**CAMBODIA: 'Job opportunities increasing in manufacturing sector'**

Prime Minister Hun Sen said yesterday that the manufacturing sector is creating more jobs for Cambodians, which is helping to improve their livelihoods as the government has been taking several steps to attract more foreign investment to the country. Speaking at a get-together with garment workers in Kampong Chhnang province, the premier said the industrial sector plays an important role in Cambodia's economic development, adding that the government is attracting more investment and gaining access to markets abroad under trade deals. "The industry sector currently accounts for the biggest share of the economy, 38 percent of the country's gross domestic product (GDP). Under the Industrial Development Policy, it will be expanded continuously and new jobs will be generated through the influx of new investment," the Prime Minister said. The total number of active manufacturing factories in the country is 1,999, according to the Ministry of Industry, Science, Technology, and Innovation's report. Factories produced a variety of goods, from garments to high-tech solar panels and electronic components. The garment, footwear, and travel goods industry is the largest foreign exchange earner for the country. It consists of more than 1,320 factories and branches, employing approximately 850,000 workers, mostly female. Lim Heng, vice president of the Cambodia Chamber of Commerce, said the Regional Comprehensive Economic Partnership (RCEP), Cambodia-China Free Trade Agreement (CCFTA), and the country's favorable new investment laws are key to attracting new investors. "Many new factories have been established in Cambodia, clearly showing that the country is a potential destination for both domestic and foreign investors due to FTA, RCEP, and trade preferences," Heng told Khmer Times. The Prime Minister also tasked all provincial governors to jointly promote and attract investors for potential investment opportunities in their respective provinces. "I hope that all relevant parties will try their best to make the industrial production in Cambodia able to feed not only

the domestic market demand, but also exports,” he said. In 2022, Cambodia exported a total of \$22.4 billion worth of goods, up 16.4 % from a year ago. Cambodia’s main export products are garments, machinery and electrical equipment, footwear products, leather goods, grain, furniture, rubber, fruits, vegetables, pearls, toys, and textiles. #### CAMBODIA: ACLEDA Bank, Credit Bureau ink financial health check services pact

ACLEDA Bank Plc, the first listed commercial bank in Cambodia, signed an agreement with Credit Bureau (Cambodia) Co., Ltd. (CBC), a leading credit reporting service provider, for cooperation on financial health check service via the ACLEDA mobile app. In Channy, President and Group Managing Director, ACLEDA Bank, said: “In 2019 ACLEDA Bank and CBC inked a business partnership as a first step to providing financial health check services, which allowed clients to check their own credit history at ACLEDA Bank branch offices in Phnom Penh and all provinces. “It is important for clients to have a financial health check before applying for a loan, as law also requires this condition and helps protect the client and the financial sectors from risks. It is now the second step for ACLEDA Bank and CBC to sign an agreement for cooperation on financial health check service via ACLEDA mobile app to provide a faster, easier way for customers to request their credit report anytime, anywhere from their smartphones with moderate fees,” Channy added. The CBC function in ACLEDA Mobile will show the history of borrowing and repayment of customers with ACLEDA Bank or other banks and financial institutions. Oeur Sothearoath, Chief Executive Officer, and CBC, said, “Our continued partnership with ACLEDA Bank aims to serve a broader community of Cambodians across the country. It reflects our commitment to providing accurate and real-time credit reports to borrowers, helping them make better financial decisions and promoting financial inclusion. Keeping up with the digital transformation in our industry and society, this platform will be beneficial to all Cambodians and contribute to improving digital financial literacy across Cambodia. “Personal Credit Report records individual borrowers’ credit payment history compiled from all financial institutions that are members of CBC. All lending financial institutions are required to report credit information to CBC. Lenders need to check loan requester’s personal credit file to assess their credit worthiness before deciding to issue a loan. A good credit repayment history will make it easier for a requester to qualify to receive a loan. ACLEDA Bank has four subsidiaries, including ACLEDA Institute of Business, ACLEDA Securities Plc., ACLEDA Bank Lao Ltd., and ACLEDA MFI Myanmar Co., Ltd. as well as representative offices in the Republic of the Union of Myanmar. #### CAMBODIA: JS Land to expand operations to Macau, Hong Kong

