REPORT OF THE BOARD OF DIRECTORS

The Board of Directors (“the Board” or “the Directors”) hereby submits their report together with the consolidated interim financial statements of ACLEDA Bank Plc. (“the Bank”) and its subsidiaries (collectively referred to as “the Group”) and the separate interim financial statements of the Bank as at 31 March 2024 and for the three-month period then ended (hereafter collectively referred to as “the interim financial statements”).

THE GROUP AND THE BANK

Prior to 1 December 2003, the Bank was a public limited company formed under the laws of the Kingdom of Cambodia to operate as a specialised bank with its Head Office located in Phnom Penh and 14 branches in the Kingdom of Cambodia. On 1 December 2003, the National Bank of Cambodia (“NBC”) issued a license for the Bank to become a private commercial bank for a period of three years commencing 1 December 2003. The Bank’s license was renewed for an indefinite period on 28 November 2006. The registered office of the Bank is located at No. 61, Preah Monivong Boulevard, Sangkat Srah Chork, Khan Daun Penh, Phnom Penh, Kingdom of Cambodia. The Bank may open additional offices in Cambodia and in other countries, and may change the location of its main registered office upon registering the change with the Ministry of Commerce (“MOC”) and receiving approval from the NBC.

On 25 May 2020, the Bank was successfully listed in the Cambodia Securities Exchange (“CSX”). The number of new issued shares were 4,344,865 shares with a par value of KHR4,000 (US\$0.98) per share, at an offering price of KHR16,200 (US\$3.97) per share. The Bank received the proceeds from the initial public offering (“IPO”) amounting to US\$17,082,105 and incurred IPO costs of US\$1,031,025, resulting in share premium of US\$11,706,215 (KHR48,235,459 thousand).

On 23 November 2020, the shareholders approved the amendment to the Memorandum and Articles of Association (“MAA”) relating to the capital increase from the IPO. On 18 February 2021, the Bank submitted a letter to the NBC requesting for its approval on the capital increase, which was approved on 29 March 2021. Accordingly, the Bank’s amended MAA was approved by the MOC on 12 May 2021.

The Bank and its subsidiaries, ACLEDA Bank Lao Ltd. (“ABL”) and ACLEDA MFI Myanmar Co., Ltd. (“AMM”), are all in the financial industry sector and have operations across 264 offices covering all provinces and cities in the Kingdom of Cambodia, 37 offices in the Lao People’s Democratic Republic (“PDR”), and 17 offices in the Republic of the Union of Myanmar. The Bank’s other subsidiaries, ACLEDA Securities Plc. (“ACS”) is in the securities sector and ACLEDA University of Business Co., Ltd. (“AUB”) is in the education sector.

On 21 November 2022, the NBC approved the Bank’s request for the issuance of green bonds to qualified investors in the amount of KHR400 Billion (equivalent to US\$100 Million) on the CSX.

On 7 December 2022, the Securities and Exchange Regulator of Cambodia (“SERC”) approved the Bank’s request for its nominated Cash Settlement Agent, Registrar Agent, and Transfer Agent, and ACS as the Bond Agent when the Bank issues the green bonds in the CSX.

PRINCIPAL ACTIVITIES

The Bank operates under the regulations of the NBC with special focus on providing lending and other financial services to the citizenry and small and medium-sized enterprises and to engage in all other activities, which the Directors believe support these objectives.

ABL is 99.90% owned by the Bank and its principal business is providing banking and related financial services in Lao PDR.

ACS is wholly-owned by the Bank and its principal business is providing securities brokerage and other services approved by Securities and Exchange Commission of Cambodia ("SECC") (currently, the SERC).

AUB is 76.609% owned by the Bank. AUB provides training and education for Associate's degree, Bachelor's degree, and Master's degree in Business Administration, Major in Banking and Finance.

AMM is wholly-owned by the Bank and is permitted to operate as a deposit-taking microfinance institution providing microfinance services to lower income segments of the Myanmar market and other activities allowed by the Microfinance Supervisory Authority in Myanmar.

INTERIM FINANCIAL PERFORMANCE

The audited interim financial performance of the Group and the Bank for the three-month period ended 31 March 2024 are set out in the consolidated interim statements of profit or loss and other comprehensive income and separate interim statements of profit or loss and other comprehensive income on pages 12 – 13 and 19, respectively.

SHARE CAPITAL AND SHARE PREMIUM

Share capital and share premium are classified as equity. Incremental costs directly attributable to the issuance of new share capital are shown in equity as a deduction from the proceeds, net of tax.

RESERVES AND PROVISIONS

There were no material movements to or from reserves and provisions during the period other than those disclosed in the interim financial statements.

BAD AND DOUBTFUL LOANS

Before the interim financial statements of the Group and the Bank were drawn up, the Directors took reasonable steps to ascertain that action had been taken in relation to the write-off of bad loans and advances or in making provisions for doubtful loans and advances, and satisfied themselves that all known bad loans and advances had been written off and that adequate provisions have been made for bad and doubtful loans and advances.

At the date of this report and based on the best of knowledge, the Directors are not aware of any circumstances which would render the amount written off for bad loans and advances or the amount of the provisions for bad and doubtful loans and advances in the interim financial statements of the Group and the Bank inadequate to any material extent.

ASSETS

Before the interim financial statements of the Group and the Bank were drawn up, the Directors took reasonable steps to ensure that any assets which were unlikely to be realised in the ordinary course of business at their values as shown in the accounting records of the Group and the Bank have been written down to an amount which they might be expected to realise.

At the date of this report and based on the best of knowledge, the Directors are not aware of any circumstances which would render the values attributed to the assets in the interim financial statements of the Group and the Bank misleading in any material respect.

CONTINGENT AND OTHER LIABILITIES

At the date of this report, there is:

- (a) no charge on the assets of the Group and the Bank which has arisen since the end of the financial period which secures the liabilities of any other person, and
- (b) no contingent liability in respect of the Group and the Bank that has arisen since the end of the financial period other than in the ordinary course of banking business.

No contingent or other liability of the Group and the Bank has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial period which, in the opinion of the Directors, will or may have a material effect on the ability of the Group or the Bank to meet its obligations as and when they become due.

CHANGE OF CIRCUMSTANCES

At the date of this report, the Directors are not aware of any circumstances, not otherwise dealt with in this report or the interim financial statements of the Group and the Bank, which would render any amount stated in the interim financial statements misleading in any material respect.

ITEMS OF AN UNUSUAL NATURE

The results of the operations of the Group and the Bank for the financial period were not, in the opinion of the Directors, materially affected by any items, transactions or events of a material and unusual nature.

There has not arisen, in the interval between the end of the financial period and the date of this report, any items, transactions or events of a material and unusual nature that are likely, in the opinion of the Directors, to substantially affect the results of the operations of the Group and the Bank for the financial period in which this report is made.

THE BOARD OF DIRECTORS AND THE EXECUTIVE COMMITTEE

The members of the Board of Directors during the period and as at the date of this report are:

- Mr. Chhay Soeun Chairman (Non-executive Director)
- Dr. In Channy Member (Executive Director)
- Mr. Kyosuke Hattori Member (Non-executive Director)
- Dr. Albertus Bruggink Member (Non-executive Director)
- Mr. Stéphane Mangiavacca Member (Non-executive Director)
- Mr. Kay Lot Member (Independent Director) (Effective on 7 May 2024, previously served as Non-executive Director)
-
- Drs. Pieter Kooi Member (Independent Director)
- Dr. Heng Dyna Member (Independent Director)
- Ms. Phurik Ratana Member (Independent Director)

THE BOARD OF DIRECTORS AND THE EXECUTIVE COMMITTEE (continued)

The members of the Executive Committee during the period and at the date of this report are:

- Dr. In Channy President & Group Managing Director
- Mrs. Mar Amara Senior EVP & Group Chief Financial Officer and Group Chief Operations Officer
- Mr. Ly Thay EVP & Group Chief Administrative Officer
- Mrs. Buth Bunseyha Senior EVP & Group Chief Legal Officer and Corporate Secretary
- Mr. Mach Theary EVP & Group Chief Information Officer
- Dr. Loeung Sopheap EVP & Group Chief Risk Officer
- Mr. Yin Virak EVP & Group Chief Treasury Officer

THE DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE INTERIM FINANCIAL STATEMENTS

The Directors are responsible for ensuring that the interim financial statements are properly drawn up so as to present fairly, in all material respects, the interim financial position as at 31 March 2024, the interim financial performance and the interim cash flows for the three-month period then ended of the Group and the Bank in accordance with Cambodian International Financial Reporting Standards ("CIFRS").

In preparing these interim financial statements, the Directors are required to:

- i) adopt appropriate accounting policies which are supported by reasonable and prudent judgments and estimates and then apply them consistently;
- ii) comply with the disclosure requirements of CIFRS, or if there have been any departures in the interest of true and fair presentation, these have been appropriately disclosed, explained, and quantified in the interim financial statements;
- iii) maintain adequate accounting records and an effective system of internal controls;
- iv) prepare the interim financial statements on a going concern basis unless it is inappropriate to assume that the Group and the Bank will continue operations in the foreseeable future;
- v) effectively control and direct the Group and the Bank in all material decisions affecting the operations and performance and ascertain that such have been properly reflected in the interim financial statements; and,
- vi) safeguard the assets of the Group and the Bank and hence take reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors confirm that the Group and the Bank have complied with the above requirements in preparing the interim financial statements.

Mrs. Mar Amara
Senior Executive Vice President & Group Chief Financial Officer and Group Chief Operations Officer

Dr. In Channy
President & Group Managing Director

Phnom Penh, Kingdom of Cambodia
Date: 9 May 2024

APPROVAL OF THE INTERIM FINANCIAL STATEMENTS

The accompanying interim financial statements, together with the notes thereto set out on pages 11 to 177, present fairly, in all material respects, the interim financial position as at 31 March 2024, the interim financial performance and the interim cash flows for the three-month period then ended of the Group and the Bank in accordance with CIFRS, were approved by the Board of Directors.

Signed in accordance with a resolution of the Board of Directors.

