CAMBODIA: CGCC, GuarantCo sign MoU to promote bond market in Cambodia

State-owned enterprise Credit Guarantee Corporation of Cambodia (CGCC) signed a MoU on Thursday with GuarantCo for a structured facility that enhances guarantee capacity in the bond market space. Cambodia is unusual in that its bond market is larger than its equities market when in most countries it would be the other way around. The Cambodia Securities Exchange (CSX) has 23 listed companies – 11 offering their equity shares and 12 offering their bonds. However, it is the bond market that is set to see a boost as five more companies are expected to list, which would take the total number of listed bond players to 17 versus 11-equity players. CGCC said it has a total guarantee capacity of \$200 million. “CGCC had an unusual beginning in that it started right in the middle of Covid. We started guaranteeing loans to SMEs. Today we have guaranteed loans amounting to \$164 million to 1,928 micro, small and medium enterprises (MSMEs) as we mark three years of operation. But our vision has expanded now and we’ve also set up a Sustainable Green Financing Facility and this bond guarantee scheme for which we hope we’ll have a valuable partner in GuarantCo,” said KL Wong, CEO, CGCC. He added that it would be reassuring to prospective bond investors that their partner GuarantCo is a Fitch “stable” and “AA” rated entity. With the partnership, speakers at the events said that CGCC would get technical assistance from GuarantCo on navigating the bond issuances and the bond market. GuarantCo could potentially combine its resources with CGCC to enhance its combined bond guarantee capacity. Also present at the event were Hong Sok Hour, the Royal Government Delegate in Charge as CEO of Cambodia Securities Exchange (CSX) and Seang Thirith, Deputy Director General of Securities and Exchange Regulator of Cambodia (SERC). “At GuarantCo we are keen on enabling sustainable infrastructure in Africa and Asia. So far we’ve encouraged infrastructure development in low-

PPWSA Daily Stock Price

income countries through the provision of credit guarantees that enable infrastructure projects,” said Nishant Kumar, Managing Director (Asia) of GuarantCo, part of the Private Infrastructure Development Group (PIDG). “And in many countries we work like Nigeria and Pakistan we’ve had to set up a credit guarantee facility from scratch. However, Cambodia already has a credit guarantor in CGCC. An extremely innovative approach by the government that I’m not sure I’ve seen replicated anywhere else in this region,” said Denesh Srishanker, Credit Enhancement Facility Director, and PIDG. “We’re keener on local solutions to help local markets. And we do want to close the infrastructure funding gap in countries like Cambodia,” he added. Innovation in funding is something the UK Government is keen on, said Dominic Williams, British Ambassador to Cambodia, while citing Britain’s role as Cambodia’s long-term development partner. “Cambodia has traditionally had a model of relying on the government budget and its external/international development partners. But, guaranteeing bonds for investor confidence could ensure the country gets other sources of funding too for its critical infrastructure projects,” said Williams. GuarantCo Managing Director Kumar also talked about other projects they have done in the country, including providing a \$70 million bond guarantee to CamGSM (popularly known as Cellcard) to finance its telecom infrastructure; its \$24 million bond guarantee to Royal Railway Cambodia to invest in the national railway system; and \$7 million in debt financing to MFI First Finance for building affordable housing for low-and-middle income groups in Cambodia. “We are keen on credit enhancement, providing technical assistance to CGCC and creating viable opportunities for private investors in frontier markets,” said Philippe Valahu, CEO, PIDG. On the timeframe of execution, CGCC CEO Wong said that they (CGCC and GuarantCo) are hoping to do their first combined bond guarantee this year. “On tax incentives, we are not the authority to comment. But I can tell you that we have approached the General Department of Taxation (GDT) and made a representation asking if it would be possible for the government to give some sort of tax incentives for bond investors and those keen on green financing,” said Wong.

