Report on review of condensed interim financial information

To the Shareholders of LOLC (Cambodia) Plc.

Introduction

We have reviewed the accompanying condensed interim statement of financial position of LOLC (Cambodia) Plc. ("the Company") as at 30 June 2020, the related condensed interim statements of profit or loss and other comprehensive income for the three-month and six-month periods then ended, the related condensed interim statements of changes in equity and cash flows for the six-month period then ended and the condensed notes to the interim financial information. Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with Cambodian International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of review

We conducted our review in accordance with Cambodian International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Cambodian International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with Cambodian International Accounting Standard 34, "Interim Financial Reporting".

Emphasis of matter

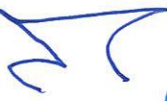

We draw attention to Note 32 to the condensed interim financial information, which describes the adjustments of prior period balances related to overstatement of impairment loss on loans and advances and overstatement of income tax expenses. Our conclusion is not modified in respect of this matter.

Other matter

The condensed interim financial information of the Company for the six-month period ended 30 June 2019 was reviewed by another firm of auditors whose report, dated 29 November 2019, expressed an unmodified conclusion on this condensed interim financial information.

LOLC (CAMBODIA) PLC.

NOTESTO THE CONDENSED INTERIM FINANCIAL INFORMATION FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2020

2. BASIS OF PREPARATION (continued)

New and amended standards adopted by the Company

A number of new or amended standards became applicable for the current reporting period. Those standards and amendments have no impact as a result the Company did not have to change its accounting policies or make retrospective adjustments.

COVID-19 Related Rent Concessions – Amendments to CIFRS 16

As a result of the novel coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. Such concessions might take a variety of forms, including payment holidays and deferral of lease payments. In May 2020, the IASB made an amendment to CIFRS 16 Leases which provides lessees with an option to treat qualifying rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concessions as variable lease payments in the period in which they are granted.

Entities applying the practical expedients must disclose this fact, whether the expedient has been applied to all qualifying rent concessions or, if not, information about the nature of the contracts to which it has been applied, as well as the amount recognised in profit or loss arising from the rent concessions.

The Company does not have any rent concession during the period so the amendment has no impact on the condensed interim financial information.

3. SIGNIFICANT CHANGES IN THE CURRENT REPORTING PERIOD

Impact on impairment charge from COVID-19

The COVID-19 declared as pandemic has spread into Cambodia since late January 2020. Due to the rapidly unfolding COVID-19 pandemic, the country economy is experiencing an economic downturn, and a prolonged downturn could potentially have an impact on the quality of the financial assets including loans and advances. The COVID-19 impact on credit risk could be more severe and immediate in various sectors. To consider the effect of COVID-19 pandemic on the Company's loans and advances, the managements continuously refresh the macroeconomic variables quarterly to reflect the current economic condition in its forward-looking model. For the six-month period ended 30 June 2020, the management has refreshed the latest macroeconomics variables available which were up to 30 June 2020. The managements believe that the adjustment will reflect the most recent economic condition. The longevity of COVID-19 pandemic has also led to uncertain economic environment which may results in higher credit impairment expenses. As a result, the managements have adjusted the Company's probability weighted percentage in the probability weighted forward looking Probability of Default ("PD") to give a heavier weight to the worst case scenario and a lighter weight to the best case scenario while keeping the base percentage the same.

The table below show the scenario probability weighted percentage as at 31 Dec 2019 (before COVID-19 pandemic) and as at 30 June 2020 (after COVID-19 pandemic).

Scenario probability weighting

	Base %	Best %	Worst %
As at 30 June 2020			
Scenario probability weighting	60%	15%	25%

LOLC (CAMBODIA) PLC.

NOTESTO THE CONDENSED INTERIM FINANCIAL INFORMATION FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2020

3. SIGNIFICANT CHANGES IN THE CURRENT REPORTING PERIOD (continued)

Scenario probability weighting (continued)

As at 31 December 2019	Base %	Best %	Worst %
Scenario probability weighting	60%	20%	20%

In the light of COVID-19 pandemic, the central bank has issued a circular on loan restructuring during COVID-19 which encourages financial institutions to provide loan restructuring to borrowers in priority sectors that are heavily affected by the pandemic. The Company has restructured loans for borrowers who are having financial difficulties. As a result, the Company has downgraded the staging of the borrowers which resulted in higher credit impairment expenses being recognised during the period.

Other than additional impairment loss recognised, management considers that the Company's activities may be slow in this short period but would not lead to a going concern issue given the size of the operations, current profitability level and liquidity headroom of the Company.

4. CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS AND JUDGEMENTS

The Company make estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next reporting period are outlined below:

i) Measurement of expected credit loss allowance

The Company assesses on a forward-looking basis the expected credit losses ("ECL") associated with its debt instrument assets carried at amortised cost and FVOCI and with the exposure arising from credit commitments. The measurement of ECL allowance reflects reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions. Management noted the impact of COVID-19 pandemic on its assessment of the ECL allowance on its financial assets including the restructured loans resulted from the impact of COVID-19 pandemic, and management has made specific to the allowance for impairment for the reporting period.

ii) Functional currency

The management considers the KHR currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The critical factors which trigger the KHR being the functional currency include the currency that is regulated for loans to customers to certain extent by the central bank, staff costs, the source of equity funding in which the Company receives share subscriptions from and the distribution of dividends to its shareholders.

The other significant estimates, assumptions and judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty are the same as those that applied to the annual audited financial statements for the year ended 31 December 2019.

LOLC (CAMBODIA) PLC.

