CSX DAILY STOCK INDEX (Last 30 Days)

SECURITIES NEWS

CAMBODIA : Market Watch

Cambodia's securities exchange index closed at 658.91 points yesterday contracting 0.46 percent (falling 3.03 points). Trading volumes were recorded at 130,904,640 riels (\$31,922) with 10,518 shares exchanged. ABC dropped by 20 riels to close at 17,280 riels, recording the second most trading volume at 48 million riels. GTI had no shares exchanged for the third day again closing at 3,080 riels. PAS fell 300 riels to close at 14,200 riels, recording the highest trading volumes at 71 million riels. PEPC fell 10 riels to close at 3,240 riels. PPAP fell 80 riels to close at 11,580 riels. PPSP fell 30 riels to close at 2,270. PWSA lost yesterday's gain, falling 80 riels to close back at 6,000 riels. Yesterday marked the 16th consecutive trading day with trading volumes below the 500 million riels level, as well as the third consecutive trading day below 250 million riels. The CSX has continued to request that local companies list on the exchange to increase the level of both trading volumes and market capitalisation. (Khmer Time New)

BUSINESS & ECONOMIC NEWS

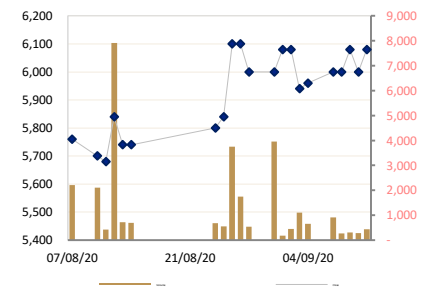

CAMBODIA : Cambodia gets \$127.8 million ADB loan to help expand power grid

The Asian Development Bank has approved a \$127.8 million loan to support the construction of transmission lines and substations to help provide Phnom Penh and three other Cambodian provinces with stable and reliable electricity supply. The project will also pilot the first utility-scale battery energy storage system in Cambodia, which will be funded by a \$6.7 million grant. That includes \$4.7 million from the Strategic Climate Fund under the Scaling Up Renewable Energy Program in Low-Income Countries and \$2 million from the Clean Energy Fund under the Clean Energy Financing Partnership Facility. Both funds are administered by ADB. "The Grid Reinforcement Project, along with ADB's ongoing assistance to Cambodia in power system planning, shows that adequate, reliable, and environmentally sustainable power supply can be provided at reasonable cost to support equitable development," said ADB Country Director for Cambodia Sunniya Durrani-Jamal. "The battery energy storage system will showcase how large-

scale deployment of innovative technology applications can be used to operate Cambodia's grid in the future and generate more renewable power." (*Khmer Times New*)

CAMBODIA : Business cluster to boost economy

The \$30 million Worldbridge SME (small and medium enterprise) Cluster will break ground next month, according to a senior executive of Worldbridge Industrial Developments, the company behind the Industry 4.0 infrastructure. The cluster, located in Takhmao city of Kandal province opposite an affordable housing project and near the new planned Phnom Penh International Airport and Ring Road 3, is seen as an innovative and strategic solution for SMEs and industrial development in Cambodia. Unlike special economic zones, industrial parks or traditional SME clusters, the Industry 4.0 SME Cluster is an innovative solution which supports the government's objectives under the Industrial Development Policy 2015-2025 and serves as a vehicle in which government policies supporting skills-based employment, SME development, agro-processing expansion and industrial diversification can be easily achieved. Most importantly, it brings a new future for SMEs, entrepreneurs, the information communications technology (ICT) sector and manufacturing investment in the Kingdom by bringing them together into complete value chains. (*Khmer Times New*)

CAMBODIA : Germany pledges to support SME sector

The German government has pledged to support Cambodia's small and medium enterprise (SME) sector to be more competitive, focusing on the agro-industry and food processing. The pledge was made during a sector-level consultation meeting between the German and Cambodian governments on inclusive and sustainable economic development this week. During the meeting, the two sides discussed the priorities for the programme to promote the competitiveness of enterprises in Cambodia, focusing on inclusive and sustainable development, shifting from family-oriented economic development which depends on agriculture towards economic diversification and modernisation. First Secretary in charge of cooperation at the German embassy in Cambodia, Sascha Reeb, stated that Germany will continue to support Cambodia's rural development through projects focusing on local economic development and competitiveness. "[It involves] supporting small and medium-sized enterprises in the agro-industry, food processing and technical training by incorporating the use of technology and innovation and the involvement of stakeholders, especially the private sector," he said. (*Khmer Times New*)

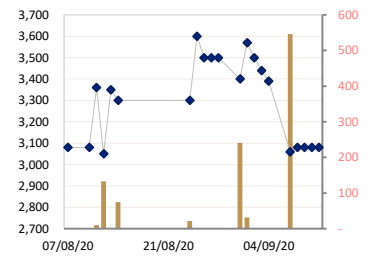

CAMBODIA : The taxman cometh – Cambodia's capital gains tax casts the net on individual taxpayers

