7. FACTORS AND TRENDS ANALYSIS AFFECTING FINANCIAL CONDITIONS AND RESULTS

There is significant impact to financial conditions and results of RR for the third quarter of 2024 due to the increasing of the cost of services specifically fuel cost and as well as the increase of finance cost to be paid to investors regarding to debt securities.

B. SIGNIFICANT FACTORS AFFECTING PROFIT

1. DEMAND AND SUPPLY CONDITIONS ANALYSIS

RR is the only rail transport service provider in Cambodia, offering a wide range of commodities transportation across the country with safety and efficiency as railway is able to carry the products in large volume compared with road transport, fully secured by insurance and directly accessible into the Port of Sihanoukville.

RR is continuously updating and expanding its line of products and services to meet the satisfaction of its customers. RR is investing heavily in locomotive and railway improvement of freight and services to increase accessibility, convenience, ease of use, and to allow customers to trust in its services.

2. FLUCTUATIONS IN PRICES OF RAW MATERIALS ANALYSIS

RR is a railway operator providing freight service transportation, therefore the analysis of fluctuations in prices of raw material is not applicable to the Company.

3. TAX ANALYSIS

RR is obliged to pay taxes and excises to the state under the existing laws of Cambodia. RR is a large taxpayer and is required to pay tax under the real regime tax system as set forth by the General Department of Taxation. Tax expenses include current tax and deferred tax. Tax expenses are recorded in the statement of comprehensive income.

4. EXCEPTIONAL AND EXTRAORDINARY ITEMS ANALYSIS

At the date of this report, management is not aware of any exceptional and extraordinary items, transaction or event of a material and unusual nature accruing that may significantly impact the financial statement of the Company.

C. MATERIAL CHANGES IN SALES AND REVENUE

In quarter 3 of 2024, RR earned total revenue around KHR13,081 million, a slight increase of 12.56% compared to the same period prior year. Net loss around KHR8,446 million increase 70.31% compared to the same quarter of the prior year.

D. IMPACT OF FOREIGN EXCHANGE, INTEREST RATES AND COMMODITY PRICES

1. FOREIGN EXCHANGE RISK

The Company is exposed to foreign exchange risk arising from purchases and transactions that are denominated in a currency other than the Company's functional currency, which is Khmer Riel (KHR).

The currency that gives rise to the foreign exchange risk to the Company is primarily United States of Dollar (US\$) from borrowings and transactions with related parties and payment of operating expenses. The Company does not hedge its foreign currency exposure. To manage its foreign currency exposure, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary.

2. INTEREST RATE RISK

The Company does not account for any fixed-rate financial assets at fair value through profit or loss, and the Company does not have derivatives at the reporting date. Therefore, a change in interest rates at the end of the reporting period would not affect profit or loss.

E. IMPACT OF INFLATION

- Inflation is very important for RR because fuel is one of the main cost of services.
- Cambodia's economy is expected to grow around 5.8% in 2024.
- The economy is to a large extent dollarized; the exchange rate has moved within a small bandwidth for the last ten years.
- In 2024 Cambodia's unemployment rate is projected to trend around 0.9%
- GDP of Cambodia for 2024 will increase to 5.8% and 6.0% in 2025 (ADO April 2024)
- Cambodia's inflation rates forecasted at 2% in 2024 and 2025 (ADO April 2024)

F. ECONOMIC, FISCAL AND MONETARY POLICY OF ROYAL GOVERNMENT

- Cambodia prioritised strengthening budget efficiency.

- Strengthening basic diversification of income collection to ensure sustainability in public finance and boost economic recovery.