Mr. Chhay Soeun
Chairman

Phnom Penh, Kingdom of Cambodia
Date: 9 May 2024

Independent auditor's report

To the Shareholders of ACLEDA Bank Plc.

Report on the audit of the consolidated and separate interim financial statements

Our opinion

In our opinion, the consolidated interim financial statements and the separate interim financial statements present fairly, in all material respects, the consolidated interim financial position of ACLEDA Bank Plc. (the Bank) and its subsidiaries (the Group) and the separate interim financial position of the Bank as at 31 March 2024, and its consolidated and separate interim financial performance and its consolidated and separate interim cash flows for the period then ended in accordance with Cambodian International Financial Reporting Standards (CIFRS).

What we have audited

ACLEDA Bank Plc.'s interim financial statements comprise:

- the consolidated interim statement of financial position as at 31 March 2024;
- the consolidated interim statement of profit or loss and other comprehensive income for the period covering 1 January 2024 to 31 March 2024;
- the consolidated interim statement of changes in equity for the period covering 1 January 2024 to 31 March 2024;
- the consolidated interim statement of cash flows for the period covering 1 January 2024 to 31 March 2024;
- the separate interim statement of financial position as at 31 March 2024;
- the separate interim statement of profit or loss and other comprehensive income for the period covering 1 January 2024 to 31 March 2024;
- the separate interim statement of changes in equity for the period covering 1 January 2024 to 31 March 2024;
- the separate interim statement of cash flows for the period covering 1 January 2024 to 31 March 2024; and
- the notes to the consolidated and separate interim financial statements, which include material accounting policy information and other explanatory information.

Basis for opinion

We conducted our audit in accordance with Cambodian International Standards on Auditing (CISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated and separate interim financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group and the Bank in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) and the ethical requirements of the Kampuchea Institute of Certified Public Accountants and Auditors' Code of Ethics for Certified Public Accountants and Auditors (KICPAA Code) that are relevant to our audit of the consolidated and separate interim financial statements in Cambodia. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the ethical requirements of the KICPAA Code.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and separate interim financial statements of the current period. We determine one key audit matter: Allowance for impairment losses on loans and advances. This matter was addressed in the context of our audit of the consolidated and separate interim financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Key audit matter	How our audit addressed the key audit matter
<p>Allowance for impairment losses on loans and advances</p> <p>Loans and advances constitute approximately 66.17% and 65.68% of the Group's and the Bank's total assets, respectively, as at 31 March 2024. The Group's and the Bank's loan portfolio mainly comprises loans and advances to customers (both corporates and individuals) in wholesales and retails, services and agriculture. Refer to Note 39.1(d)(ii) for details.</p> <p>The Group's and the Bank's expected credit loss ("ECL") models are significant to our audit as this requires the use of complex models and significant assumptions about future economic conditions and credit behaviors. The ECL models require considerable judgement and interpretation in its implementation of the requirements of CIFRS 9, Financial Instruments, which brings about a high degree of estimation uncertainty.</p> <p>The significant judgements in applying the accounting requirements for measuring ECL include the following:</p> <ul style="list-style-type: none"> • grouping financial assets sharing similar credit risk characteristics for the purposes of measuring ECL; • choosing appropriate models and assumptions to measure ECL; 	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • We updated our understanding, evaluated the design and implementation, and tested the operating effectiveness of the key controls over the allowance for impairment losses. These controls, among others, included: <ul style="list-style-type: none"> - Loan applications and credit reviews; - Identification of significant increase in credit risk; - Review of the credit worthiness of the borrowers; - Review on frequent refreshment of collateral value; and, - Accuracy of data inputs. • We assessed whether the methodology and assumptions used in the ECL models are consistent with the requirements of CIFRS 9. • We examined samples of loans for the appropriateness of the loan credit risk grading and staging, assessed Management's evaluations and conclusions on the credit worthiness and classification of the selected loans.

Key audit matter	How our audit addressed the key audit matter
<p data-bbox="286 405 867 465">Allowance for impairment losses on loans and advances (continued)</p> <ul data-bbox="286 499 867 685" style="list-style-type: none"> <li data-bbox="286 499 867 589">• Determining criteria for identifying loans to customers that have experienced a significant increase in credit risk (SICR); and, <li data-bbox="286 595 867 685">• applying assumptions and analysis on expected future cash flows and forward-looking information; <p data-bbox="286 719 867 904">The details of the accounting policies, critical accounting judgements and estimation uncertainty, and credit risk management used by the Group and the Bank have been disclosed in Notes 2(e)(vii), 4 and 39.1 to the interim financial statements, respectively.</p>	<ul data-bbox="890 405 1467 1030" style="list-style-type: none"> <li data-bbox="890 405 1467 775">• We evaluated the processes used by Management to develop forward-looking information used in the ECL models and validated their reasonableness against publicly available information and our understanding of the Group's and the Bank's loan portfolios and industry where the Group operates. In addition, we assessed the level of significant of correlation of selected macro-economic factors to the default rates as well as the impact of these variables to the ECL. <li data-bbox="890 781 1467 871">• We tested the accuracy of key inputs into the ECL models by comparing them against source systems and documents. <li data-bbox="890 878 1467 967">• We recomputed on the sample basis the ECL to test the mathematical accuracy of the ECL models. <li data-bbox="890 974 1467 1030">• We assessed the adequacy of disclosures to ensure compliance with CIFRS 9. <p data-bbox="890 1064 1467 1182">From the results of these procedures, we determined that the key assumptions of management's estimate were reasonable based on available evidence.</p>

Other information

Management is responsible for the other information. The other information comprises the report of the Board of Directors and the supplementary financial information required by the National Bank of Cambodia, but does not include the consolidated and separate interim financial statements and our auditor's report thereon.

Our opinion on the consolidated and separate interim financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate interim financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate interim financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the interim financial statements

Management is responsible for the preparation and fair presentation of the consolidated and separate interim financial statements in accordance with CIFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate interim financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate interim financial statements, management is responsible for assessing the Group's and the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Bank's financial reporting process.

Auditor's responsibilities for the audit of the consolidated and separate interim financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate interim financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with CISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate interim financial statements.

As part of an audit in accordance with CISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate interim financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate interim financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Bank to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated and separate interim financial statements, including the disclosures, and whether the consolidated and separate interim financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the interim financial information of the entities or business activities within the Group to express an opinion on the consolidated interim financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and separate interim financial statements of the current period and are therefore the key audit matter. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Non-cash financing activities

During the three-month period ended 31 March 2024, the Bank entered into new lease agreements and recognised right-of-use assets amounting to US\$4,447,329 (31 March 2023: US\$3,026,214), and pre-terminated right-of-use assets and lease liabilities amounting to US\$329,482 (31 March 2023: US\$281,224) and US\$354,249 (31 March 2023: US\$331,819), respectively, and recognised gain from pretermination amounting to US\$24,767 (31 March 2023: US\$48,075), which is a non-cash transaction.

The accompanying notes on pages 23 to 177 form an integral part of these interim financial statements.

ACLEDA BANK PLC.

NOTES TO THE INTERIM FINANCIAL STATEMENTS AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED

1. BACKGROUND INFORMATION

Prior to 1 December 2003, ACLEDA Bank Plc. (“ABC” or “the Bank”) was a public limited company formed under the Laws of the Kingdom of Cambodia to operate as a specialised bank with a Head Office located in Phnom Penh and 14 branches in the Kingdom of Cambodia. On 1 December 2003, the National Bank of Cambodia (“NBC”) issued a license for the Bank to become a private commercial bank for a period of three years commencing 1 December 2003. The Bank’s license was renewed for an indefinite period on 28 November 2006. On 25 May 2020, the Bank was successfully listed on the Cambodia Securities Exchange (“CSX”).

On 21 November 2022, the NBC approved the Bank’s request for the issuance of green bonds to qualified investors in amount of KHR400 Billion (equivalent to US\$100 Million) on the CSX.

On 7 December 2022, the Securities and Exchange Regulator of Cambodia (“SERC”) approved the Bank’s request for its nominated Cash Settlement Agent, Registrar Agent, Transfer Agent, and ACLEDA Securities Plc. (“ACS”), a wholly-owned subsidiary of the Bank, as the Bond Agent when the Bank issues the green bonds in the CSX.

The registered office of the Bank is located at No. 61, Preah Monivong Boulevard, Sangkat Srah Chork, Khan Daun Penh, Phnom Penh, Kingdom of Cambodia.

The Bank operates under the supervision of the NBC with special focus on providing lending and other financial services to the citizenry and small and medium-sized enterprises and to engage in all other activities, which the Board of Directors believes support these objectives.

The Bank and its four subsidiaries (collectively referred to as “the Group”) are operating in the Kingdom of Cambodia, Lao People’s Democratic Republic (“PDR”) and the Republic of the Union of Myanmar. The principal activities of the subsidiaries are disclosed in Note 13 to the interim financial statements. Currently, the Group has 264 offices covering all provinces and cities in the Kingdom of Cambodia, 37 offices in the Lao PDR, and 17 offices in the Republic of the Union of Myanmar.

As at 31 March 2024, the Group and the Bank have 13,519 and 12,069 employees, respectively (31 December 2023: 13,503 and 12,045 employees, respectively).

The consolidated and separate interim financial statements as at 31 March 2024 and for the three-month period then ended were approved and authorised for issue by the Board of Directors on 9 May 2024.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The material accounting policies adopted in the preparation of the interim financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(a) Basis of preparation and presentation

The interim financial statements of the Group and the Bank have been prepared in accordance with Cambodian International Financial Reporting Standards (“CIFRS”) which are based on all standards published by the International Accounting Standard Board including other interpretations and amendments that may occur in any circumstances to each standard. The consolidated and separate interim financial statements have been prepared on a historical cost basis, except for items which are not prepared under the historical cost basis such as:

- Financial instruments, including derivatives, which are valued at fair value;

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(a) Basis of preparation and presentation (continued)

The preparation of interim financial statements in conformity with CIFRS requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise judgment in the process of applying the Group's and the Bank's accounting policies. Areas involving a higher degree of judgment or complexity, or areas where assumptions and estimations are significant to the interim financial statements are disclosed in Note 4.

