SECURITIES NEWS

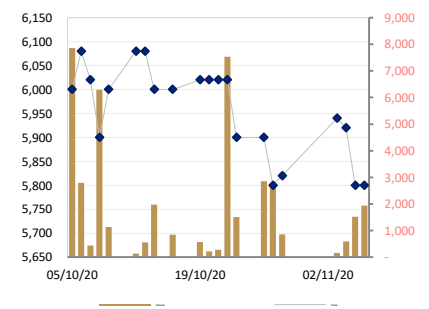

CAMBODIA : Market Watch

The Cambodia Securities Exchange index recorded a fall of 1.03 points (0.16 percent) yesterday, falling to 649.94 points. Trading volumes were again below average at 246,586,400 riels (\$60,774) with 19,384 shares exchanged. The market mover ACLEDA Bank (ABC) recorded the day's highest trading value, more than 217 million riels, and held steady at 17,180 riels a share. Pestech Cambodia (PEPC), Phnom Penh Special Economic Zone (PPSP) and Penh Water Supply Authority (PWSA) fell 20, 50 and 120 riels respectively, pulling the market down. Grand Twin International Cambodia (GTI) did not trade. (Khmer Time New)

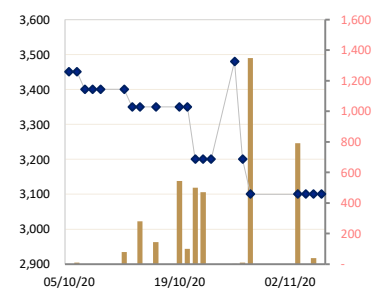

CAMBODIA : Securities Exchange Commission says there is no lack of auditors

The Securities Exchange Commission of Cambodia (SECC) has responded to concerns that a lack of licensed auditors may be affecting listed companies' ability to submit interim financial results in full and on time to the market regulator. According to the Prakas of Corporate Disclosure, all listed companies shall submit a quarterly report to the SECC (for review) within 45 days after the end of a quarter before being released publicly on the Cambodia Securities Exchange. However, with the increasing number of companies listed (now at 13), as well as a growing need for private businesses to adhere to tighter tax regulation, there is a fear that increased costs and delays will enter the industry. For the second reporting quarter this year both PRASAC Microfinance and Grand Twins International missed the regulator's deadline, while there were also revisions of the financial results submitted after publishing. The most common reason given for the delays was a lack of resources and time for the audits. According to Group CEO of Cambodian Investment Management Holding Anthony Galliano, the Kingdom has a limited supply of certified accountants which has resulted in a scarcity of licensed accounting and auditing firms. "There has also been an increase in listed companies requiring licensed auditors. At the same time the demand for accounting services has surged," he said. (Khmer Time News)

CAMBOIA : Oil, gas drilling rig lies idle because of COVID

The PetroVietnam Drilling & Well Service Corp (PV Drilling) rig PV Drilling III, which has a contract to drill five new wells for KrisEnergy in the Kingdom’s waters, has not yet begun work, said an official from the General Department of Petroleum at the Ministry of Mines and Energy. The three-month contract started in October this year, according to vietnamplus.vn. Tan Ek Kia, the independent non-executive chairman of KrisEnergy, said in June this year Cambodia’s Block A development oilfield is significantly important for the company’s future business, noting that the project will be historic for the Kingdom. He said there has been substantial geological and geophysical work undertaken in the block as well as exploration and appraisal drilling. “Of the 27 wells drilled in the original licence area, 23 encountered oil and/or gas,” he noted. Because the Khmer Basin is yet to produce oil, he said the company is taking a cautious approach by using the minimum of facilities and wells for the initial phase of development. *(Khmer Times New)*

