SECURITIES NEWS

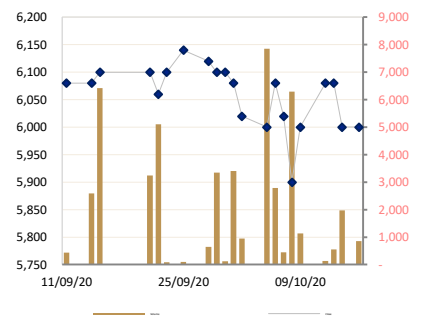

CAMBODIA : Market Watch

The Cambodia Securities Index has continued its downward trend, dropping to 656.59 points yesterday, contracting 0.07 percent, falling 0.46 points. Trading volumes were below average at 176 million riels (\$42,000) with 14,785 shares exchanged. There was only one market mover yesterday, the Phnom Penh Water Supply Authority (PPWSA), which recorded a drop of 80 riels to close at 6,000 riels a share. Every other stock remained stable, with ACLEDA Bank (ABC) registering the highest trading value of more than 141 million riels. The index is currently at its lowest level since July 30 this year when it was at 640.48 points. (Khmer Time New)

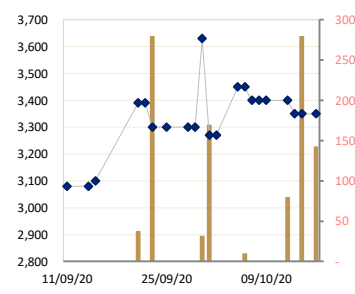

CAMBODIA : PPAP records positive business performance in first three quarters

Stock-listed Phnom Penh Autonomous Port (PPAP) posted positive business performance in the first nine months of this year in the face of headwinds created by the Covid-19 fuelled global and regional economic downturn. In its filing to the Cambodia Securities Exchange (CSX) late on Monday, the state-owned river port operator logged \$22.264 million in revenue in the period between January-September, a 2.56 per cent gain from \$21.707 million in the same period last year. It posted a 4.09 per cent year-on-year climb in the volume of containers and a 0.63 per cent year-on-year rise in the number of cargo vessels handled at the port during the period. It logged a two per cent fall in cargo and fuel oil throughput, a 52 per cent drop in passenger boats and a 54.65 per cent decrease in passengers. It did not disclose its gross profit in the filing. CSX vice-chairman Ha Jong-weon told The Post that the results reflect PPAP's business stability in these trying times. But he expressed concern over the company's slowing revenue growth. "If we take the current Covid-19 situation into consideration, we may see that the company remains strong. "As far as we know, the trading between countries has been significantly reduced and for the port business to maintain a slight increase in revenue, it shows the good business management and the strategy, as well as the effective risk management of the company during the pandemic. **CAMBODIA : PPSP: No dividends but share buyback**

The Cambodia Securities Exchange (CSX)-listed Phnom Penh SEZ Plc (PPSP) has announced that it will have no dividend distribution this year and will also be buying back company shares (at an undisclosed volume and value), according to documents filed to the exchange. The company will discuss the agenda during its annual general meeting to be held on Oct 28. PPSP is the developer and operator of Phnom Penh Special Economic Zone (PPSEZ) and Poipet PPSEZ. According to Cambodia Securities Exchange Chief Operating Officer Ha Jong Weon, as of this year's second-quarter results, the profitability of PPSP has significantly declined and the company will want to preserve some cash to use in the operation rather than distributing to shareholders. "The shares buyback indicate the determination of the PPSP to keep the share price under control. We can see the downward trend of PPSP's shares price during the last financial year and, with shares dropping below the initial public offering price and currently undervalued, the buyback will increase the value of stocks," he said. **BUSINESS & ECONOMIC NEWS**

