CSX DAILY STOCK INDEX (Last 30 Days)

SECURITIES NEWS

CAMBODIA : Market Watch

The Cambodia Securities Exchange (CSX) fell 0.63 points (0.10 percent) to close at 644.43 points yesterday. Daily trading value was low at 154 million riels as trading volume was average at 48,793 shares exchanged. The day's losses were caused by PEPC, PPAP, PPSP and PWSA all falling 140, 80, 10 and 140 riels respectively with PPSP registering the day's largest trading at more than 63 million riels. The only stock to increase yesterday was PAS which rose 180 riels to close at 13,800 riels a share as the usual market mover ABC held steady again at 17,100 with the second-highest trading value of 52 million riels. (Khmer Time New)

CAMBODIA : PPCBank bond trade was a 'transfer, not a sale'

\$500,000 of Phnom Penh Commercial Bank (PPCBank) bonds were traded on the secondary market yesterday, selling at their face value of 100,000 riels. The transfer of the 20,000 units confused the market after PPCBank bonds had been sold at a premium only two weeks ago, creating the first "fair market" value for bonds listed on the Cambodia Securities Exchange (CSX). However, speaking yesterday, Han Kyung Tae, managing director of Yuanta Securities (the lead manager for the bond issuance), said the trade was an intercompany transfer and hence did not represent a "fair market" value for the bond. "While I cannot disclose the company that transferred the bonds, I can say this was not a sale between two parties and hence should not be interpreted as a "fair market" [transaction in] the local bond market," Han said. "The company that purchased the bonds on the primary market decided to transfer them within a subsidiary. The transfer was at the bond's face value of 100,000 riels with a slightly higher yield-to-coupon ratio to cover the daily interest accrued," Han added. Last month PPCBank's foreign exchange-indexed bonds became the first corporate bonds listed on the CSX to be traded on the secondary market. (Khmer Times New)

CAMBODIA : PPSP share buyback planned for mid-December

Phnom Penh Special Economic Zone (PPSP) will commence and execute its share buyback plan in the middle of December, if approved by the exchange and its regulator, according to

information given to Khmer Times by the company's management. PPSP Chief Financial Officer Fong Nee Wai said, regarding the share buyback plan, that PPSP Management received shareholder approval for the plan via a shareholder resolution passed at the Extraordinary General Meeting. "The management plans to meet with the Cambodia Securities Exchange (CSX) team before starting the share buyback plan, then will keep the SECC informed accordingly as the plan is executed on the CSX," he said. "Tentatively management is set to commence and execute the share buyback in the mid of December. Once executed, the share buyback, its related activities and numbers will be reported to the CSX and disclosed [publicly] immediately. The above activities must first obtain regulator and CSX approval before PPSP can proceed further," he added. (*Khmer Time New*)

CAMBODIA : ABC and ABA post record profits as digitalisation plans pursued

Record Q3 profits of Cambodia's "big two" listed banks, ACLEDA Bank (ABC) and ABA Bank (ABA), have highlighted both company's huge potential for profitability despite major economic headwinds this year. According to reports disclosed to the Cambodia Securities Exchange (CSX), ABC and ABA posted \$98 million and \$103 million in after-tax profit respectively during the first nine months of 2020. ABC posted an increase of 14 percent year-to-date, with ABA showing a 23 percent jump compared with the same period last year. Both banks have managed to grow their market share with ABA increasing loan accounts 15 percent to 77,792 and ACLEDA increasing 3.6 percent to 551,055 loan accounts. The rising profits have been derived largely from a surge in loan growth. Investors are now also pushing both banks to increase their digitalisation efforts in order to capture market share, enhance efficiency and reduce operational costs. It is hoped that increased digitalisation can address these factors, allowing the banks to increase their profit margins and improve their return on average equity (ROAE). ABC's currently stands at 3.41 percent with ABA's at 5.56 percent. Local investment firm Mekong Strategic Partners (MSP) said that both banks are doing well with their digital offerings and respective customer adoption rates. However, it added that satisfying consumer behaviour and needs and ensuring a simple and convenient customer experience are still underlying issues. (*Khmer Time News*)

CAMBODIA : CSX largely unfazed by Nov 28 event

The Cambodia Securities Exchange (CSX) has seen minimal slowdown in stock trading and marginal changes in share prices in light of the Kingdom's first local transmission on November 28, its vice-chairman Ha Jong-weon said on December 2. The CSX index closed at 647.73 points last week, then dipped 0.27 per cent on November 30 and then inched down an additional 0.26 per cent on December 1 to end at 644.30. It rebounded 0.12 per cent to close December 2 at 645.06. Ha said the announcement of the local transmission had no bearing on the index, noting that it was too soon for investors to assess the adverse effects it would have of listed firms' operations. "Yet, as some stocks' prices have fallen low, under market value, investors should consider taking advantage of this to make a profit, given trading can be done online conveniently and free from [the risk of] viral infection," he said. He praised Cambodia's success in controlling the spread of Covid-19 over the past year and voiced his confidence that it would continue to do so. While fresh concerns gripped the Kingdom following the news, he said the situation "seems to be manageable, as only 17 people have been found to be positive so far out of the nearly 5,000 tested, and the government has taken very effective and prompt action." The CSX index has fallen 15.31 per cent from December 31's close at 761.73 points and 25.83 per cent from its all-time high of 869.69 – attained on October 9, 2019. (*Khmer Time News*)