CAMBOIA : National Assembly passes AJCEP-1st Protocol

The National Assembly on Monday approved the First Protocol to Amend the Agreement on Comprehensive Economic Partnership among Japan and Member States of the Association of Southeast Asian Nations (AJCEP – 1st Protocol). Cambodia expects to expand its market to Japan and woo more investors from the economic powerhouse of the Pacific through the perks provided by the protocol. On August 3, the Japanese Ministry of Foreign Affairs explained that the protocol “adds provisions concerning trade in services, movement of natural persons and investment to the [AJCEP], which entered into force in 2008. “[It] includes the rules and liberalisation commitments from ASEAN member states which are not included in the bilateral EPAs [economic partnership agreements] and related agreements concluded between Japan and each ASEAN member state.” Leading a delegation to defend the protocol, Pan Sorasak, Minister of Commerce and ASEAN Economic Minister for Cambodia, said the law would improve ASEAN-Japan trade in tandem with the evolution of the global economy by liberalising trade, services, movement of natural persons and investment. He said it will also provide substantial benefits to the whole of Cambodian society by promoting national economic growth, technological exchange, the transfer of knowledge, reskilling and upskilling, while adding more tax revenue to state coffers. *(Phnom Penh Post)*

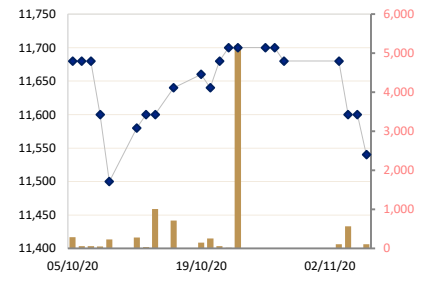

CAMBOIA : Russia committed to stepping up trade

Russia has reiterated its commitment towards shoring up bilateral trade volume and alluring more investment to Cambodia, helping pull the Kingdom’s economy out of post-Covid-19 doldrums. The remarks were made during a meeting between newly-minted Russian ambassador to Cambodia Anatoly Borovik and Minister of Economy and Finance Aun Pornmoniroth at the ministry on Wednesday. This comes as the Kingdom negotiates a free trade agreement (FTA) with the Eurasian Economic Union (EAEU), a common market comprised of five nations of the former Soviet Union – Armenia, Belarus, Kazakhstan, Kyrgyzstan and Russia. Borovik said: “Seeing the potential of Cambodia, many Russian companies, both large and medium, are interested in and looking for opportunities to invest in and do business in Cambodia. “Going forward, the volume of bilateral trade between the two countries will see continued growth,” he said. Aun Pornmoniroth thanked the Russian government for its constant support during the Kingdom’s struggle in the 1980s, which was devastated by a 12-year-long economic embargo imposed following its liberation from the genocidal Khmer Rouge regime. The former Soviet Union provided a lot of humanitarian assistance to Cambodia and actively participated in the ensuing process of peace building and socio-economic development, he said. *(Phnom Penh Post)*

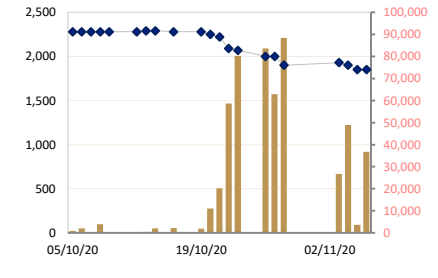

CAMBOIA : Rice Export revenue reaches over \$366 million in first 10 months

Cambodia’s gross revenue from rice exports in the first ten months of this year increased by nearly \$47 million or 15 percent compared to the same period in 2019. The figures from the Cambodia Rice Federation (CRF) show that the Kingdom earned in total \$366.44 million from rice exports, in the January-October period. Cambodia exported 536,305 tonnes of milled rice in the first ten months of 2020, a year-on-year increase of 17.11 percent, it pointed out. China remains the biggest market for Cambodian milled rice. According to CRF, within the 10-month period, China and other Autonomous territories (Hong Kong, Macau, Taiwan) take 36 percent of overall export, 27 countries in Europe 32 percent, 6 ASEAN members 13 percent, 10 countries in Africa 9 percent, countries in Asia-Oceania (especially Australia and New Zealand) 6 percent, Dependent territories/department of overseas countries 2 percent, and countries in North America and Asia-Middle East take the rest 2 percent. *(Khmer Times New)*