**CAMBOIA : New draft law on investment mulled**

The government is sending a new draft law on investment to the private sector to discuss ways to make it more comprehensive and help Cambodia become an attractive destination for new investment and to improve the investment environment in the country. The law is expected to go online this year. It has 11 chapters and 38 articles. The draft law is designed to create a legal framework with openness, transparency and a more favourable situation that can attract more investors to the Kingdom. The draft law aims to bolster the country's competitiveness in the sense that the economic infrastructure can be diversified and there can be more resilience to the crisis in the region and across the globe. It also modernises and boosts the productivity of the local industry to link with the regional and global value chains through the movement of capital flows, technological transfers and know-how technology. The new investment law will provide an incentive for transparency, no discrimination, competitiveness and support socio-economic policy. (Khmer Times New)

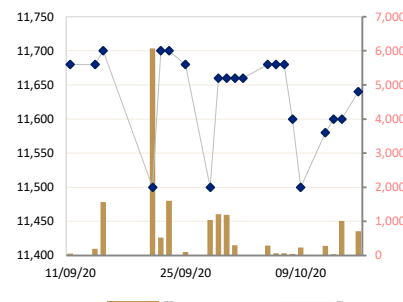

**CAMBOIA : China and Cambodia seal free-trade deal, funding for 'priority' projects**

China has signed a free-trade deal with Cambodia and pledged US\$140 million for the Southeast Asian country's "top priority projects". Chinese Foreign Minister Wang Yi and Cambodian Prime Minister Hun Sen oversaw the signing of the agreements in Phnom Penh on Monday at the end of Wang's two-day trip to the country. China has promised other agreements with Cambodia, which is largely seen as one of China's closest allies in the 10-member Association of Southeast Asian Nations. On top of the free-trade deal, which followed almost a year of formal talks, Beijing has agreed to offer loans and grants for eight infrastructure projects that Cambodia has identified as "top priority". These projects include an undersea fibre-optic communications cable between the coastal city of Sihanoukville and Hong Kong, construction and expansion of national roads, and construction of a power transmission plant. Mark Wong, Cambodia CEO of Chinese tech giant Huawei, said last year that the company planned to team up with China Communications Construction on the undersea cable project, but no official plans have been announced since then. (The Cambodia Daily)

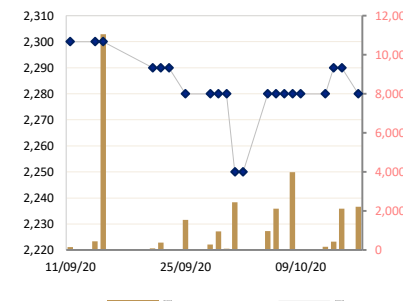

**CAMBOIA : Sihanouk airport upgrades runway: Flights due to begin from the \$58 million investment before the end of the year**

Sihanouk International Airport, serving Cambodia's main seaside resort and port city, has entered a new development phase. The runway has had an extension from 2,500 metres to 3,300 metres. In the last five years, Sihanoukville has become a destination in the making with its deep-sea port and pristine beaches, attracting both business investors and tourists. Between 2015 and 2019, passengers grew from 94,000 to 1.6 million passengers and the airport had been experiencing triple digit growth nearly every year. Against the backdrop of the strong traffic growth, the runway project was launched in July 2018 and aims at accommodating larger aircrafts such as B-777-300ER or A-350-1000 operating long-haul direct flights to and from Sihanouk International Airport. Mao Havannall, Minister in charge of the State Secretariat of Civil Aviation said that the runway extension is critical for the future as both SSCA and the airport concession holders are working together to attract airlines and get bilateral landing rights. **CAMBODIA : Assessment of flood damage on rice awaited**

The Cambodia Rice Federation (CRF) has called on rice miller members to collect and purchase wet paddy from farmers at an affordable price after recent deluges. CRF's President Song Saran said some members have already purchased the paddy from farmers, especially from the most affected areas. "We called on our members to purchase the paddy in the rice fields. Our members number nearly 100 in Banteay Meanchey, Battambang and Pursat," Saran added. "Some areas, farmers have had to harvest the crop in the water, so we have to help purchase the wet paddy from them," he added. Chray Son, Chairman of Capital Food Investment Import Export Co in Battambang province, said his company has purchased around 3,000 tonnes of paddy so far from farmers as of Oct 12. "Now, there is no paddy to buy because it was flooded and farmers cannot harvest it," Son said. "If there is paddy available, we will continue purchasing it from farmers," he said. He added that the price of paddy is around 1,060 riel to 1,080 riel per kilogramme while last year it was only 1,020 riel per kilogramme. However, he added that the price varies according to the quality. *(Khmer Time New)*