In a country where only limited personal income tax existed, the new taxation law beginning January 1, 2021, will make taxpayers out of Cambodians, whether they are ready for it or not. About two years ago, a little known amendment was made to Article 7 of the Law on Taxation to include physical persons (individuals) to the original text which until then only featured legal persons, meaning registered businesses. Uncannily, nothing much was discussed publicly, apart from intellectual literature and discourses, whereas some found its way to the internet. According to Article 7, taxable income is the result of the adjustment of deductible expense on the total income in a tax year, which shall be determined by sub-decree. Essentially, what it means is that a majority of individuals or Cambodians, in this case, would be subjected to personal income tax on an annual basis. Currently, individuals are not taxed for most forms of income unless they are employees of a registered entity. The tax on salary follows a tiered structure based on income brackets. (*Phnom Penh Post*)

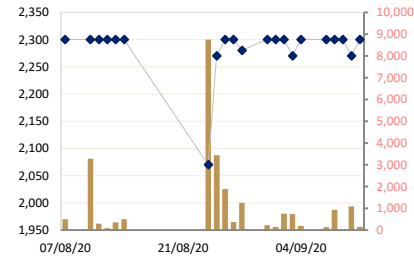

CAMBODIA : EZECOM set to launch digital free trade zone

Internet service provider EZECOM Co Ltd plans to launch a trade facilitation project Digital Free Trade Zone (DFTZ) to manage, store and analyse paperless data. The company, a subsidiary of local conglomerate Royal Group of Companies Ltd (Royal Group), announced the project during the opening of the World E-Commerce Forum held at the ministry on Wednesday and co-organised by the Ministry of Commerce and Royal Group. EZECOM said the project would provide highly accurate, reliable and low cost paperless data management solutions for e-commerce activity. A company representative said: "The project will also benefit the government in achieving its goal of transforming the Cambodian economy into a digital economy by 2023." Ministry secretary of state Sok Sopheak, who presided over the opening of the forum, welcomed the project, but asked the company to first consult with the relevant ministries and institutions. CAMBOIA : Phase 4 pipeline installation ready for flood protection

The underground installation of the interceptor pipeline system has been completed for the Phnom Penh Flood Protection and Drainage Improvement Project Phase 4. Meanwhile, the rest of the construction is on track and expected to be fully complete by 2021, according to Japan International Cooperation Agency (JICA) Cambodia. The interceptor pipeline system has a total length of 1,552 metres. The Old Stadium to the underground reservoir in front of the Council for the Development of Cambodia (CDC) has now been completed, while the part from Northern Wat Phnom and Toul Kork is ongoing. Mikami Masahiro, the Japanese ambassador to Cambodia, said: "The flood-prevention projects in Wat Phnom and Tuol Kork are moving forward with completion expected in 2021. At the Wat Phnom construction site, the project of digging a seven-metre deep tunnel to install pipes underground is still being worked on. "On the riverside, the other 6,500 tonne underground water storage facility is under construction. In the rainy season, rainwater will flow from the streets through the pipes to the water storage and then it will be released to the river." The project broke ground on March 4, 2019, and was funded by a \$36 million grant from the Japanese government. (*Khmer Time New*)

CHINA : TikTok owner to invest billions, recruit hundreds in Singapore over 3 years: Source

BEIJING: ByteDance, the owner of popular short-video app TikTok, is planning to invest billions of dollars and recruit hundreds of employees in Singapore over the next three years, a person familiar with the matter told Reuters on Friday (Sep 11). The company's plans about setting up a new data centre in the city-state is untrue, the source said, adding that the Beijing-based firm had stepped up the purchase of cloud-computing servers in Singapore to back up US data for contingency. Separately, a company source said TikTok had moved some engineers to Singapore from China, starting this year. Bloomberg earlier reported that ByteDance was planning to make Singapore its beachhead for the rest of Asia as part of its global expansion. The news was first reported by Bloomberg on Friday. The investment comes as ByteDance is being forced to sell TikTok's US assets under pressure from the Trump administration, which has cited potential national security risk due to the vast amount of private data the app is compiling on US consumers. (*Channel News Asia*)

SINGAPORE : Singapore and Japan to launch 'green lane' for business, official travel on Sep 18

SINGAPORE: Singapore and Japan will launch a "reciprocal green lane" to facilitate essential business and official travel between the two countries on Sep 18, their foreign ministers said on Friday (Sep 11) in a joint press statement issued by the Ministry of Foreign Affairs (MFA). "The business track, which will be launched on Sep 18, 2020, will facilitate essential business and official travel for residents from both countries," said the statement. This is the first such framework that Japan will implement with another country, and will help restore connectivity and support economic recovery for Japan and Singapore, said MFA. "The business track will allow the safe resumption of cross-border travel and business exchanges with the necessary public health safeguards in place," it added. These safeguards include pre-departure and post-arrival testing as well as the need to adhere to a controlled itinerary for the first 14 days in the receiving country. (*Channel News Asia*)