CAMBODIA: Cambodia, Hong Kong agree to foster mutual economic growth

The Council for the Development of Cambodia (CDC), the Hong Kong Special Administrative Region (HKSAR) of the People’s Republic of China and the Hong Kong Trade Development Council (HKTDC) Wednesday signed two memoranda of understanding (MoUs) to diversify the economy, develop private sector and foster sustainability for common benefits. Both agreements were inked in the presence of Prime Minister Hun Manet and John FC Lee, Chief Executive of HKSAR. Sun Chanthol, Deputy Prime Minister and First Vice Chairman of CDC signed MoUs with Margaret Fong, Executive Director of HKTDC and Agnes Chan, Chairman of Hong Kong General Chamber of Commerce at the Peace Palace. According to a CDC press release, the first MoU between the Hong Kong Investor of HKSAR focused on strengthening investment cooperation, while the second MoU made with the HKTDC to facilitate investment and trade interaction for the businesspersons in both countries. HKSAR Chief Executive presided over a press meet on the event theme, ‘Super-connecting New Pathways to Success: Hong Kong-Cambodia Partnerships in Fostering Mutual Prosperity and Economic Development’ which was attended by over 50 media outlets from both local and international institutions at the Sofitel Phnom Penh Phokeethra. Wang Wenbin, Chinese Ambassador to Cambodia, Kith Meng, President of Cambodia Chamber of Commerce (CCC) and Dr Peter K N Lam, Chairman of HKTDC were present on the occasion. To a specific query raised by Khmer Times, Chief Executive of HKSAR John FC Lee said, “Hong Kong will act as the connector to facilitate trade and investment flow with China as we agree to collaborate with the Kingdom on many aspects such as commercial, finance, technology and industrial sectors.” “Cambodia is a developing country and its market is full of opportunities to promote business activities as well as connect trade overseas.” John emphasized that Cambodia and China have signed and exchanged 13 agreements and MoUs to boost trade, human capital, aviation, technology and infrastructure development aimed at strengthening cooperation and promoting commerce, contributing to the Belt and Road Initiative. This is John’s first trip to explore new trade and investment opportunities in the Kingdom. “During the meeting with the Premier, we agreed to improve many fields and sectors to further develop Cambodia and I personally was amazed by the country’s GDP between 5 to 6 % every single year,” he added. During the event, John said, “The objective of the mission is to explore opportunities and forge connections that will strengthen the relationship between the two nations. “The HKTDC has 50 offices globally, including 6 in ASEAN such as Thailand, Vietnam, Indonesia, Malaysia, Singapore and the Philippines,” he said. Speaking to Khmer Times, Dr Ben Li, Founder and Honorary Chairman of Cambodia Chinese Commerce Association (CCCA) said, “In the last 2 decades, Hong Kong investors mainly focused on manufacturing including shoes, garments and footwear, however, the investors are turning their interest to the logistic sector.

CAMBODIA: Cambodia riding the second wave of startups

There can be no two opinions that a vibrant startup ecosystem can be a step forward in taking Cambodia to the next level in reviving and promoting the economy. In a short span of time, the country has witnessed as many as 11 accelerators, six incubation centers and 6 hackathons with total funding of 22.6 billion riels (\$5.49 million) and while analysts term Cambodia's market has not yet matured, it won't be erroneous to say that the startups in the Kingdom have entered its second wave. The startup ecosystem in Cambodia is dominated by tech startups with a majority of these focused on SaaS and e-commerce. The country as a whole saw 177 startups operational in 2023. Of this, 129 were tech startups. The total funding raised by the startup ecosystem in 2023 was around 22.6 billion riels (\$5.49 million). The dominant sector among tech startups is SaaS or Software-as-a-Service. The share of SaaS startups in Cambodia's overall ecosystem is 17.1 %, followed by e-commerce with 14 %. Put together, SaaS and e-commerce make up nearly one-third of the total ecosystem in Cambodia, as per data from the Ministry of Economy and Finance's initiative Startup Cambodia. Startup Cambodia also said that 2023 saw the mushrooming of nearly twice the number of startups as 2022, when 98 startups were functional. Tech seems to be in charge in 2023 as of total startups of 177, 129 were tech startups and 21 tech-enabled startups. SaaS leads the race on why SaaS is so popular; industry insiders say that Cambodia is following a global trend. "Our company is on the SaaS model too. The reason we chose this playbook is that it is a global trend as it is easy to adopt, no high overhead and pay what you use. So this is why it's highly popular," said George Lee, CEO, and Innov8tif, a SaaS-based company with insurance, banks and telecom clients in Cambodia. SaaS startups in the country include CheckinMe, Jobify, Casstack, Invoice Mouy, LocalizeBook, Kakvei, DelightTech Plc, Khmer Tech Market, Bong IT, eCO app, Kommong, Hor Pao, Optimus, 606 Digital, Digital Mavericks, Polymer Invoice, Campus.by Wonderpass, InsurTech, MGA Cover, Workingna, OceanTechnology Co and Quadusk. Among the startups on its platform, Startup Cambodia says SaaS companies have emerged as frontrunners. "This trend can be attributed to several interconnected factors. We can feel there are many software solution companies in the market who have been providing software solutions to their business clients," Ngunly Taing, Executive Director, Techo Startup Center (TSC), told Khmer Times.