**CAMBODIA : Cassava product exports grow 49%**

Cambodia exported nearly three million tonnes of cassava products to the international market in the first nine months of this year, surging almost 49 per cent year-on-year, the Ministry of Agriculture, Forestry and Fisheries reported. The Kingdom shipped more than 1.78 million tonnes of fresh cassava and over 1.2 million tonnes of cassava chips to Vietnam and Thailand. It exported 12,000 tonnes of tapioca starch to India, China, Belgium, the Netherlands, Pakistan, the Czech Republic, Croatia and Italy, the ministry added. Sok Hok, a farmer who grows 10ha of cassava in Sampov Loun district in the northwestern corner of Battambang province, said she will begin harvesting the crop in January and expects to collect a sub-par 100-200 tonnes due to rain damage. "Yields may be lower than last year. Rains flooded more than 2ha of my fields. The water has receded a bit now, but if the floods continue until the end of October, some of the cassava will rot," she said. She expects the price of cassava chips to remain at last year's level, between 600 and 700 riel (\$0.15 and \$0.17) per kg. "Cassava has a better market and price than corn, though I yearn for higher cassava prices so that I can afford to pay the bank," she said. Cassava is planted in May and harvested from November to February of each year. *(Phnom Penh Post)*

**INDONESIA : Indonesia jobs law offers tax incentives**

The Indonesian government is hoping that the new tax incentives introduced in the recently passed Job Creation Law help to grow the economy by attracting more investment and creating jobs. The Ministry of Finance's Fiscal Policy Agency head, Febrio Kacaribu, on Monday said the new incentives, in addition to the ones offered in Law No 2/2020, could make Indonesia's tax regime more competitive globally. The jobs law eliminates income tax on dividends earned in Indonesia and on certain income, including dividends earned abroad, as long as they are invested in the country. It also introduces 10 per cent value-added tax (VAT) on coal and relaxes administrative sanctions and taxes for foreigners with certain expertise. The provisions in the omnibus law aim to complement several regulations in Law No 2/2020, which was issued earlier this year to gradually lower the corporate income tax and impose VAT on services and goods sold in Indonesia by global technology companies, among other things. Thirty-six technology companies appointed by the government to collect these taxes had paid 97 billion rupiah (\$6.6 million) to the state coffer as of September, according to the tax office. "However, we need to acknowledge that the tax incentives alone are not enough. *(Phnom Penh Post)*

**THAI : Thai Monthong faces Malaysia's 'King' in battle for China's durian mark**

A fruit war has broken out in China, where Malaysia's Musang King is battling with Thailand's Monthong to conquer the increasingly lucrative durian market. The Royal Thai Consulate-General in Nanning, China, said Kuala Lumpur had stepped up its game earlier this month, bombarding Guangxi region with over 1,000 tonnes of Musang King durian for the "Durian Malaysia 2020" event. Malaysia is exploiting "new normal" marketing channels, both online and offline, to tempt Chinese consumers with free samples and durian priced as low as one yuan (\$0.15). As a result, Malaysian durians are fast becoming popular in China, with October's promotion netting sales of 340,000 durians worth over 70 million yuan. "Durian Malaysia 2020" also gives Malaysian entrepreneurs the chance to test Chinese tastes for processed products, including durian French fries, durian beverages, coffee, tofu drinks, liquor, mooncakes and ice cream. Thailand has always been the largest exporter of fresh durian to China, where the biggest markets are Guangxi and Guangdong province. However, Monthong's status as the durian king in China is now being threatened by Musang King, which Chinese consumers have dubbed "Maoshan Wang" and the "Hermes of durian". *(Phnom Penh Post)*