The interim financial statements are presented in accordance with Cambodian International Accounting Standard ("CIAS") 34, *Interim Financial Reporting*.

The Group and the Bank present the interim statement of financial position based on liquidity. Generally, assets and liabilities expected to be recovered or settled over 12 months after the reporting period are considered as non-current assets and non-current liabilities, respectively.

An English version of the interim financial statements have been prepared from the interim financial statements that are in the Khmer language. In the event of a conflict or a difference in interpretation between the two languages, the Khmer language financial statements shall prevail.

(b) Adoption of amended accounting standards

(i) Amended accounting standards effective during the period

The Group and the Bank adopted all accounting standards and interpretations as at 31 March 2024. The amended accounting standards assessed to be applicable and have no material impact to the Group's and the Bank's interim financial statements are as follow:

- Classification of Liabilities as Current or Non-current (Amendments to CIAS 1)

The amendments in Classification of Liabilities as Current or Non-current (Amendments to CIAS 1) affect only the presentation of liabilities in the statement of financial position — not the amount or timing of recognition of any asset, liability, income or expenses, or the information that entities disclose about those items.

They clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and align the wording in all affected paragraphs to refer to the "right" to defer settlement by at least twelve months and make explicit that only rights in place "at the end of the reporting period" should affect the classification of a liability; clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability; and make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

- Non-current Liabilities with Covenants (Amendments to CIAS 1)

Modify the requirements introduced by Classification of Liabilities as Current or Non-current on how an entity classifies debt and other financial liabilities as current or non-current in particular circumstances: Only covenants with which an entity is required to comply on or before the reporting date affect the classification of a liability as current or non-current. In addition, an entity has to disclose information in the notes that enables users of financial statements to understand the risk that non-current liabilities with covenants could become repayable within twelve months.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(b) Adoption of amended accounting standards (continued)

(ii) Amended accounting standards, which are not yet effective and not early adopted

At the date of authorisation of these interim financial statements, the following amended accounting standards have been issued but are not yet effective were assessed to be applicable to the Group and the Bank:

- Lack of Exchangeability (Amendments to IAS 21, *The Effects of Changes in Foreign Exchange Rates*)
- CIFRS 18, *Presentation and Disclosure in Financial Statements* issued replaces the following standards and interpretations on IAS 1, *Presentation of Financial Statements*

The Group and the Bank do not expect that the adoption of the amendments to the accounting standards listed above will have a material impact on the interim financial statements of the Group and the Bank in future periods.

(c) Consolidation

(i) Subsidiaries

Subsidiaries are all entities over which the Bank has control. The Bank controls an entity when the Bank is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct relevant activities of the entity.

The consolidated interim financial statements include the interim financial statements of the Bank and all its subsidiaries made up to the end of the financial period.

Subsidiaries are consolidated from the date on which control is transferred to the Bank and deconsolidated from the date that control ceases.

All material transactions and balances between each of the Group's entities are eliminated and the consolidated interim financial statements reflect external transactions only. Where necessary, the accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

(ii) Investments in subsidiaries

In the Bank's separate interim financial statements, investments in subsidiaries are carried at cost less any accumulated impairment losses. On disposal of investments in subsidiaries, the difference between disposal proceeds and the carrying amounts of investments are recognised in the interim separate statement of profit or loss and other comprehensive income.

The amounts due from subsidiaries of which the Bank does not expect repayment in foreseeable future are considered as part of the Bank's investments in subsidiaries.

(iii) Disposal of subsidiaries

When the Bank ceases to have control, any retained interest in the entity is remeasured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for retained interest as an associate, joint venture, or financial assets. In addition, any amount previously recognised in other comprehensive income in respect of that entity are accounted for as if the Bank had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(c) Consolidation (continued)

(iv) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests (“NCI”) that do not result in loss in control are accounted for as equity transactions that is, as transactions with the owners in their capacity as owners. For purchases from NCI, the difference between any consideration paid and the relevant share in the carrying value of net assets of the subsidiary acquired is deducted from equity. For disposals to NCI, the difference between any proceeds received and the relevant share in NCI are also recognised in equity.

(v) Non-controlling interests

NCI is measured initially at their proportionate share of the acquiree’s identifiable net assets at the date of acquisition.

Changes in Group’s interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

An entity has a choice on a combination-by-combination basis to measure any NCI in the acquiree at either the proportionate share of the acquiree’s identifiable net assets or fair value. The Group has elected to maintain the former approach.

NCI in subsidiaries is identified separately from the Group’s equity therein. Subsequent to acquisition, the carrying amount of NCI is the amount of those interests at initial recognition plus the NCI’s share of subsequent changes in equity.

(d) Foreign currency translation

(i) Functional and presentation currency

Items included in the interim financial statements of each of the Group’s entities are measured using the currency of the primary economic environment in which the entity operates (‘the functional currency’). The interim financial statements are presented in United States Dollar (“US\$”), which is the Group’s and the Bank’s functional and presentation currency.

(ii) Transactions and balances

Transactions in currencies other than US\$ are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in currencies other than US\$ are recognised in the interim statement of profit or loss and other comprehensive income.

(iii) Group’s companies

The interim results and interim financial position of foreign operations (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the Bank’s presentation currency are translated into the presentation currency as follows:

- a) assets and liabilities for each interim statement of financial position presented are translated using the closing rate at the end of the reporting period;
- b) income and expenses for each interim statement of profit or loss and other comprehensive income presented are translated using the average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case, income and expenses are translated at the rate on the dates of the transactions); and,

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(d) Foreign currency translation (continued)

(iii) Group's companies (continued)

c) all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of any net investment in foreign operations are recognised in other comprehensive income. When a foreign operation is partially disposed of or sold, exchange differences are reclassified to the interim statement of profit or loss and other comprehensive income as gain or loss on sale.

(e) Financial assets and financial liabilities

(i) Recognition and initial measurement

The Group and the Bank initially recognise loans and advances, deposits and placements with other banks, borrowings and subordinated debts on the date on which they are originated. All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date the Group and the Bank become a party to the contractual provisions of the instrument.

A financial asset or financial liability is measured initially at fair value plus, for an item not at fair value through profit and loss ("FVTPL"), transaction costs that are directly attributable to its acquisition or issue.

(ii) Classification

On initial recognition, a financial asset is classified as: amortised cost, FVTPL or fair value through other comprehensive income ("FVOCI").

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and,
- the contractual terms of the financial asset give rise on specified dates to cash flows that are 'solely payments of principal and interest' ("SPPI").

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and,
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

On initial recognition of an equity investment that is not held for trading, the Group and the Bank may irrevocably elect to present subsequent changes in fair value in other comprehensive income. This election is made on an investment-by-investment basis. However, the Group and the Bank have not made such election.

All other financial assets are classified as FVTPL. As at the reporting date, the Group and the Bank do not have financial assets classified as FVTPL.

In addition, on initial recognition, the Group and the Bank may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost, FVOCI, or FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

2. **SUMMARY OF MATERIAL ACCOUNTING POLICIES** (continued)

(e) **Financial assets and financial liabilities** (continued)

(ii) *Classification (continued)*

Business model assessment

The Group and the Bank make an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to the Management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's and the Bank's Management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and its strategy on how those risks are managed;
- how managers of the business are compensated (e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected); and,
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's and the Bank's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell the financial assets.

Assessment of whether contractual cash flows are SPPI

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as the consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are SPPI, the Group and the Bank consider the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

In making the assessment, the Group and the Bank consider:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's and the Bank's claim to cash flows from specified assets (e.g. non-recourse loans); and,
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

2. **SUMMARY OF MATERIAL ACCOUNTING POLICIES** (continued)

(e) **Financial assets and financial liabilities** (continued)

(ii) *Classification (continued)*

Assessment of whether contractual cash flows are SPPI (continued)

The Group and the Bank hold a portfolio of long-term fixed-rate loans for which the Group and the Bank have the option to propose to revise the interest rate at periodic reset dates. These reset rights are limited to the market rate at the time of revision in which the Group and the Bank have an option to either accept the revised rate or redeem the loan at par without penalty. The Group and the Bank have determined that the contractual cash flows of these loans are SPPI because the option varies with the interest rate in consideration for the time value of money, credit risk, and other basic lending risks and costs associated with the principal amount outstanding.

Non-recourse loans

In some cases, loans made by the Group and the Bank that are secured by collateral from the borrower limit the Group's and the Bank's claim to cash flows of the underlying collateral ('non-recourse loans'). The Group and the Bank apply judgment in assessing whether the non-recourse loans meet the SPPI criterion. The Group and the Bank typically consider the following information when making this judgement:

- whether the contractual arrangement specifically defines the amounts and dates of the cash payments of the loan;
- the fair value of the collateral relative to the amount of the secured financial asset;
- the ability and willingness of the borrower to make contractual payments, notwithstanding a decline in the value of collateral;
- whether the borrower is an individual or a substantive operating entity or is a special-purpose entity;
- the Group's and the Bank's risk of loss on the asset relative to a full-recourse loan;
- the extent to which the collateral represents all or a substantial portion of the borrower's assets; and,
- whether the Group and the Bank will benefit from any upside from the underlying assets.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Group and the Bank change its business model for managing financial assets.

Financial liabilities

The Group and the Bank classify its financial liabilities, other than financial guarantees and loan commitments, either at amortised cost or FVTPL. As at the reporting date, the Group and the Bank do not have financial liabilities classified as FVTPL.

(iii) *Derecognition*

Financial assets

The Group and the Bank derecognise a financial asset when the contractual rights to the cash flows from the financial asset expire [see also (iv)], or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group and the Bank neither transfer nor retain substantially all of the risks and rewards of ownership and do not retain control of the financial asset.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(e) Financial assets and financial liabilities (continued)

(iii) Derecognition (continued)

Financial assets (continued)

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

Any cumulative gain/loss recognised in other comprehensive income in respect of equity investment securities designated as FVOCI is not recognised in profit or loss on derecognition of such securities. Any interests in transferred financial assets that qualify for derecognition that is created or retained by the Group and the Bank are recognised as a separate asset or liability.

