CAMBODIA: Securities regulator plans to establish property fund stock

The Securities and Exchange Regulator of Cambodia (SERC) plans to establish a property fund stock exchange for companies to raise cash from the public. The SERC will transform the trading of real estate products into stocks and changing the way it is traded will allow real estate to be traded more easily and more efficiently, as well as help improve the Cambodian stock market, said its director-general Sou Socheat. SERC is studying the possibility of preparing a supplementary regulation for listing real estate-related fund packages on the stock exchange for companies to raise cash from the public for investment, Socheat said in a ceremony of 'My First STOCK' held last Friday. This work will be carries out together with the regulator of real estate and mortgage business with the permission of the Ministry of Economy and Finance, he said. "Property Fund not only allows us to raise cash from the stock exchange to develop real estate, but it also opens for investors to exit the fund package at any time through which we are required to list the fund on the stock exchange," he said. Property funds are investments in commercial property, for example, offices, factories, warehouses and retail space. Customers make lump-sum investments, which are pooled together and used to purchase a range of assets, invested in two ways — directly in commercial property and indirectly, by buying shares in property companies or other property funds. Hong Sok Hour, Chief Executive Officer of the Cambodia Securities Exchange, said the transformation of real estate products into a stock exchange is an easy and quick way for investors to trade. "This is an opportunity for the people to start considering allocating some of their capital from the real estate sector to investing in stocks for quicker and more secure returns than the stagnant real estate sector," he said. The daily stock trading volume in Cambodia has been increasing steadily from year to year. The average daily trading volume was \$25,000 in 2018, rising to \$600,000 per day as of September 2022, with more than 33,000 trading accounts. Launched in 2012, the CSX is a joint venture between the Cambodian governments, which holds 55 % stake while the Korean Exchange owns the remaining 45 %. The CSX has so far received 16 listed companies, including nine equity firms and seven corporate bond firms. (Khmer Times)

Economic News

CAMBODIA: Hodo Group's SSEZ strives to become world class enterprise

Hodo Group, a private textile and garment maker based in Wuxi, Jiangsu province in East China, said it would strive to become an excellent enterprise, said Zhou Haijiang, board chairperson of the group and a delegate to the 20th National Congress of the Communist Party of China. Hodo has been actively responding to the Belt and Road Initiative. Together with some other enterprises, they founded Sihanoukville Special Economic Zone in Cambodia. The area has been Cambodia's largest industrial zone in terms of size and occupancy. Now, some 170 companies from China, Europe, the United States and Southeast Asia are operating their businesses in the industrial park, and the zone has created nearly 30,000 jobs. The average income of staff members there has reached \$300 per person monthly, compared with an annual income of \$300 of the whole family for some local employees before, Hodo said. Founded 65 years ago, the group has grown to become a major private enterprise in China from a small workshop. In the past decade, sales revenues of Hodo have increased from 35 billion yuan (\$4.8 billion) to 77 billion yuan, and the company has created about 100,000 jobs locally, he said. The plant of Hodo has transformed into an artificial intelligent factory that is equipped with 5G and industrial internet, and the production efficiency has increased more than 30 percent compared with a traditional factory, Zhou said during an interview at the Great Hall of the People, in Beijing, on Saturday, after the closing session of the 20th National Congress of the CPC. "At our sportswear factory, it only takes 48 hours for the whole process of placing an order to delivering the final product. The smart factory has helped significantly raise our market competitiveness," Zhou said. Among the company's management team, 90 percent of them are Party members. The company said it has grabbed the biggest opportunity to grow as it has implemented the principles and policies of the Party and the country, he added. (Khmer Times)

CAMBODIA: \$25.4M projects to create 6500 jobs

In continuance with the policy to strengthen the Covid pandemic-scarred economy and push for growth, the Council for the Development of Cambodia (CDC) has recently approved projects worth \$25.4 million. They are expected to generate around 6,500 job opportunities. While the three new investment projects will be set up in Kandal and Preah Sihanouk provinces, the other 5 will be in the Kampong Speu and Kandal provinces. The projects, according to the CDC release, related to shoe assembly parts, garments, and metal processing belong to Cheng Zhen Yong Industry, Xin Jin Hua Garment, and Success Metal Technology, respectively. These projects are expect to generate 2,500 jobs, according to media reports. The shoe assembly parts and garment factories will be set up in Kandal province's Ang Snoul and Kandal Stung districts, respectively. The metal processing plant will come up in a special economic zone of Preah Sihanouk province. The CDC recently approved one project each of J-Star Garment (Cambodia) and K5 Industrial in the Kampong Speu and Kandal provinces, respectively. With a total investment of \$11.3 million, the 2 planned projects are expect to generate employment for more than 4,000 people. J-Star will invest \$5.8 million to set up a garment factory at Angkorong village in the Moha Rusey commune in Kong Pisey district. K5 Industrial will invest \$5.5 million to establish a factory for manufacturing belts and bags at Prek Samrong village in Takmao city of Kandal province, according to Cambodian media reports. The CDC has issued final registration certificates for 94 new private investment projects outside special economic zones in the first eight months of this year. It was a yearon-year increase of 19 projects. Meanwhile, apparel exports rose by 23.09 % year-on-year to \$7.174 billion in January-September 2022. This constituted 41.60 % of Cambodia's total foreign income of \$17.258 billion during the period under review, according to data from the general department of customs and excise under the ministry of economy and finance. Cambodia's exports of apparel and clothing accessories (knitted) earned \$5.110 billion in January-September 2022, which was 21.1 % higher than the exports worth \$4.220 billion during the corresponding period of 2021.
