CAMBODIA: CSX to facilitate instant account opening soon

Cambodia Securities Exchange (CSX) is working on a plan to reduce the current waiting period for opening trading accounts and by the end of the year enable new investors quickly access the capital market through instant account opening online. In an exclusive interview with Khmer Times, Hong Sok Hour, CEO of CSX said on Tuesday that the number of applications for opening trading accounts has increased several times in recent months and currently there is a waiting period of at least a month to get the accounts opened. "The pace of applications for new accounts has started picking up since by end of last year and we are adding nearly 1,000 accounts every month now. For new investors, currently, there is a waiting period of 1 month for getting the accounts opened. Some even waited more than a month," Hour said on the sidelines of a ceremony organized at CSX to list Cellcard on the bourse. The CEO said CSX would upgrade the system and help applicants to open accounts quickly online, adding that it is planning to introduce the improved system before the end of the year. "The process is a bit complex now and we are trying to simplify it. Once the new system becomes operational, investors can start trading immediately after opening an account online," he said. According to Hour, the applications for new accounts went from 20 or 30 a month in 2017 to around 1,000 a month now due to the growing interest among the public regarding the capital markets in the country. "The CSX together with SERC (Securities and Exchange Regulator of Cambodia) are trying to raise this awareness further by organizing various educational programmes on a regular basis," he noted. As per the latest count, the number of trading accounts with CSX has reached 42,121. The number expected to go up to nearly 50,000 by the end of the year. The average daily trade volume on the bourse is around \$300,000 now. Hour pointed out that though there is a slight decline in the total trade volume

this year, compared to last year, one could see greater participation of investors in trading activities. The CEO said the recent Initial Public Offerings (IPOs) of Cellcard and MJQE have also helped in raising awareness among the public about the potential of capital markets. While Cellcard was listed on CSX on Tuesday for trading, MJQE was listed yesterday. The stock exchange has listed 20 companies so far, collecting over \$300 million. Of them, 11 are equity firms and nine, corporate bond firms. Of the 11 stock-listed companies, nine are on the Main Board and two on the Growth Board. CSX launched in 2012 as a public enterprise with a 55 % stake held by the Royal Government of Cambodia and the remaining 45 % shares held by the Korea Exchange. It targets a daily trading volume of \$100 million by 2030 when Cambodia becomes an Upper Middle-Income country. CSX now operates the securities market, payment and deposit centers and depositories in accordance with the Law on the Issuance and Trading of Non-Governmental Securities and subsequent regulations. Business & Economic News

CAMBODIA: Cambodia's exports to Japan up 0.4% at \$780M

Cambodia's exports to Japan reached \$780 million in the first 5 months of this year, up 0.4 % from the same period in 2022, according to a report from the Japan External Trade Organization (JETRO) yesterday. The Kingdom's import from the East Asian country rose 1.9 % to \$215 million, resulting in a trade surplus of \$565 million for Cambodia. The main exports to Japan are garments, bags, footwear, furniture, cosmetics, paper and office supplies, and leather goods. Cambodia imported machinery, automobiles, electronics, furniture, fabrics and plastics from Japan. The Kingdom's export to the Regional Comprehensive Economic Partnership (RCEP) countries, including Japan, has significantly increased, indicating that Cambodian products are attractive in those markets, said Penn Sovicheat, representative at the Ministry of Commerce. "The RCEP which offers free trade status has boosted exporters and importers to work and scale up export import activities to benefit from the pact, pushing the amount of exports and import significantly," Sovicheat told Khmer Times. The RCEP pact, comprising 15 countries – 10 ASEAN member states, China, Korea, Japan, Australia, and New Zealand – came into effect in January 2022. Prime Minister Hun Sen has encouraged a further expansion in trade relations between Cambodia and Japan to benefit the trade agreement under the framework of the RCEP. The Prime Minister has also asked the Japanese ambassador to Cambodia UENO Atsushi to help promote Cambodia's products in the Japanese market. "Besides the RCEP memberships, the existing bilateral relations must be strengthened so that Cambodian goods can access the Japanese market," he said at an inauguration ceremony for the container terminal at the Sihanoukville Autonomous Port in May. Cambodia and Japan have pledged to boost further economic and investment cooperation as they mark the 70th anniversary of the diplomatic establishment between the 2 countries, saying that the 'comprehensive strategic partnership' between both countries is expected to attract more Japanese investment and open a wider market for Cambodian products. Cambodia looks upon Japan as a prioritized trade partner for talks on a bilateral free trade agreement (FTA) to be establish, according to the Ministry of Commerce, pushing them to conduct a study of the possibility of establishing a free trade agreement to strengthen cooperation between the 2 countries and promote a better business environment. CAMBODIA: Fresh mango exports reach over 88,509 tons