Financial liabilities

The Group and the Bank derecognise a financial liability when its contractual obligations are discharged, cancelled, or expired.

(iv) Modifications of financial assets and financial liabilities

Financial assets

If the terms of a financial asset are modified, then the Group and the Bank evaluate whether the cash flows of the modified asset are substantially different. The Group and the Bank consider, among others:

- if the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay;
- whether any substantial new terms are introduced that will affect the risk profile of the loan;
- significant extension of the loan term when the borrower is not in financial difficulty;
- significant change in the interest rate;
- change in the currency the loan is denominated in; and/or,
- insertion of collateral, other security or credit enhancements that will significantly affect the credit risk associated with the loan.

If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised (see (iii)) and a new financial asset is recognised at fair value plus any eligible transaction costs. Any fees received as part of the modification are accounted for as follows:

- fees that are considered in determining the fair value of the new asset and fees that represent reimbursement of eligible transaction costs are included in the initial measurement of the asset; and,
- other fees are included in profit or loss as part of the gain or loss on derecognition.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If the Group or the Bank plan to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place [see (vii) for write-off policy]. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(e) Financial assets and financial liabilities (continued)

(iv) Modifications of financial assets and financial liabilities (continued)

Financial assets (continued)

If the modification of a financial asset measured at amortised cost or FVOCI does not result in derecognition of the financial asset, then the Group and the Bank first recalculate the gross carrying amount of the financial asset using the original effective interest rate of the asset and recognise the resulting adjustment as a modification gain or loss in profit or loss. For floating-rate financial assets, the original effective interest rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs or fees incurred and fees received as part of the modification adjust the gross carrying amount of the modified financial asset and are amortised over the remaining term of the modified financial asset.

If such a modification is carried out because of financial difficulty of the borrower (see (vii)) then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income calculated using the effective interest method (see Note 2(t)).

Financial liabilities

The Group and the Bank derecognise a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability derecognised and consideration paid is recognised in profit or loss. Consideration paid includes non-financial assets transferred, if any, and the assumption of liabilities, including the new modified financial liability.

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective interest rate and the resulting gain or loss is recognised in profit or loss.

For floating-rate financial liabilities, the original effective interest rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs and fees incurred are recognised as an adjustment to the carrying amount of the liability and amortised over the remaining term of the modified financial liability.

(v) Offsetting

Financial assets and financial liabilities are offset and the net amount is presented in the interim statement of financial position when, and only when, the Group or the Bank currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under CIFRS, or for gains and losses arising from a group of similar transactions such as in the Group's and the Bank's trading activity.

(vi) Fair value measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group and the Bank have access at that date. The fair value of a liability reflects its non-performance risk.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(e) Financial assets and financial liabilities (continued)

(vi) Fair value measurement (continued)

The fair value of a financial liability with a demand feature (e.g. demand deposit) is not less than the amount payable on demand, discounted from the first date on which the amount could be required to be paid.

The Group and the Bank recognise transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

(vii) Impairment

The Group and the Bank recognise loss allowances for the expected credit loss (“ECL”) on the following financial instruments that are not measured at FVTPL:

- financial assets that are debt instruments;
- loans and advances;
- financial guarantee contracts issued; and,
- loan commitments issued.

The Group and the Bank measure loss allowances at an amount equal to lifetime ECL, except for the following, for which they are measured as 12-month ECL:

- debt investment securities that are determined to have low credit risk at the reporting date; and,
- other financial instruments (other than loans and advances) on which credit risk has not increased significantly since their initial recognition.

Loss allowances for loans and advances are always measured at an amount equal to lifetime ECL.

The Group and the Bank consider a debt investment security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of ‘investment grade’. The Group and the Bank do not apply the low credit risk exemption to any other financial instruments.

12-month ECL is the portion of ECL that results from default events on a financial instrument that are possible within the 12 months after the reporting date. Financial instruments for which a 12-month ECL is recognised are referred to as ‘Stage 1 financial instruments’.

Life-time ECL is the ECL that results from all possible default events over the expected life of the financial instrument. Financial instruments for which a lifetime ECL is recognised but which are not credit-impaired are referred to as ‘Stage 2 financial instruments’.

Measurement of ECL

ECL is a probability-weighted estimate of credit losses. It is measured as follows:

- financial assets that are not credit-impaired at the reporting date: at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group and the Bank expect to receive);
- financial assets that are credit-impaired at the reporting date: at the difference between the gross carrying amount and the present value of estimated future cash flows;
- undrawn loan commitments: at the present value of the difference between the contractual cash flows that are due to the Group and the Bank if the commitment is drawn down and the cash flows that the Group and the Bank expect to receive; and,
- financial guarantee contracts: at the expected payments to reimburse the holder less any amounts that the Group and the Bank expect to recover.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(e) Financial assets and financial liabilities (continued)

(vii) Impairment (continued)

Measurement of ECL (continued)

The key inputs into the measurement of ECL are the term structure of the following variables:

- Probability of default (“PD”);
- Loss given default (“LGD”); and,
- Exposure at default (“EAD”).

ECL for exposures in Stage 1 is calculated by multiplying the 12-month PD by LGD and EAD. Lifetime ECL is calculated by multiplying the lifetime PD by LGD and EAD.

The assumptions underlying the ECL calculation are monitored and reviewed monthly and quarterly. There have been no significant changes in the estimation techniques or significant assumptions made during the reporting period.

PD provides an estimate of the likelihood that a customer will be unable to meet its debt obligation or default over a particular time horizon. Financial assets under the general approach requires staging for both 12-month PD and lifetime PD estimation according to historical data using the migration approach or external credit rating approach.

LGD is the magnitude of the likely loss if there is a default. LGD is defined as the percentage of exposure the Group and the Bank might lose in case the customer defaults. These losses are usually shown as a percentage of EAD, and depend, amongst others, on the type and amount of collaterals as well as the type of customers and the expected recovery from the customers.

With updates of collateral value from time to time, the Group and the Bank take collateral value into LGD calculation for ECL computation. In the event of over-collateralised, a floor LGD shall be applied for ECL calculation.

EAD is simply the amount outstanding at the point of default. However, EAD is different following the natures of products:

- Amortised facilities: the current amount allowed under the contract and arising from amortisation
- Revolving facilities: utilisation rate
- Off-balance sheet: credit conversion factors

As described above and subject to using a maximum of a 12-month PD for Stage 1 financial assets, the Group and the Bank measure ECL considering the risk of default over the maximum contractual period (including any borrower’s extension options) over which it is exposed to credit risk, even if, for credit risk management purposes, the Group and the Bank consider a longer period. The maximum contractual period extends to the date at which the Group and the Bank have the right to require repayment or terminate a commitment or guarantee.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(e) Financial assets and financial liabilities (continued)

(vii) Impairment (continued)

Measurement of ECL (continued)

However, for credit card facilities that include both a loan and an undrawn commitment component, the Group and the Bank measure ECL over a period longer than the maximum contractual period if the Group's and the Bank's contractual ability to demand repayment and cancel the undrawn commitment does not limit the Group's and the Bank's exposure to credit losses to the contractual notice period. These facilities do not have a fixed term or repayment structure and are managed on a collective basis. The Group and the Bank can cancel them with immediate effect but this contractual right is not enforced in the normal day-to-day management, but only when the Group and the Bank become aware of an increase in credit risk at the facility level. This longer period is estimated taking into account the credit risk management actions that the Group and the Bank expect to take to mitigate ECL. These include a reduction in limits, cancellation of the facility and/or turning the outstanding balance into a loan with fixed repayment terms.

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised [see (iv)] and ECL is measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

Credit-impaired financial assets

At each reporting date, the Group and the Bank assess whether financial assets carried at amortised cost (and debt financial assets carried at FVOCI, if any) are credit-impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- material financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the Group and the Bank on terms that the Group and the Bank would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or,
- the disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment.

2. **SUMMARY OF MATERIAL ACCOUNTING POLICIES** (continued)

(e) **Financial assets and financial liabilities** (continued)

(vii) *Impairment (continued)*

Presentation of allowance for ECL in the interim statement of financial position

The Group and the Bank present loss allowances for ECL in the interim statement of financial position as follows:

- financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- loan commitments and financial guarantee contracts: generally, as a provision;
- where a financial instrument includes both a drawn and an undrawn component, and the Group and the Bank cannot identify the ECL on the loan commitment component separately from those on the drawn component: the Group and the Bank present a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision; and,
- debt instruments measured at FVOCI: no loss allowance is recognised in the interim statement of financial position because the carrying amount of these assets is their fair value. However, the loss allowance is disclosed and is recognised in the fair value reserve.

Write-off

Loans and debt securities are written off (either partially or in full) when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Group and the Bank determine that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. This assessment is carried out at the individual asset level.

Recoveries of amounts previously written off are included in the interim statement of profit or loss and other comprehensive income.

Financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's and the Bank's procedures for recovery of amounts due.

Non-integral financial guarantee contracts

The Group and the Bank assess whether a financial guarantee contract held is an integral element of a financial asset that is accounted for as a component of that instrument or is a contract that is accounted for separately. The factors that the Group and the Bank consider when making this assessment include whether:

- the guarantee is implicitly part of the contractual terms of the debt instrument;
- the guarantee is required by laws and regulations that govern the contract of the debt instrument;
- the guarantee is entered into at the same time as and in contemplation of the debt instrument; or,
- the guarantee is given by the parent of the borrower or another company within the borrower's group.

If the Group and the Bank determine that the guarantee is an integral element of the financial asset, then any premium payable in connection with the initial recognition of the financial asset is treated as a transaction cost of acquiring it. The Group and the Bank consider the effect of the protection when measuring the fair value of the debt instrument and when measuring ECL.

2. **SUMMARY OF MATERIAL ACCOUNTING POLICIES** (continued)

(e) **Financial assets and financial liabilities** (continued)

(vii) *Impairment* (continued)

Non-integral financial guarantee contracts (continued)

If the Group or the Bank determines that the guarantee is not an integral element of the debt instrument, then it recognises an asset representing any prepayment of guarantee premium and a right to compensation for credit losses. A prepaid premium asset is recognised only if the guaranteed exposure is neither credit-impaired nor has undergone a significant increase in credit risk ("SICR") when the guarantee is acquired. These assets are recognised in 'Other assets'. The Group and the Bank present gains or losses on the compensation outright in profit or loss as 'Impairment losses on financial instruments'.