CAMBODIA : Cambodian bikes rolling all over

The Kingdom's bicycle exports totalled more than \$379 million during the first nine months of the year, up 28.92 per cent compared to the same period last year, the state media service Agence Kampuchea Presse (AKP) reported. Citing data from the Ministry of Commerce, AKP said more than 1.5 million bicycles were shipped during the period, with the US importing the lion's share at more than half a million. Ranet, from real estate news portal Property Area Asia, reported that the Kingdom exported "more than 550,000" bicycles to the world's largest economy in nominal terms, also citing the ministry. Elsewhere, 360,000 bikes were sold to Germany, 270,000 to the UK and 150,000 to Belgium. The Netherlands imported 90,000 while Australia bought 100,000 bikes, according to AKP. Ministry of Commerce spokesman Seang Thy told The Post that Cambodia's bicycle exports remained normal despite Covid-19. He claimed that from January to September, bicycle exports increased by more than \$85 million compared to the same period last year. "Minister of Commerce Pan Sorasak sent a letter to all buyers to continue accepting ordered goods from Cambodia. "Cambodia has retained its capacity to produce despite the Covid-19 situation. Thank you to all the buyers for accepting the minister's request," Thy said. *(Phnom Penh Post)*

CAMBOIA : State-run SME Bank soft-launches operations

The state-owned Small and Medium Enterprise Bank of Cambodia Plc (SME Bank) on Thursday soft-launched banking operations, it said in a press release. SME Bank described its mission as "to provide financing and commercial banking services in an effective and sustainable manner to support local small and medium-sized (SMEs) with an objective to increase economic diversification and expand export volume". It said it strives to provide four main value added benefits to the SME community – better and affordable access to financing; technical assistance to SMEs to enhance their productivity and efficiency; downstreaming business advisory support; and facilitating access to regional markets. SMEs can borrow up to \$200,000 for working capital and \$300,000 for investment capital with a maximum interest rate of seven per cent per year and a repayment period of seven years. SME Bank stressed that it "aspires to be consistent and align itself with the strategic goal of the Royal Government of Cambodia". "As set out under the Cambodia Industrial Development Policy 2015-2025, the bank will provide better and affordable access to financing for SMEs in key priority sectors – food manufacturing and processing; manufacturing of local consumption goods, waste recycling and production of goods for the tourism sector. *(Phnom Penh Post)*

THAI : Thailand approves EV perks, \$1.1B in projects

Thailand's Board of Investment (BoI) on Wednesday approved a package of incentives for Thailand's electric-vehicle (EV) manufacturing supply chain, with a focus on critical parts including batteries. The board also approved EV-related projects worth 35.7 billion baht (\$1.16 billion) in several sectors. After a board meeting chaired by Prime Minister Prayut Chan-o-cha, BoI secretary-general Duangjai Asawachintachit said the package would accelerate the development of EV production in Thailand and allow the sector to move into higher gear. The EV incentive measures replace the first package which expired in 2018. They cover cars, buses, trucks, motorcycles and ships. For cars: Corporate tax holidays of three years for plug-in hybrid (PHEV) projects and eight years for battery electric (BEV) projects with at least five billion baht invested – extendable for research and development (R&D) investment in BEV. Projects worth less than five billion baht are eligible for three-year tax holidays – extendable for BEV projects that start by 2022, produce additional parts, produce at least 10,000 units within three years, or invest in R&D. For motorcycles, three-wheelers, buses and trucks: Three-year tax holiday, extendable under certain conditions. Electric-powered ship production projects, for vessels with less than 500 gross tonnage, are eligible for eight years of corporate income tax exemption. *(Phnom Penh Post)*

INDONESIA : Indonesia in its first recession for 2 decades

AFP – Indonesia's virus-hit economy contracted in the third quarter, plunging it into its first recession since the archipelago was mired in the Asian financial crisis more than 20 years ago. Activity in Southeast Asia's biggest economy slumped 3.49 percent on-year in July-September, the statistics agency said yesterday, with tourism, construction and trade among the hardest-hit sectors. The data marked the second consecutive quarter of contraction after a 5.3 percent decline in April-June. Indonesia last suffered a recession 1999 during a regional currency crisis that helped force the resignation of long-term dictator Suharto less than a year earlier. However, the depth of the current decline was easing, the agency said adding it pointed to stronger figures in the last quarter of the year. "The recovery should continue over the coming months, but it is likely to be slow and fitful," Gareth Leather from research house Capital Economics said in a research note after the data was published. *(Khmer Time New)*
