We have reviewed the accompanying condensed interim financial statements of Grand Twins International (Cambodia) Plc ("the Company"), which comprise the condensed interim statement of financial position as at 30 June 2023, and the related condensed interim statements of profit or loss and other comprehensive income, changes in equity and cash flows for the period then ended, and accompanying explanatory notes (collectively known as "Condensed Interim Financial Statements"). The directors of the Company are responsible for the preparation and presentation of these Condensed Interim Financial Statements in accordance with Cambodian International Accounting Standard 34 Interim Financial Reporting. Our responsibility is to express a conclusion on the Condensed Interim Financial Statements based on our review.

Scope of review

We conducted our review in accordance with Cambodian International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity.* A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Cambodian International Standards on Auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Condensed Interim Financial Statements of the Company are not prepared, in all material respects, in accordance with Cambodian International Accounting Standard 34 Interim Financial Reporting.

26. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The financial risk management objective of the Company is to optimise value creation for its shareholders whilst minimising the potential adverse impact arising from volatility of the financial markets.

The directors are responsible for setting the objectives and underlying principles of financial risk management for the Company. The Management then establishes the detailed policies such as authority levels, oversight responsibilities, risk identification and measurement and exposure limits in accordance with the objectives and underlying principles approved by the Directors.

26.1 Credit risk

Credit risk is the risk of financial loss to the Company if a counter party to a financial instrument fails to perform as contracted. The Company is mainly exposed to credit risk from credit sales. It is the Company's policy to monitor the financial standing of its counter parties on an ongoing basis to ensure that the Company is exposed to minimal credit risk.

The Company's primary exposure to credit risk arises through its trade receivables from its customers. The credit period is three months and the Company seeks to maintain strict control over its outstanding receivables to minimise credit risk. Overdue balances are reviewed regularly by Management.

26.2 Liquidity and cash flow risk

Liquidity and cash flow risk arises from the Company's management of working capital. It is the risk that the Company will encounter difficulty in meeting its financial obligations when they fall due.

The Company actively manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that all operating, investing and financing needs are met. In liquidity risk management strategy, the Company maintains a level of cash and cash equivalents deemed adequate to finance the Company's activities for the next twelve months.

26. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

26.3 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the financial instruments of the Company would fluctuate because of changes in market interest rates.

The exposure of the Company to interest rate arises primarily from borrowing. The Company manages its interest rate exposure by closely monitoring the debt market and where necessary, maintaining a prudent mix of fixed and floating rate borrowings. The Company does not use derivative financial instruments to hedge any debt obligations.

27. TAXATION CONTINGENCIES

The taxation system in Cambodia is relatively new and is characterised by numerous taxes and frequently changing legislation, which is often unclear, contradictory, and subject to interpretation. Often, differing interpretations exist among numerous taxation authorities and jurisdictions. Taxes are subject to review and investigation by a number of authorities who are enabled by law to impose severe fines, penalties and interest charges. These facts may create tax risks in Cambodia substantially more significant than in other countries. Management believes that it has adequately provided for tax liabilities based on its interpretation of current tax legislations. However, the relevant authorities may have differing interpretations and the effects could be significant.