**NOTESTO THE CONDENSED INTERIM FINANCIAL INFORMATION
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2020**

5. SEGMENT REVENUE AND INFORMATION

The Company has only one reportable segment, namely, interest income. The chief operating decision-maker (“the management team”) reviews the internal management report, which reports the performances of the interest income segment as a whole, to assess performance and allocate resources. The management team also reviews profit before tax and net profit as a whole compared to prior periods.

31. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

This note provides an update on the judgements and estimates made by the Company in determining the fair values of the financial instruments since the last annual audited financial statements.

(a) Fair value hierarchy

To provide an indication about the reliability of the inputs used in determining fair value, the Company classifies its financial instruments into the three levels prescribed under the accounting standards. An explanation of each level follows underneath the table.

The following table presents the Company's financial assets measured and recognised at fair value at 30 June 2020 and 31 December 2019 on a recurring basis:

	Level 1	Level 2	Level 3	Total

FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2020**

31. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)

(a) Fair value hierarchy (continued)

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

(b) Fair value measurements using significant unobservable inputs (level 3)

The unlisted equity securities are the investment in Credit Bureau Cambodia (“CBC”) to be measured at fair value through other comprehensive income as they are not held for trading and the Company has irrevocably elected at initial recognition to recognise as the financial assets at FVOCI. These are the strategic investments and the Company considers this classification to be more relevant.

The fair value of FVOCI have been determined based on present values and the discount rate used were adjusted for counterparty or own credit risk.

There is no gain/loss recognised in other comprehensive income due to fair value approximate the carrying amount. There is no loss allowance for this FVOCI at 30 June 2020.

(c) Financial instruments not measured at fair value

As at the balance sheet date, the fair values of financial instruments of the Company approximate their carrying amounts.

The estimated fair values are based on the following methodologies and assumptions:

(i) Deposits and placements with the central bank and banks

The carrying amounts of deposits and placements with the central bank and banks approximate their fair values, since these accounts consist mostly of current, savings and short-term deposits.

(ii) Loans and advances to customers

For fixed rate loans with remaining period to maturity of less than one year, the carrying amounts are generally reasonable estimates of their fair values.

For fixed rate loans with remaining period to maturity of one year and above, fair values are estimated by discounting the estimated future cash flows using a current lending rate as the prevailing market rates of loans with similar credit risks and maturities have been assessed as insignificantly different to the contractual lending rates. As a result, the fair value of non-current loan and advances to customers might approximate to their carrying value as reporting date.

NOTESTO THE CONDENSED INTERIM FINANCIAL INFORMATION FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2020

31. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)

(c) Financial instruments not measured at fair value (continued)

(iii) Deposits from customers

The fair value of deposits from customers with maturities of less than one year approximate their carrying values due to the relatively short maturity of these instruments. The fair value of deposits from customers with remaining maturities of one year or more are expected to approximate their carrying amount due to the Company offered similar interest rate of the instrument with similar maturities and terms.

(iv) Lease liabilities

The estimated fair value of lease liabilities with maturities of less than one year approximate the carrying values. For other lease liabilities with maturities of one year or more, the fair values are estimated based on discounted cash flows using prevailing market rates of incremental borrowings.

(v) Other financial assets and other financial liabilities

The carrying amounts of other financial assets and other financial liabilities are assumed to approximate their fair values as these items are not materially sensitive to the shift in market interest rates.

(vi) Borrowings and subordinated debts

Borrowings and subordinated debts issued are not quoted in active market and their fair value approximate their carrying amount.

(vii) Debt securities

The estimated fair value of debt securities is generally based on quoted and observable market prices at the date of statement of financial position. They are not presently traded. The estimated fair values of debt securities are approximate their carrying values based on estimated future cash flows using prevailing market rates.

32. ADJUSTMENT OF PRIOR PERIOD BALANCES

Certain comparative figures have been restated to correct accounting treatment. Details of the adjustments and restatements are as follows.

1. Loans and advances

Banks and financial institutions are required to compute regulatory provisions, according to Prakas No. B7-017-344 dated 1 December 2017 and Circular No. B7-018-001 dated 16 February 2018 on credit risk classification and provisions on impairment. If the accumulated regulatory provision is higher than the accumulated impairment based on CIFRS 9, the 'topping up' will be recorded as regulatory reserves presented under equity. The reserve is subsequently reversed (up to zero) should the accumulated regulatory provision equal or be lower than accumulated impairment based on CIFRS 9. The regulatory reserve is set aside as a buffer, is non-distributable, is not allowed to be included in the net worth calculation.

**NOTESTO THE CONDENSED INTERIM FINANCIAL INFORMATION
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2020**

32. ADJUSTMENT OF PRIOR PERIOD BALANCES (continued)

1. Loans and advances (continued)

The accumulated regulatory provision was higher than accumulated impairment based on CIFRS 9, the topping up is correctly recorded as regulatory reserves presented under equity as at 30 June 2019. However, the Company recognised impairment loss allowances based on regulatory provision instead of impairment based on CIFRS 9 for the three-month and six-month period ended 30 June 2019 which overstated the loans and advances. As a result, the Company restated credit impairment expenses on loans and advances of KHR 2,139,767 thousand and KHR 2,575,807 thousand for the three-month and six-month periods ended 30 June 2020.

2. Income tax

Refer to Note 28, the Company is entitled to 50% reduction on tax on profit (20%) for the year ended 31 December 2019. For the three-month and six-month period ended 30 June 2019, the Company's income tax liabilities were reported at 20% tax rate instead of 10% tax rate. Therefore, the reported income tax liabilities and income tax expense for the three-month and six-month period ended 30 June 2019 are overstated by the impact of 50% reduction on tax on profit and income tax from prior period adjustment on loans and advances. The Company made an adjustment for restatement of its income tax liabilities and income tax expense of KHR 5,339,927 thousand and KHR 9,438,593 thousand for the three-month and six-month periods ended 30 June 2019.