(viii) *Derivative financial instruments*

The Group and the Bank enter into a variety of derivative financial instruments to manage its exposure to interest rate through interest rate swaps. The use of financial derivatives is governed by the Group's and the Bank's policies approved by the Board of Directors, which provide written principles on the use of financial derivatives.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain/loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability. Derivatives are not offset in the interim financial statements unless the Group and the Bank have both the legal right and the intention to offset.

(ix) *Hedge accounting*

The Group and the Bank designate certain derivatives as hedging instruments in respect of foreign currency risk and interest rate risk in fair value hedges, cash flow hedges, or hedges of net investments in foreign operations, as appropriate. Hedges of interest rate risk on firm commitments are accounted for as cash flow hedges. The Group and the Bank do not apply fair value hedge accounting on portfolio hedges of interest rate risk.

At the inception of the hedge relationship, the Group and the Bank document the relationship between the hedging instrument and the hedged item, along with the risk management objectives and strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group and the Bank document whether the hedging instrument is effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk, which is when the hedging relationship meets all of the following hedge effectiveness requirements:

- there is an economic relationship between the hedged item and the hedging instrument;
- the effect of credit risk does not dominate the value changes that result from that economic relationship; and,
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group and the Bank actually hedge and the quantity of the hedging instrument that the Group and the Bank actually use to hedge that quantity of hedged item.

The Group and the Bank rebalance a hedging relationship in order to comply with the hedge ratio requirements, when necessary.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(e) Financial assets and financial liabilities (continued)

(ix) Hedge accounting (continued)

If a hedging relationship ceases to meet the hedge effectiveness requirement relating to the hedge ratio but the risk management objective for that designated hedging relationship remains the same, the Group and the Bank adjust the hedge ratio of the hedging relationship (i.e. rebalances the hedge) so that it meets the qualifying criteria again.

As at the reporting date, the Group and the Bank only have cash flow hedges for its interest rate swap agreements.

The effective portion of changes in the fair value of derivatives and other qualifying hedging instruments that are designated and qualify as cash flow hedges is recognised in the Group's and the Bank's retained earnings, but limited to the cumulative change in fair value of the hedged item from the inception of the hedge less any amounts recycled to profit or loss.

Amounts previously recognised in other comprehensive income and accumulated in equity are reclassified to profit or loss in the period when the hedged item affects profit or loss and in the same line as the recognised hedged item. If the Group and the Bank no longer expect the transaction to occur, that amount is immediately reclassified to profit or loss.

The Group and the Bank discontinue hedge accounting only when the hedging relationship (or a part thereof) ceases to meet the qualifying criteria (after rebalancing, if applicable). This includes instances when the hedging instrument expires or is sold, terminated or exercised, or where the occurrence of the designated hedged forecast transaction is no longer considered to be highly probable. The discontinuation is accounted for prospectively. Any gain/loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain/loss accumulated in equity is reclassified and recognised immediately in profit or loss.

(f) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and deposits and placements with other banks with original terms of three months or less when purchased, and that are readily convertible to known amounts of cash and subject to an insignificant risk of changes in value.

Cash and cash equivalents are carried at amortised cost in the interim statement of financial position.

(g) Financial investments

The 'Financial investments' caption in the interim statement of financial position may include:

- debt investment securities measured at amortised cost; these are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortised cost using the effective interest method; and
- equity investment securities designated as FVOCI.

For debt securities measured at FVOCI, gains and losses are recognised in other comprehensive income, except for the following, which are recognised in profit or loss in the same manner as with the financial assets measured at amortised cost:

- interest revenue using the effective interest method;
- ECL and reversals; and,
- foreign exchange gains and losses.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(g) Financial investments (continued)

When debt security measured at FVOCI is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss.

The Group and the Bank elect to present in other comprehensive income the changes in the fair value of certain investments in equity instruments that are not held for trading. The election is made on an instrument-by-instrument basis on initial recognition and is irrevocable.

Gains and losses on such equity instruments are never reclassified to profit or loss and no impairment is recognised in profit or loss. Dividends are recognised in profit or loss unless they clearly represent a recovery of part of the cost of the investment, in which case they are recognised in other comprehensive income. Cumulative gains and losses recognised in other comprehensive income are transferred to retained earnings on disposal of an investment.

(h) Share capital and share premium

Share capital and share premium are classified as equity.

Share capital represents the nominal (par) value of shares that have been issued. Other shares, if any, are classified as equity and/or liability according to the economic substance of the particular instrument. Distributions to holders of a financial instrument classified as an equity instrument are charged directly to equity.

Share premium includes any premiums received on the issuance of share capital. Incremental costs directly attributable to the issuance of new share capital are shown in equity as a deduction from the proceeds, net of tax.

(i) Earnings per share

Basic earnings per share ("EPS") is determined by dividing the adjusted net profit for the period attributable to common shareholders by the weighted average number of common stocks outstanding during the period, after giving retroactive effect to any stock dividends declared in the current period.

Diluted EPS is also computed by dividing net profit by the weighted average number of common stocks subscribed and issued during the period. However, net profit attributable to common stocks and the weighted average number of common stocks outstanding are adjusted to reflect the effects of all the dilutive potential common stocks into common stocks. Currently, there are no potentially dilutive common stocks.

(j) Property and equipment

Property and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of items of property and equipment. The cost of an item of property and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and,
- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Management.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All repairs and maintenance costs are charged to the interim statement of profit or loss and other comprehensive income during the financial period in which they are incurred.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(j) Property and equipment (continued)

The cost of any self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, costs of dismantling and removing the items and restoring the site on which they are located, and borrowing costs on qualifying assets.

Land is not depreciated. The other items of property and equipment are depreciated on a straight-line basis to write off the cost of these assets to their residual values over their estimated useful lives as follows:

Classes	Years
Land improvements	3 to 20
Building and improvements	3 to 20
Leasehold improvements*	3 to 5
Office equipment	3 to 15
Computer equipment	3 to 7
Motor vehicles	3 to 8

* *Leasehold improvements are depreciated over the shorter of its economic useful life (3 to 5 years) or the term of the relevant lease.*

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Depreciation on assets under construction commences when the assets are ready for their intended use.

Items of property and equipment are reviewed for indication of impairment at each reporting date and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down to its recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount and are included in profit or loss in the line item 'Other income, net'.

(k) Intangible assets

Intangible assets include acquired computer software licenses and related costs. An intangible asset is recognised only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Group and the Bank.

Intangible assets are stated at historical cost less accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised using the straight-line method over their estimated useful lives. The useful life of computer software is five years except for the license of core banking system which has useful life of ten years.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from its use. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised. Costs associated with maintaining computer software are recognised as expenses when incurred.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(l) Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and its value in use.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date. Impairment losses are recognised in the interim statement of profit or loss and other comprehensive income.

Impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. A reversal of an impairment loss is recognised as income.

(m) Reserves

Reserves comprise of general reserves, regulatory reserves, hedging reserve and other reserves.

The general reserves are set up for any overall financial risk. The Board of Directors exercises its discretion for the use and maintenance of the general reserves. The transfer from retained earnings to general reserves is subject to the approval of Board of Directors of each entity within the Group.

Regulatory reserves are set up for the variance of provision between impairment in accordance with CIFRS (on loans and advances, deposits and placements with other banks, other receivables, investments in debt securities and off-balance sheet commitments) and regulatory provision (on loans and advances, deposits and placements with other banks, other receivables and off-balance sheet commitments based on the prescribed credit grading rates from the NBC). It is transferred between retained earnings and regulatory reserves.

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of hedging instruments used in cash flow hedges pending subsequent recognition in profit or loss.

Other reserves are for currency translation differences of the net investment in foreign operations.

(n) Current and deferred income tax

The tax expense for the period comprises of current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is recognised in other comprehensive income or directly in equity, respectively.

Current tax expense is determined according to the tax laws of each jurisdiction where each entity of the Group operates and generates taxable income and includes all taxes based upon the taxable profits.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(n) Current and deferred income tax (continued)

Deferred income tax is recognised in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the interim financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences and unused tax losses or unused tax credits can be utilised.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to offset tax assets against tax liabilities and when the deferred taxes relate to the same fiscal authority.

(o) Employee benefits

(i) Short-term employee benefits

The Group and the Bank recognise a liability and an expense for short-term employee benefits. The Group and the Bank recognise a provision where it is contractually obliged or where there is a past practice that has created a constructive obligation.

Wages, salaries, bonuses, and other short-term benefits are recognised as an expense in the period in which the associated services are rendered by the employees of the Group and the Bank.

(ii) Long term employment benefits

The Group and the Bank have various long term employment benefit schemes as summarised below.

Seniority benefits

In accordance with Prakas No. 443 MoLVT dated 21 September 2018 and Notification Letter No. 042 MoLVT dated 22 March 2019 issued by the Ministry of Labour and Vocational Training (“MoLVT”), the Bank and its subsidiaries, except for ACLEDA Bank Lao Ltd. (“ABL”) and ACLEDA MFI Myanmar Co., Ltd. (“AMM”), are required to pay seniority indemnity to its employees, as follows:

- **Current Seniority Indemnity:** Employees who have worked from 1 month to 6 months (excluding the probation period) will receive seniority indemnity equal to 7.5 days in June or December of each year.
- **Back Pay Seniority Indemnity:** Employees who have worked under permanent contract from 1 month to 6 months in the applicable fiscal year will receive payment of seniority indemnity equal to 3 days; in case of over 3 months, employees will receive seniority indemnity equal to 15 days. The maximum seniority to be paid shall not exceed 6 days of the average base salary from each year that shall be compensated from 2008 to 2018 but shall not exceed 156 days. The payment will be made in June and December of each year.

