than 1%, while Shanghai was 1.7% off and Tokyo dropped 0.6%, with profit-taking after a recent rally adding to

selling pressure. Sydney was down 0.1%, Seoul and Singapore each retreated 0.3% and Taipei lost 0.8%. Still, Wellington, Manila, Bangkok and Jakarta were slightly higher. The Cambodia Securities Exchange index rose 0.5%. (AFP)

## BUSINESS & ECONOMIC NEWS

### CAMBODIA : CDC approves \$1.8B investment this year

The Cambodia Development Council (CDC) has approved more than \$1.8 billion in investment projects during the first six months of this year, research by The Post has shown. According to its calculations, the CDC's data shows that during the period from January to this week, there were 102 investment projects approved, which can create up to nearly 130,000 jobs upon their completion. The projects are mostly investments in garments, footwear, bags, hotels, commercial centres and entertainment venues. Secondary projects include plastic manufacturing plants, medical equipment, solar panel components, rubber processing plants, fruit processing plants, toys, carton processing plants, construction material factories, agro-industry farms, husbandry, cigarette factories, yarn and electric wires. The ongoing trade war between the US and China has made many foreign companies, especially Chinese-owned ones, search for manufacturing sites outside China to avoid tariffs imposed by the US. A Nikkei Asian Review report earlier this month said 16 companies announced their relocation from China to Southeast Asia, of which 10 said they would go to Vietnam. (Phnom Penh Post)

### CAMBODIA : South Korea seeking to invest in six sectors

A group of South Korean delegates on Monday announced that it was seeking to invest in six priority areas in the Kingdom, a move aimed at boosting trade between the two countries. The plans were discussed during a meeting between the Council of Development of Cambodia and Republic of Korea's Trade Bureau of the Chungcheobuk-do Administration that was led by Maeng Gyeong Jae. Mr Jae said his visit to Cambodia was intended to understand the local business environment and seek investment opportunities in the Kingdom. Korean enterprises, led by the delegation, are seeking to invest in six sectors, namely the bio industry, solar and new energy industry, cosmetics and beauty industry, organic and food industry, new transportation and aviation industry, as well as the ICT convergence industry, Mr Jae was quoted as saying in the CDC statement. Chheing Yanara, a CDC senior official who chaired the meeting, welcomed the move, saying that the two parties exchanged information and views regarding the investment plans. He said that direct investment from Korea in Cambodia has helped the country's socio-economic development, adding that development cooperation with Korea has been effective and well aligned with the Kingdom's development priorities. (Khmer Time)

### CAMBODIA : Preah Sihanouk master plan discussed

The Economy and Finance Ministry yesterday published results of a meeting discussing results of a pre-feasibility study on a master plan designed to transform Preah Sihanouk province into a multi-purpose economic zone, similar to Shenzhen city in China. The study, carried out by China's Urban Planning and Design Institute of Shenzhen, began in May after a proposal was presented to the experts and the Ministry of Industry and Handicraft and the Finance Ministry. According to a Ministry of Economy and Finance press release, the meeting was chaired by Aun Pornmoniroth, Minister of Economy and Finance. It said the officials during the meeting identified current and future challenges, especially regarding policy. "The master plan has to include a long-term vision based on technology, world-class facilities, the environment, and industrial and economic poles to serve regional production chains," the ministry said. "[It should also include] a high-tech human resource training centre to support industries using advanced technology and innovation." The ministry said the master plan should also include steps to erect financial centres, green belts, agriculture and residential areas, as well as provisions supporting high-quality public service. (Khmer Time)

### CAMBODIA : Cambodia, Malaysia agree to set up specialised tourism cooperation team

Cambodia and Malaysia have agreed to set up a specialised team for tourism cooperation, the Ministry of Tourism of Cambodia said. The agreement came during a Wednesday meeting between Minister of Tourism Thong Khon and Eldeen Husaini Mohd Hashim, the new Malaysian

### PPSP DAILY STOCK PRICE

### PAS DAILY STOCK PRICE

Ambassador to the Kingdom of Cambodia. The team will focus on tourism sector cooperation including tourism information exchange, promotion and human resources development. Eldeen Husaini also asked for the Kingdom's cooperation to promote Malaysia's health tourism sector, urging Cambodia to increase tourism training for Malay language tour guides to meet market demand and halal food service. The two countries are set to sign a memorandum of understanding on the tourism sector during Malaysian Prime Minister Mahathir Mohamad's visit to the Kingdom in September or October. Ministry of Tourism spokesman Top Sopheak said on Thursday that Malaysia is a high-growth economy with many travelling to the Kingdom for pleasure. "We hope that we will be able to manage their demands. The Ministry of Tourism is currently also researching into training Malay language tour guides," he said. *(Phnom Penh Post)*

#### **CAMBODIA : Thai investors seek ties in Kingdom**

Dozens of businessmen and investors from Thailand will seek investment opportunities in the Kingdom during a forum aimed at fostering tie-ups with Cambodian businessmen in Phnom Penh scheduled for today. Ngoun Meng Tech, Cambodia Chamber of Commerce director-general, said that about 40 companies from Thailand will explore partnerships with local partners in Cambodia during the forum this week. "Due to Cambodia's stable economic growth stable, investors including from Thailand are showing interest in looking for investment opportunities in the Kingdom," he said. "Thai businessmen want to explore opportunities here due to the close relationship between the two governments." Mr Meng Tech noted that the business tie-ups would contribute to bilateral trade between both countries. "I don't know yet what sectors the Thai businessmen are interested in but I hope their presence will attract more big companies from Thailand to invest in the Kingdom," he added. Seang Thay, Ministry of Commerce spokesman, recently said that investments from Thailand are increasing because businessmen want to set up factories in Cambodia since products are directly imported from Thailand. *(Khmer Time)*

#### **ASIA : Foreign firms eye bigger markets in Laos**

Companies from Asia, Asean states and Europe are eyeing markets for their products in Laos, which is witnessing strong demand. Despite being a small market in the Asean region with a population of 6.8 million, Laos is an attractive destination for manufacturers from China, Japan, South Korea, Singapore, Malaysia, Thailand, Germany and Italy. They are all looking for business opportunities in the country. The steady growth of the Lao economy is a key factor for industries from these countries considering the expansion of exports to the country. Prime Minister Thongloun Sisoulith said during the recent National Assembly meeting that economic growth in Laos has been good when compared to some other countries, although it was slower than in previous years. Over the past four months, regional growth fell marginally from 5.9% last year to 5.7 this year. Growth in developing nations is expected to decrease from 6.4% last year to 6.2% this year. According to a recent update from the World Bank for East Asia and the Pacific, Laos' gross domestic product (GDP) is projected to grow by 6.6% this year and 6.7% next year. The key factor for the fast-track growth of the Lao economy is large infrastructure projects. *(Vientiane Times)*