CAMBODIA: ISI Group keen to invest in SEZ

ISI Group, a local market leader in the manufacturing and distribution of building materials, building solutions and property development and technology sectors, unveiled its business plan to establish a special economic zone along the Chinese-invested Phnom Penh-Sihanoukville Expressway. The Group presented the business plan in a meeting on Monday to the Council for the Development of Cambodia (CDC) chaired by Chea Vuthy, CDC's Secretary General of the Cambodian Investment Committee. Kang Leng, CEO of ISI Group, said that his company is keen to establish the SEZ, under the name of Golden Port SEZ Development Co Ltd, along the Phnom Penh-Sihanoukville expressway. "The Group's SEZ investment project is over 270 hectares of land in the first phase, located along the Phnom Penh-Sihanoukville Expressway in Preah Sihanouk province," Leng said. Vuthy welcomed the delegation to explore the special economic zone investment project and investment opportunities, stressing that the Cambodian Investment Committee is ready to facilitate the Group on the business plan. "The company's special economic zone investment project will contribute to industrial diversification in Cambodia," he said. In the meeting, CDC officials also briefed the delegation about the development of special economic zones in Cambodia and the investment registration procedure for creating special economic zones for the delegation had better understand the current state of the investment environment in Cambodia and the simplicity of procedures for applying for investment in special economic zones. Currently, Cambodia has 26 operational special economic zones and created jobs for nearly 160,000 people. Those SEZs house some 560-investment projects. Located in Phnom Penh and provinces bordering and at international gates, including Svay Rieng, Banteay Meanchey, Koh Kong and Sihanoukville, these SEZs play an important role in attracting foreign investment, especially new high-value-added industries.

CAMBODIA: Cambodia's exports to RCEP countries up 11 % in first semester of 2024

Cambodia exports to the Regional Comprehensive Economic Partnership (RCEP) countries rose by 11.15 % to \$4.52 billion, a report from the Ministry of Commerce showed on Sunday. From January to June this year, the Kingdom imported \$12.38 billion worth of goods from RCEP, an increase of 15 % from \$10.73 billion in the same period last year. This made the country's trade with RCEP reaching \$16.9 billion, a year-on-year increase of 14.15 %, accounting for 64 % of the country's total international trade of \$26.38 billion. Penn Sovicheat, Secretary of State and Spokesperson of the Ministry of Commerce, said under the mega-regional trade pact, with almost zero trade tariffs, exporters have been able to take advantage of the trade deal, resulting in increased exports and imports from Cambodia. "Increasing

PEPC Daily Stock Price

exports to the RCEP signifies the potential market and demand for Cambodia's products," Sovicheat told Khmer Times. The RCEP free trade agreement entered into force on January 1, 2022. The regional trade pact comprises 15 Asia-Pacific countries, including the ten Member States of the Association of Southeast Asian Nations (ASEAN) — Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, the Philippines, Singapore, Thailand and Vietnam — and their five trading partners, namely China, Japan, South Korea, Australia, and New Zealand. The mega trade pact has given a major boost not only to Cambodia's exports but also to investments in the country to generate more exports to the huge markets of RCEP. In the first half of 2024, the Council for the Development of Cambodia approved 190 investment projects up from 113 projects in the same period last year, with a total investment of \$3.25 billion, an increase of 195 %. Local investors, followed by Chinese investors who dominated the majority, and the rest from Singapore, Vietnam, Korea, and Malaysia, led the main investment capital sources. The RCEP with new law on investment are the key factors in attracting FDI inflows to the country, said Lim Heng, Vice-president of the Cambodia Chamber of Commerce. "The Regional Comprehensive Economic Partnership not only offers broad market access to Cambodia's products but also attracts investors to inject investment in Cambodia to process and produce for domestic markets and export," Heng said.