The liability was recognised at the present value of defined benefit obligation at the reporting period using the projected unit credit method to better estimate the ultimate cost to the Group and the Bank of the benefit that employees have earned in return for their service from 2008 to 2018. The Group and the Bank attribute benefit to periods in which the obligation to provide back pay seniority indemnity benefit arises. That obligation arises as employees render services in return for back pay seniority indemnity that the Group and the Bank expect to pay in future reporting periods.

The present value of the back pay seniority indemnity is determined by discounting the estimated future payments by reference to the Bank’s five-year fixed deposit interest rate.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(o) Employee benefits (continued)

(ii) Long term employment benefits (continued)

Pension fund scheme

The Bank pays monthly contributions for the compulsory pension scheme to National Social Security Fund (NSSF), a publicly administered social security scheme for pension in Cambodia. The Bank has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expenses when they are due.

Pension fund is both the Bank's and employee's obligation. Contributions were made effective 1 October 2022 and these are paid every month to the National Social Security Fund. For the first five years, contribution to the fund is set at 4% (from KHR400,000 to KHR1,200,000 equivalent US\$97 to US\$291, respectively), which is paid both by the Bank and its employees at 2% each (see Note 25).

Career development benefits

The Bank and its subsidiaries provide career development benefits to their employees ranging from US\$1,250 to US\$6,250 based on the management position level except for ABL which provides career development benefits to its employees ranging from LAK7,947,000 (equivalent to US\$417) to LAK23,372,500 (equivalent to US\$1,226) based on the management position level.

Management position level employees are eligible to receive right of membership when they have been working since their date of appointment in a management position for two years continuously and their performance evaluation has been high (i.e. evaluation score equal to or higher than 700 or very good performance and no warning letter). After completed the two years membership, they will automatically be entitled to the benefit for more three years. And the management would receive the benefits at the early of the fourth year.

The liability is recognised in the interim statement of financial position at the present value of employee benefit obligation at the end of each reporting period using the projected unit credit method. The present value is determined by discounting the estimated future payments by reference to three-year fixed deposit interest rate, as the period of the benefit entitlement is three years.

(p) Provisions

Provisions are recognised when the Group and the Bank have a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount of obligation can be reliably estimated.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provisions due to the passage of time is recognised as interest expense.

2. **SUMMARY OF MATERIAL ACCOUNTING POLICIES** (continued)

(q) **Interest**

Effective interest rate

Interest income and interest expense are recognised in profit or loss using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or,
- the amortised cost of the financial liability.

When calculating the effective interest rate for financial instruments other than purchased or originated credit-impaired assets, the Group and the Bank estimate future cash flows considering all the contractual terms of the financial instrument, but not the ECL. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated using the estimated future cash flows, including the ECL.

The calculation of the effective interest rate includes transaction costs and fees paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability.

Amortised cost and gross carrying amount

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on the initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any ECL.

The 'gross carrying amount' of a financial asset is the amortised cost of a financial asset before adjusting for any ECL allowance.

Interest income and interest expense

The effective interest rate of a financial asset or financial liability is calculated on initial recognition of a financial asset or a financial liability. In calculating interest income and interest expense, the effective interest rate is applied to the gross carrying amount of the financial asset (when the asset is not credit-impaired) or to the amortised cost of the financial liability. The effective interest rate is revised as a result of periodic re-estimation of cash flows of floating-rate instruments to reflect movements in market rates of interest. The effective interest rate is also revised for fair value hedge adjustments at the date the amortisation of the hedge adjustment begins.

However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to gross basis.

For financial assets that were credit-impaired on initial recognition, interest income is calculated by applying the credit-adjusted effective interest rate to the amortised cost of the financial asset. The calculation of interest income does not revert to gross basis, even if the credit risk of the asset improves.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Presentation

Interest income calculated using the effective interest method presented in the interim statement of profit or loss and other comprehensive income may include:

- interest on financial assets and financial liabilities measured at amortised cost;
- interest on debt instruments measured at FVOCI;
- the effective portion of fair value changes in qualifying hedging derivatives designated as cash flow hedges of variability in interest cash flows, in the same period as the hedged cash flows affect interest income/expense; and,
- the effective portion of fair value changes in qualifying hedging derivatives designated as fair value hedges of interest rate risk.

Interest expense presented in the interim statement of profit or loss and other comprehensive income may include:

- financial liabilities measured at amortised cost; and,
- the effective portion of fair value changes in qualifying hedging derivatives designated in cash flow hedges of variability in interest cash flows, in the same period as the hedged cash flows affect interest income/expense.

Interest income and interest expense on any financial assets and financial liabilities at FVTPL are presented in the interim statement of profit or loss and other comprehensive income.

(r) Fee and commission

Fee and commission income – including account servicing fees, investment management fees, sales commission, placement fees and syndication fees – are recognised as the related services are performed.

If a loan commitment is not expected to result in the drawdown of a loan, then the related loan commitment fee is recognised on a straight-line basis over the commitment period.

A contract with a customer that results in a recognised financial instrument in the Group's and the Bank's interim financial statements may be partially in the scope of CIFRS 9, *Financial Instruments*, and partially in the scope of CIFRS 15, *Revenue from Contracts with Customers*. If this is the case, then the Group and the Bank first apply CIFRS 9 to separate and measure the part of the contract that is in the scope of CIFRS 9 and then apply CIFRS 15 to the residual.

(s) Recognition of fee and other income

(i) Dividends

Income from dividends is recognised when the right to receive payment is established. Usually, this is the ex-dividend date for quoted equity securities.

Any dividends on equity instruments designated as FVOCI that clearly represent a recovery of part of the cost of the investment are presented in other comprehensive income.

(ii) Training and consultancy services

The Group and the Bank recognise service revenue when it is probable that economic benefits will flow to the Group and the Bank and the amount of revenue can be reliably measured. Revenue from training and consultancy services are recognised when the services are delivered.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(t) Leases

At inception of a contract, the Group and the Bank assess whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

At commencement or on modification of a contract that contains a lease component, the Group and the Bank allocate the consideration in the contract to each lease component on the basis of its relative stand-alone prices.

The Group and the Bank recognise a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred, and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group and the Bank by the end of the lease term or the cost of the right-of-use asset reflects that the Group and the Bank will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group and the Bank use an incremental borrowing rate. Practically, the Group and the Bank used the incremental borrowing rate as the discount rate to measure its right-of-use assets and lease liabilities.

Lease payments included in the measurement of the lease liability comprise of the following:

- fixed payments, including in-substance fixed payments, less any lease incentives;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and,
- the exercise price under a purchase option that the Group and the Bank are reasonably certain to exercise, lease payments in an optional renewal period if the Group and the Bank are reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group and the Bank are reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate; if there is a change in the Group's and the Bank's estimate of the amount expected to be payable under a residual value guarantee; if the Group and the Bank change its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment; or a lease contract is modified and the lease modification is not accounted for as a separate lease. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(t) Leases (continued)

Short-term leases and leases of low-value assets

A short-term lease is a lease that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease.

A lease of an underlying asset does not qualify as a lease of a low-value asset if the nature of the asset is such that, when new, the asset is typically not of low value. For example, leases of cars would not qualify as leases of low-value assets because a new car would typically not be of low value.

The Group and the Bank have elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Group and the Bank recognise the lease payments associated with these leases as expense on a straight-line basis over the lease term.

(u) Contingent assets and contingent liabilities

Contingent assets arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group and the Bank. As this may result in the recognition of income that may never be realised, contingent assets are not recognised in the Group's and the Bank's interim financial statements. Contingent assets should be disclosed where an inflow of economic benefits is probable.

Contingent liabilities, which include certain guarantees and letters of credit pledged as collateral security, are possible obligations that arise from past events whose existence will be confirmed only by the occurrence, or non-occurrence, of one or more uncertain future events not wholly within the control of the Group and the Bank; or are present obligations that have arisen from past events but are not recognised because it is not probable that settlement will require the outflow of economic benefits, or because the amount of the obligations cannot be reliably measured.

Contingent liabilities are not recognised in the interim financial statements but are disclosed unless the probability of settlement is remote.

(v) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components.

The Group reports separately information about an operating segment that meets any of the following quantitative thresholds:

- the absolute amount of its reported profit or loss is 10% or more of the greater, in absolute amount, of the combined reported profit of all operating segments that did not report a loss and the combined reported loss of all operating segments that reported a loss; or,
- its assets are 10% or more of the combined assets of all operating segments.

Operating segments that do not meet any of these quantitative thresholds may be considered reportable, and separately disclosed, if the Management believes that information about the segment would be useful to users of the consolidated interim financial statements.

For Management purposes, the Group is currently organised into two main business segments: Lending and Other financial services. These divisions are the basis on which the Group reports its primary segment information.

Financial information on segment reporting is presented in Note 6.

ACLEDA BANK PLC.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(w) Rounding of amounts

All amounts in US\$ disclosed in the interim financial statements and notes are in whole US\$ currency unit. All Khmer Riel amounts disclosed in the interim financial statements and notes have been rounded off to the nearest thousand currency units unless otherwise stated.

3. COMPOSITION OF THE GROUP

Details of the Bank's subsidiaries as at 31 March 2024 and 31 December 2023 are presented in Note 13.

The significant financial information on the interim financial statements of non-wholly owned subsidiary interests of the Bank that has material non-controlling interest are shown below and in the succeeding page. The summarised financial information represents amounts before intragroup eliminations.

ACLEDA University of Business Co., Ltd.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Group and the Bank make estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Group's and the Bank's interim results and interim financial position are tested for sensitivity to changes in the underlying parameters. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial period are outlined below.

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period:

Measurement of the expected credit loss allowance

The expected credit loss allowance (ECL) for financial assets measured at amortised cost requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses).

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES (continued)

Measurement of the expected credit loss allowance (continued)

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- grouping financial assets sharing similar credit risk characteristics for the purposes of measuring ECL
- choosing appropriate models and assumptions to measure ECL
- determining criteria for identifying loans to customers that have experienced a significant increase in credit risk (SICR)
- applying assumptions and analysis on expected future cash flows and forward-looking information.

Please refer to Note 39.1(f) for guidance on assessment of impairment of financial instruments under ECL model. This includes the determination of inputs used in the ECL measurement and incorporation of forward-looking information.