Cambodia's export of fresh mangoes in the first 5 months of this year reached more than 88,509 tons. Cambodia's export of fresh mangoes in the first 5 months of this year reached more than 88,509 tons. Vietnam bagged the top spot for Cambodia's fresh mangoes with export figures hitting 74,681 tons during the period, a spokesperson at the Ministry of Agriculture, Forestry and Fisheries said on Wednesday. Cambodia also exported 13,828 tons of mangoes to Thailand in the first 5 months of 2023. In addition to fresh mangoes, the Kingdom also exported more than 382 tons of mangoes to Thailand, while the mango confectionery products did not. Export to Vietnam in the last 5 months. The spokesperson said that the country exported more than 477,791 tons of fresh mangoes to Vietnam from 2019 to May 2023. It also exported 138,337 tons of fresh mangoes to Thailand during the period. The Kingdom exported 169,658 tons of fresh and dried mangoes in the first 11 months of last year, a decrease of 30.28 % compared with the same period in 2021, an earlier report pointed out. While the country exported 152,994.68 tons of fresh mangoes during the period, it shipped 16,663.5 tons of dried mangoes. Last year, the major markets for Cambodia's mangoes were Vietnam, Thailand, China, South Korea, Hong Kong and Austria. The main markets for dried fruits were China, Thailand, the Philippines, Vietnam, Japan, Russia, Italy, the UK, South Korea, the US and Australia. In May this year, Prime Minister Hun Sen said Cambodia exported products worth \$7.23 during the January-April period of this year, a year-on-year decrease of 4.9 % from \$7.6 billion. "Our export was valued at \$7.23 billion in the first four months of this year, a slight decline compared to the same period last year," he said. The premier said

CAMBODIA: Phnom Penh-based ACLEDA secures \$100M for strategic growth

Chinese-sponsored Asian Infrastructure and Investment Bank's (AIIB) \$100 million loan to locally public-listed ACLEDA Bank Plc will fund the latter's domestic expansion and increase investor confidence in the Phnom Penh-based lender, according to the head of the Cambodia Securities Exchange (CSX). The loan will have a 5-year term, with a variable interest rate from 8.8-11 % – presumably per-annum – and anticipated first disbursement date in December. "This facility will provide new loans to micro, small and medium enterprises [MSME]. The long term facility is to support strategic growth and diversification of funding sources in line with the bank's plan," ACLEDA said in a filing to the CSX. CSX CEO Hong Sok Hour commented to The Post on July 5 that the expansion strategy of any company should comprise a variety of funding sources to support their growth, including the capital market. However, appropriate debt management is necessary to minimize risks, he stressed. "Listing on the CSX gives them [companies] much credibility, allowing them to easily obtain loans or credit, particularly from foreign lenders who might offer them low interest rates. The debt will help firms to growth more as they become better positioned to expand their business. "Companies must, however, make sure that their debt loads are manageable and won't expose them to excessive risk – businesses can achieve their growth objectives by using debt effectively," he cautioned. "As investors from the general public pay them more attention, listed companies will enjoy very good reputations," Sok Hour said. ACLEDA has four subsidiaries, namely the ACLEDA Institute of Business, ACLEDA Securities Plc, ACLEDA Bank Lao Ltd, and ACLEDA MFI Myanmar Co Ltd as well as representative offices in Myanmar. As of end-March, ACLEDA had \$9.44 billion in total assets, \$6.58 billion in total credit balances, and \$6.79 billion in total savings deposits with over 4.07 million customers. For comparison, all four figures marked quarter-on-quarter increases from the numbers that the local lender posted for end-2022: \$8.92 billion in total assets, \$6.25 billion in total credit balances, \$6.22 billion in total savings deposits, and 3.98 million customers. As of end-April, ACLEDA Mobile had 2.76 million subscribers and 240,000 merchants, according to the bank. *(Khmer time)*