BUSINESS & ECONOMIC NEWS

CAMBODIA : Shortage of containers drives hike in marine shipping prices

International marine cargo shipping services in Cambodia have become more expensive over the past few months, further compounding exporters' Covid-19-related woes. The price hike comes as fewer container ships from China and Europe dock in the Kingdom on the back of dwindling inbound orders of raw materials to supply the Kingdom's factories amid Covid-19. Cambodia Logistics Association (CLA) president Sin Chanthy told The Post on December 3 that it now costs \$2,000 to ship a 40-foot container to China from Sihanoukville Autonomous Port, eclipsing the \$600 price tag seen in August. He pointed out similar price increases for shipments to the US and Europe. "The price will likely retreat again in January or February 2021, and if not, we'll seek government intervention," Chanthy said, noting that the jump in prices had damaged the transport sector and companies' competitive advantages. "This increase in fees will affect consumer prices and the national economy as a whole," he warned. Logistics company VTS (Cambodia) Co Ltd on November 28 announced that it had temporarily suspended its marine shipping services from the southern Chinese city of Guangzhou in favour of land transport. But it will continue ocean transport out of its base of operations in Yiwu city

in eastern Zhejiang province with prices subject to change, the company added. *(Phnom Penh Post)*

CAMBODIA : Russia FTA feasibility study on the cards

Cambodia and Russia are planning a joint feasibility study on a potential free trade agreement (FTA) aiming to reinforce trade and investment ties between the two countries and offset lacklustre import/export figures exacerbated by Covid-19. Ministry of Commerce secretary of state Sok Sopheap said this on December 1 when he led a ministerial delegation to meet newly-minted Russian ambassador to Cambodia Anatoly Borovik via video link. Borovik stressed that Covid-19 had led to a global decline in consumer spending, orders and goods transport, as well as a deceleration of bilateral trade growth between the two countries. He praised the government leadership for taking effective measures against the pandemic, noting the absence of Covid-19-linked fatalities. Sopheap pointed out achievements of the Kingdom's FTA strategy, including signing an agreement with China on October 12 and completing the fourth round of talks with South Korea on another. These, coupled with the Regional Comprehensive Economic Partnership (RCEP) agreement inked on November 25 and existing agreements within the ASEAN Plus One framework, have provided the Kingdom access to a wide range of markets, he said. ASEAN Plus One refers to ASEAN's respective cooperation mechanism with Hong Kong and mainland China, India, Japan, South Korea, Australia and New Zealand. Sopheap said: "In this context, Cambodia needs more investment from the Russian Federation, especially in the field of light and medium machinery to strengthen the Cambodian industry's competitive edge and increase exports." In this spirit, he said, Cambodia expresses its intent to conduct a feasibility study on a bilateral FTA with Russia as soon as possible. *(Khmer Time New)*

CAMBODIA : Sihanoukville Port CEO recognised by Japan for development feats

The chairman and CEO of Sihanoukville Autonomous Port, HE Lou Kim Chhun, has received a 2020 Spring Conferment of Decorations from the Japanese government for his contributions in promoting the relationship between Japan and Cambodia in the field of port development. Kim Chhun spoke of his achievements and experiences developing Sihanoukville Port – the Kingdom's sole international deep-sea dock – with the Japan International Cooperation Agency (Jica) to boost Cambodia's economic and industrial activities. "With profound emotions, it is my great honour and pleasure that my achievements – particularly the further strengthening of the friendship and cooperation between Japan and Cambodia in terms of the development of Sihanoukville Port – have been valued so highly and recognised as outstanding. "This also highlights the remarkable accomplishments and significant contributions made in the progress of Japanese civil engineering and the promotion of exchange and cooperation between Japan and Cambodia. "I am sure that the close relationship and strong cooperation between Japan and Cambodia will contribute further to poverty reduction and the Kingdom's development," he said. Kim Chhun went on to outline his positive experiences and the remarkable achievements made over the past 20 years from Jica projects and the assistance of Japanese experts in the development of Sihanoukville Port. Of the many Jica projects, the agency provided technical cooperation on the "The Study on Master Plan and Feasibility Study of Sihanoukville Port" project from 1996-97. *(Phnom Penh Post)*

VIETNAM : Many Belarusian car models continue to be produced in Vietnam

According to the Protocol between Vietnam and Belarus, the two sides will facilitate the smooth operation of the EU-standard car manufacturing joint venture in Vietnam Minister of Industry and Trade Tran Tuan Anh and Ambassador of the Republic of Belarus in Vietnam, Vladimir Goshin, signed the Protocol. (Photo: Bao Moi) The signing ceremony of the Second Amendment of the Protocol between the Government of Vietnam and the Government of the Republic of Belarus on supporting the production of motor vehicles in the territory of Vietnam took place at 15:00 on December 3. Authorized by the Government of Vietnam and the Government of the Republic of Belarus, Minister of Industry and Trade Tran Tuan Anh and Ambassador of the Republic of Belarus in Vietnam, Vladimir Goshin, signed the Protocol. Following the FTA between Vietnam and the Eurasian Economic Union signed in 2015, the signing of the Protocol to support the production of motor vehicles in the Vietnamese territory between Vietnam and Belarus - a member of the Eurasian Economic Union in March 2016, created an essential framework for cooperation projects in the automotive industry between the two countries. According to this Protocol, the MAZ car company of the Republic of Belarus and its Vietnamese partner established MAZ-Asia Joint Venture Company Limited to manufacture and assemble trucks and some specialized vehicles. On September 26, 2019, the joint venture's factory was inaugurated in Hung Yen province. *(VNEXPLORER)*