JS Land Plc, which is planning to expand its operations to Macau and Hong Kong this year, announced a decline of 12.31 % in its total comprehensive loss to KHR 1.42 billion riels in the first quarter ended March 31 as compared to the corresponding quarter in FY2022. In a filing to CSX, the company said it “solid sales result as forecasted and will continue to make good progress as per forecast”. Oknha Koy Le San, Executive Chairman, JS Land, said the company plans to expand its operations to new markets, including Macau and Hong Kong this year. “In line with our vision for growth, we are planning to expand our businesses and source of income in 2023. This year, we are planning to expand our presence in new markets — Macau and Hong Kong. Our unique products positioning and customer-centric approach will surely have helped us gain a competitive edge in the new markets. We are confident that these new markets will contribute significantly to our future growth,” Le San said. He said JS Land is also planning to expand into the rental business by converting its unsold units for rental to increase its income source. He said the company’s current development — The Garden Residency 2 — is on schedule and it is confident to hand over the property to all buyers by the third quarter of 2023. The executive chairman also said JS Land is in the final stage of planning a new development — The Garden Residency 3 — by the end of 2023. The company said as of March 31, 2023, The Garden Residency 2 achieved overall 61.14 % work completion. JS Land said its revenues are from condo unit sales and other income. “As of 31 March 2023, JS Land has sold up to 75 % of total units of The Garden Residency 2 (TGR 2). However, in accordance with the requirements of International Financial Reporting Standards (IFRSs), all revenues recognized at a point in time upon transfer of the ownership of the residential units to the customers. Hence, since TGR 2 is still under construction, in this first quarterly report, JS Land has reported no property sales,” the company pointed out. Its other income surged 235.80 % to 92,556,000 riels in the first quarter as compared to the corresponding quarter in 2022. The company’s board observed that the condominium market in Cambodia has been rather challenging due to the high supply of condominiums in Phnom Penh. “In order to lower the risk of holding on the unsold properties, JS Land always actively promote the products by introducing new attractive packages with affordable payment scheme to achieve sales target,” it said. On March 2023, JS Land launched an attractive package for The Garden Residency 2 with a low entry price. Buyers will have to pay only \$288 per month with 0.66 % interest and with no deposit to buy a unit of The Garden Residency 2. “With the special package, we are proud to

say that The Garden Residency 2 has achieved its forecasted sales target in the first quarter. (Khmer time)

#### CAMBODIA: S'ville port operator's Q1 net profit doubles

Local public-listed Sihanoukville Autonomous Port (PAS) reported an overall decline in business performance in the first quarter of the year – ended March 31 – stemming from regional and global economic slowdown. In a June 1 filing to the Cambodia Securities Exchange (CSX), the state-owned enterprise posted total revenue and net profit after tax to the tune of 77.627 billion riel (\$19 million) and 65.978 billion riel for the January-March quarter, respectively down 14.11 % and up 99.68 % year-on-year from 90.4 billion riel and 33.042 billion riel. “This was due to [a] decrease in container cargoes and cargoes throughput, yet [an increase] of net gain[s] from assets classified as held for sale, land in Koki village, Bit [Traing] commune, Prey [Nop] district, Preah Sihanouk province [resulted in] the increase in net profit after tax compared to [first] quarter 2022,” PAS chairman and CEO Lou Kim Chhun said in the filing. As of March 31, total assets and total equity stood at 1.500 trillion riel and 929.778 billion riel, up 5.15 % and up 7.64 % year-on-year from 1.426 trillion riel and 863.801 billion riel. Container throughput amounted to 174,649 TEUs (12-foot equivalent units) in the 3-month period, down 23,533 TEUs or 11.87 % year-on-year. A TEU is an inexact unit of cargo capacity used in the shipping industry roughly equivalent to a container with internal dimensions measuring about 20 feet long, 8 feet wide and 8.5 feet tall, or a volume roughly 38.5 cubic meters. “PAS is going to continue its efforts to improve the business and service operation[s] and to achieve the best results for the benefits of our shareholders. PAS has strengthened the work efficiency and built additional infrastructure to meet the increasing demand of customers and the growing economy,” Kim Chhun said. With rising cargo and container throughput, PAS is building a new container terminal set to be 350m long and 14.5m deep in its first phase. The facility will be equipped with three quay cranes (QC), nine rubber tyred gantry cranes (RTG), two empty-container reach stackers, 16 container lorries, and an automated management system. “This new container terminal will allow larger container vessels in [the] region [to call on] PAS, which would solve the water depth constraints for the port. Also, the Ocean Freight Cost would be like neighboring countries and the region which would contribute to trade facilitation and [socio-economic development],” he said. According to Kim Chhun, Phase I is expected to be completed by mid-2025 and open before the end of that year, with initial annual container-handling capacity at 1.15 million TEUs. For reference, the port's current annual container-handling capacity has reported at 700,000 TEUs. (phnompenh post)
