(Registration No: Co.0839 Et/2012)

## Introduction

We have reviewed the accompanying condensed statement of financial position of the Phnom Penh Water Supply Authority (“PPWSA”) as at 30 June 2015, and the related condensed statements of profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended, and condensed notes to the interim financial information (collectively known as “Condensed Interim Financial Information”). The Directors of the PPWSA are responsible for the preparation of and presentation of the Condensed Interim Financial Information. Our responsibility is to express a conclusion on this Condensed Interim Financial Information based on our review.

## Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Cambodian International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Condensed Interim Financial Information of the PPWSA are not presented fairly, in all material respects, in accordance with Cambodian International Accounting Standard 34 *Interim Financial Reporting*.

## 13. TAX EXPENSE

Under the Law on Taxation, the PPWSA has an obligation to pay Tax on Profit at 20% (2014: 18%) of taxable profit or minimum tax at 1% of total turnover, whichever is higher. The reduction of 2% to the applicable tax rate in 2014 is an incentive given by the Securities Exchange Commission of Cambodia for three years from 2012 to 2014. The tax rate will revert to 20% for the current financial year ending 31 December 2015.

## 16. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The financial risk management objective of the PPWSA is to optimise value creation for its shareholders whilst minimising the potential adverse impact arising from volatility of the financial markets.

The Directors are responsible for setting the objectives and underlying principles of financial risk management for the PPWSA. The management then establishes the detailed policies such as authority levels, oversight responsibilities, risk identification and measurement and exposure limits in accordance with the objectives and underlying principles approved by the Directors.

### (a) Credit risk

Credit risk is the risk of financial loss to the PPWSA if a counter party to a financial instrument fails to perform as contracted. The PPWSA is mainly exposed to credit risk from credit sales. It is the PPWSA policy to monitor the financial standing of these counter parties on an ongoing basis to ensure that the PPWSA is exposed to minimal credit risk.

The PPWSA's primary exposure to credit risk arises through its trade receivables from its customers. The credit period is three months and the PPWSA seeks to maintain strict control over its outstanding receivables to minimise credit risk. Overdue balances are reviewed regularly by management.

### (b) Liquidity and cash flow risk

Liquidity and cash flow risk arises from the PPWSA's management of working capital. It is the risk that the PPWSA will encounter difficulty in meeting its financial obligations when due.

The PPWSA actively manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that all operating, investing and financing needs are met. In liquidity risk management strategy, the PPWSA maintains a level of cash and cash equivalents deemed adequate to finance the PPWSA's activities.

### (c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the financial instruments of the PPWSA would fluctuate because of changes in market interest rates.

The exposure of the PPWSA to interest rate risk arises primarily from borrowings. The PPWSA manages its interest rate exposure by closely monitoring the debt market and where necessary, maintaining a prudent mix of fixed and floating rate borrowings. The PPWSA does not use derivative financial instruments to hedge any debt obligations.