Employee benefits

The present value of the seniority indemnity and career development benefit obligations depends on a number of factors that are determined by the Management using a number of assumptions such as turnover rates and mortality rates. The assumptions used in determining the net cost for employee benefits include discount rate. Any changes in these assumptions will impact the value of employee benefits.

In the absence of a bond market and government bonds, the Management used their five-year, six-year and three-year fixed deposit interest rate as the discount rate to determine the present value of the estimated future cash outflows expected to be required to settle the seniority indemnity and career development benefit obligations, respectively.

Estimating cost of right-of-use assets and lease liabilities

Lease liabilities are measured at the present value of lease payments to be made over the lease term. In calculating the lease liabilities, the Group and the Bank use its average incremental borrowing rate which is based on average borrowing interest rate at the time of the commencement of the lease term.

5. TRANSLATION OF UNITED STATES DOLLAR INTO KHMER RIEL

In compliance with the Law on Accounting and Auditing, the financial statements shall be expressed in Khmer Riel (“KHR”). Assets and liabilities of each interim statement of financial position presented are translated using the closing rate as at the reporting date. Shareholders’ capital and reserves are translated at the rate at the date of transaction. The interim statement of profit or loss and other comprehensive income and the interim statement of cash flows are translated into KHR using the applicable average rates for the three-month period. All exchange differences arising from the translation are recognised as “currency translation differences” in the other comprehensive income.

The Group and the Bank have used the official rates of exchange published by the NBC as following:

		Closing Rate	Average rate (three-month)
31 March 2024	US\$1 =	KHR4,041	KHR4,071
31 March 2023	US\$1 =	KHR4,054	KHR4,084
31 December 2023	US\$1 =	KHR4,085	

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

6. SEGMENT INFORMATION

The Group's operations are mainly in the financial industry sector from which the Group's reporting segments are identified.

(a) Business segments

The Group's operating businesses are managed separately according to the nature of services provided (primary segments) and the different geographical markets served (secondary segments) with a segment representing a strategic business unit. The Group's business segments are as follows:

- *Lending* - provides loans to individual, group, and corporate as well as financial institutions. Products offered depend on the purpose, feature and size, such as group loan, small loan, medium loan, housing loan, car loan, motor loan, overdraft loan, revolving loan, financial lease, trade finance loan, etc.
- *Other financial services* - provides other services such as foreign exchange transaction, debit & credit card issuing and acquiring service, fund transfer (local & overseas), and cash management services (such as payroll, cash collection, bills payment, top-up and standing order). These services are leaning toward modernising the digital banking services via mobile application, internet banking and e-commerce as well as other digital ways.

These segments are the basis on which the Group reports its primary segment information. Transactions between segments are conducted at estimated market rates on an arm's length basis.

Segment revenues and expenses that are directly attributable to primary business segment and the relevant portions of the Group's revenues and expenses that can be allocated to that business segment are accordingly reflected as revenues and expenses of that business segment.

For secondary segments, revenues and expenses are attributed to geographic areas based on the location of the resources producing the revenues, and on the location where the expenses are incurred.

- (a) This represents the Bank's equity investment in Credit Bureau Holding (Cambodia) Ltd. ("CBC"), directly owned at 5% and indirectly owned at 1% through the Association of Banks in Cambodia. As at 31 March 2024, the Bank's investment in CBC is valued at cost amounting to US\$153,529 (31 December 2023: US\$153,529) and the Bank's investment in Society for Worldwide Interbank Financial Telecommunications ("SWIFT") is valued at cost amounting to US\$36,141 (31 December 2023: US\$36,141) as the Management believes the cost of these investments approximates its fair value. Dividend income received from CBC during the three-month period ended 31 March 2024 CBC has not declared dividend income (31 March 2023: KHR831,267,360 (US\$205,462)).
- (b) As at 31 March 2024, the Bank has pledged negotiable certificate of deposits ("NCD") amounting to US\$1,538,510 (31 December 2023: US\$3,038,699) with the NBC as collateral for settlement clearing facility. As at 31 March 2024, the other NCD amounting to US\$253,442,772 (31 December 2023: US\$281,851,390) with the NBC is made for the purpose of earning interest. The terms of the NCD are for a period of less than or equal to twelve months. As at 31 March 2024, the Bank is yet to utilise the overdraft on the settlement clearing facility.
- (c) On 12 January 2022, the Bank invested in a corporate debt security with a face value of US\$30,000,000 guaranteed by Overseas Cambodian Investment Corporation Ltd, a third party. The debt security earns an interest at the rate of 5.5% per annum and will mature on 11 January 2025. As at 31 March 2024, the carrying amount of this investment is US\$30,366,164 (31 December 2023: US\$31,604,794).
As at 31 March 2024, the amortised cost of the investments in government bonds is KHR306,149,281,736 (US\$75,760,773) (31 December 2023: KHR169,482,933,554 (US\$41,489,090)) and its face value is KHR308,000,000,000 (US\$76,218,758) (31 December 2023: KHR168,000,000,000 (US\$41,126,068)). As at 31 March 2024, the Bank has pledged the government bonds amounting KHR118,000,000,000 (equivalent to US\$29,200,693) with the NBC as collaterals for settlement clearing facility.

(a) With the Central Bank

(i) Reserve requirement

Pursuant to the NBC's Prakas No. B7-023-005 on the maintenance of reserve requirement against banking and financial institutions' deposits and borrowings dated 9 January 2023, the institution shall maintain reserve requirement against deposits and borrowings in accordance with dates and rates as follows:

- From 1 January 2023 to 31 December 2023, reserve requirement in foreign currencies shall be at the rate of 9%. From 1 January 2024 onwards, reserve requirement in foreign currencies shall be at the rate of 12.5%.
- The institution shall maintain the reserve requirement in local currency (KHR) at the rate of 7%.

However, in the NBC Letter No. B7-023-2621 Chhor.Tor dated 23 November 2023, the reserve requirement against deposits and borrowings in foreign currencies was changed at the rate of 7% until 31 December 2024.

Pursuant to the NBC's Prakas No. B7-018-282 on the maintenance of reserve requirement against commercial banks' deposits and borrowings, reserve requirements for both KHR and other currencies bear no interest since 29 August 2018.

The reserve requirement amounted to US\$527,817,867 as at 31 March 2024 (31 December 2023: US\$499,985,802).

ACLEDA BANK PLC.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

12. STATUTORY DEPOSITS (continued)

(a) With the Central Bank (continued)

(ii) Capital guarantee

Pursuant to the NBC's Prakas No. B7-01-136 on Bank's Capital Guarantee dated 15 October 2001, the banks are required to maintain 10% of its registered capital as a statutory deposit with the NBC. The deposit, which is not available for use in the bank's day-to-day operations, is refundable should the bank voluntarily ceases its operations in Cambodia. As at 31 March 2024, capital guarantee deposit amounted to US\$43,316,302 with accrued interest amounted US\$139,312 (31 December 2023: US\$43,316,302 with nil accrued interest). The capital guarantee deposit is earning at an interest rate of ¼ of the London Inter-bank Offered Rate ("LIBOR") on a 6-month basis. Pursuant to the NBC's Prakas No. B5-021-288 issued on 29 December 2021, banks and financial institutions are required to use 'Secured Overnight Financing Rate' instead of LIBOR starting 3 January 2022.

(b) With Other Central Bank

ABL maintained its compulsory deposits in compliance with the requirements of the Bank of Lao PDR ("BOL"). Statutory deposits with Central Bank include compulsory reserve and registered capital reserve. These balances earn no interest. Under regulations of the BOL, banks are required to maintain certain cash reserves with the BOL in the form of compulsory deposits, which are computed at 5.5% for the Lao Kip ("LAK") and 8% for foreign currency (previously, 5% and 5%, respectively), on a bi-monthly basis, of customers' deposits having original maturities of less than 12 months.

(c) Others

In compliance with Article 23 of SERC's Prakas No. 001/18 SECC/PR.K dated 20 March 2008 on licensing and supervision of securities, ACS is required to reserve the guarantee capital of KHR1,000,000,000 (which is equivalent to US\$284,583 and US\$281,518 as at 31 March 2024 and 31 December 2023, respectively) in the SERC's bank account at the NBC to operate as a securities broker in the Kingdom of Cambodia. On 24 November 2023, ACS added KHR150,000,000 (which is equivalent to US\$36,720) in the SERC's bank account at the NBC to fulfil the requirements as stated in Prakas No. 003/18 SECC/PR.K dated 29 May 2018 on the licensing and supervision of collective investment scheme business. This statutory deposit does not bear interest.

On 06 February 2024, the ACS obtained official approval from SERC as distribution company.

13. INVESTMENTS IN SUBSIDIARIES (continued)

Details of the Bank's subsidiaries are as follows:

Name of Subsidiaries	Note	Ownership and Voting Interest	
		31 March 2024	31 December 2023
ACLEDA Bank Lao Ltd.	(a)	99.90%	99.90%
ACLEDA Securities Plc.	(b)	100%	100%
ACLEDA University of Business Co., Ltd.	(c)	76.609%	76.609%
ACLEDA MFI Myanmar Co., Ltd.	(d)	100%	100%

(a) ACLEDA Bank Lao Ltd.

ABL was established in Lao PDR on 13 December 2007 under a preliminary license from the BOL. ABL's principal business is providing banking and related financial services in Lao PDR. The Bank owned 99.90% of ABL's shares. The Bank's initial investment in 2008 in ABL is US\$5,477,399. In 2009, the Bank sold shares to International Finance Corporation ("IFC") amounting to US\$876,384 which decreased the Bank's investments in ABL to US\$4,601,015. In 2010, the Bank injected capital to ABL amounting to US\$5,966,969, thereby increasing its investments to US\$10,567,984.

In 2014, the Bank bought shares from FMO, StichtingTriodosDoen, Tridos Fair Share Fund and IFC amounting to US\$28,875,098 and injected capital to ABL amounting to US\$9,946,484, increasing its investments in ABL to US\$49,389,566. As at 31 March 2024, the Bank's investments in ABL remain the same.

(b) ACLEDA Securities Plc.

On 1 March 2010, ACS was established in the Kingdom of Cambodia and registered with the Ministry of Commerce ("MOC") under the Registration No. Co.0448KH/2010. On 20 October 2010, the SERC (previously known as SECC) granted a brokerage license to ACS. The registered share capital of ACS is US\$2,010,000, divided into 2,010,000 shares with par value of US\$1 each. ACS' principal business is providing securities brokerage and other services approved by the SERC. ACS is wholly-owned by the Bank.

(c) ACLEDA University of Business Co., Ltd.

AIB (previously known as ACLEDA Training Center Ltd.) was established in the Kingdom of Cambodia under a primary license from the MOC under the Registration No. Co.1332KH/2011 dated 8 June 2011. The registered share capital of AIB is US\$17,805,000, divided into 17,805,000 shares with par value of US\$1 each. In 2018, AIB increased its share capital by US\$2,000,000 to US\$19,805,000. The revised Memorandum and Articles of Association ("MAA") was endorsed by the MOC on 14 December 2018.

AIB is recognised as an establishment of a private higher education institution under the Sub-Decree No. 13 ANKr. BK dated 25 January 2016 from the Royal Government of Cambodia. AIB provides training and education for Associate's degree, Bachelor's degree, and Master's degree in Business Administration, Major in Banking and Finance. AIB can open branches, new colleges, new departments, new specialties, new levels or classes, new types of education and training, change to a new name and location by submitting relevant documents and by requesting approval from the Ministry of Education, Youth and Sport.

ACLEDA BANK PLC.

NOTES TO THE INTERIM FINANCIAL STATEMENTS AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED

13. INVESTMENTS IN SUBSIDIARIES (continued)

On 10 February 2021, the NBC approved, on request of the Bank, an increase in the capital of AIB as invested by ACLEDA Financial Trust (“AFT”), amounting to US\$10,000,000, which represents 23.3910% of the total shares registered, equal to 6,047,046 shares at the price of US\$1.6537 per share through a Share Investment Agreement made on 26 February 2021 between the Bank, AIB, and AFT. Consequently, AIB share capital increased to US\$25,852,046 and reduced the Bank’s ownership to 76.6090%, which is equal to US\$19,805,000.

On 29 March 2021, AIB submitted a letter to the MOC requesting for its approval on the amendment of its MAA relating to the capital increase and on 2 December 2022, AIB obtained the approval from the MOC.

On 12 February 2024, AUB is recognised as transformation ACLEDA Institute of Business to be ACLEDA University of Business under the Sub-Decree No. 27 RNK. BK from the Royal Government of Cambodia. The Ministry of Education, Youth and Sport (“MoEYS”) approved recognized transformation of ACLEDA Institute of Business to be ACLEDA University of Business.

(d) ACLEDA MFI Myanmar Co., Ltd.

AMM was incorporated in the Republic of the Union of Myanmar under the Republic of the Union of Myanmar Companies Law on 6 September 2012 to provide services per Registration No. 143715094 and started its operations on 18 February 2013. The financial year of the statutory financial statements of AMM is from 1 October to 30 September until year 2021 and from 1 April to 31 March from year 2022 onwards in accordance with the Letter N^o: NgaKaSa/AhMaKha (105/2021) issued on 13 September 2021 on changing the fiscal year of Myanmar.

AMM is permitted to operate as a deposit-taking microfinance institution providing microfinance services to lower income segments of the Myanmar market and other activities allowed by the Microfinance Supervisory Authority at 45 townships in Yangon Region, 28 townships in Bago Region, 3 townships in Mon State and 25 townships in Magway Region.

The Bank’s initial investment in 2013 in AMM is US\$9,411,765. In 2014, the Bank sold shares to IFC, COFIBRED S.A and Kreditanstalt Fur Wiederaufbau (“KfW”) amounting to US\$3,659,371, which decreased its investments in AMM to US\$5,752,394.

The Bank acquired 3,600,000 ordinary shares (45% of the total shareholdings) of AMM from KfW, COFIBRED S.A, and IFC for a consideration of US\$6,193,321 as approved by the Board of Directors of AMM on 25 April 2018. The share transfers, appointment of representative of shareholders, and changing the Board members were approved on 27 September 2018 by the Secretary of Microfinance Business Supervisory Committee, The Republic of the Union of Myanmar Government.

On 23 September 2019, the Bank injected capital amounting to US\$3,969,923 (equivalent to Myanmar Kyat (“MMK”) of 6,099,390,000) and additional capital of US\$3,995,367 (equivalent MMK6,039,396,000), on 3 December 2019, increasing its ownership to 99.99%, with the remaining interest owned by AUB.

On 12 May 2021, the Bank settled US\$2,145 to AUB to hold 100% of common stock of AMM shares amounting to MMK20,140,000,000 (2019: 99.99% of MMK8,000,000,000). On 5 April 2021, AMM submitted a request to the regulator for the approval of its amended MAA resulting from the change in ownership. Microfinance Business Supervisory Committee has approved AMM’s request with Letter No. KaKa-1/6 (467/2021) dated 23 December 2021.

21. BORROWINGS

The Group and the Bank have entered into borrowing agreements with various lenders. The repayments of principal and interest are made either on quarterly, semi-annual, or annual basis based on the repayment schedule of each of the borrowing agreements. The Group and the Bank did not pledge any collaterals for these borrowings.

b) By interest rate

	The Group		The Bank	
	31 March 2024	31 December 2023	31 March 2024	31 December 2023
Annual interest rates	2.00% - 13.00%	2.00% - 13.00%	2.00% - 9.80%	2.00% - 9.80%

As of 31 March 2024, the Bank's financial covenant ratios were not in line with a few debt covenants on borrowings with two lenders amounting to US\$275,225,797. As a result, the non-current portion of the borrowings amounting to US\$192,962,912 has been reclassified from non-current liabilities to current liabilities as of 31 March 2024.

As of the reporting date, the lenders are in the process of approving the waivers of the covenant. On the other hand, management is working to enhance the ratio to be in line with bank's strategy and objective.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED

23. DERIVATIVE FINANCIAL INSTRUMENTS

Under existing interest rate swap contracts, the Group and the Bank agree to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Group and the Bank to mitigate the risk of changing interest rates on the fair value of issued fixed-rate debt and the cash flow exposures on the issued variable-rate debt. The fair value of interest rate swaps at the end of the reporting period is determined by discounting the future cash flows using the curves at the end of the reporting period and the credit risk inherent in the contract, and is disclosed below. The average interest rate is based on the outstanding balances at the end of the reporting period.

The following tables detail the notional principal amounts and the remaining terms of interest rate swap contracts outstanding at the end of the reporting period:

Cash flow hedges

NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED

23. DERIVATIVE FINANCIAL INSTRUMENTS (continued)

Cash flow hedges (continued)

The interest rate swaps are settled concurrent with the due date of the hedged item. The Group and the Bank will settle the differences between the fixed and floating interest rate on a net basis.

All interest rate swap contracts that exchange floating rate interest amounts for fixed rate interest amounts are designated as cash flow hedges in order to reduce the Group's and the Bank's cash flow exposure resulting from variable interest rates on borrowings. The interest rate swaps and the interest payments on the loan occur simultaneously and the amount accumulated in equity is reclassified to profit or loss over the period that the floating rate interest payments on the debt affect profit or loss.

24. LEASE LIABILITIES

Analysis of the Group's and the Bank's lease liabilities follows:

On 15 June 2021, 11,488 actual shareholders of ASA, Plc., one of the institutional shareholders of the Bank, has legalised all its shareholdings of 107,204,547 shares or 24.7492% of the Bank's outstanding shares in accordance with the relevant measures, laws and regulations of the SERC. After legalisation, 4% of the Bank's share capital or 17,326,521 shares were floated on the CSX. On 5 April 2022, ASA, Plc. added 64,915,190 floating shares legalised on the CSX equal to 14.9863%.

ACLEDA BANK PLC.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

26. SHARE CAPITAL AND SHARE PREMIUM (continued)

Share premium

The share premium mainly represents the excess amount received by the Bank over the par value of its shares pursuant to the issuance of shares, net of transaction costs directly distributable to the issuance.

On 25 May 2020, the Bank was successfully listed on the CSX. The number of new issued shares is 4,344,865 shares with a par value of KHR4,000 (US\$0.98) per share, at an offering price of KHR16,200 (US\$3.97) per share. The Bank received the proceeds from the initial public offering (“IPO”) amounting to US\$17,082,105 and incurred IPO costs of US\$1,031,025, resulting in share premium of US\$11,706,215 (KHR48,235,459 thousand). On 23 November 2020, the shareholders approved the amendment to the MAA relating to the capital increase from IPO. The MAA was subsequently approved by the NBC and the MOC on 29 March 2021 and 12 May 2021, respectively.

32. TAXATION (continued)**(c) Reconciliation between income tax expense and accounting profit** (continued)

In accordance with the Sub-decree No. 01 of the Royal Government of Cambodia (“RGC”) dated 4 January 2019, on Tax incentives in Securities Sector, the Bank has been entitled to a reduction of 50% on the Tax on Income for a period of 3 years from 2020 to 2022 after successful listing (proportion is based on the percentage of listed shares taking 20.0001% as a base in accordance with the Prakas No. 183 on the implementation guidance on the incentive on tax on profit for the IPO enterprise) and waiver of other tax liabilities, including Tax on Income and withholding taxes for the period from year N-3 to N-10, where N is the IPO year (“N-3 to N-10”).

(d) Other tax matters

Taxes are calculated on the basis of current interpretation of the tax regulations enacted as at the reporting date. The Management periodically evaluates position taken in tax returns with respect to situations in which the applicable tax regulation is subjected to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

However, these regulations are subject to periodic variation and the ultimate determination of tax liabilities will be made following inspection by the tax authorities. Where the final tax outcome of these matters is different from the amounts initially recorded, such differences will impact the tax liabilities and balances in the period in which the determination is made.

33. EARNINGS PER SHARE

The following table shows the Bank’s profit used in the basic and diluted EPS computations for the period presented:

	For the three-month period ended			
	31 March 2024 US\$	31 March 2023 US\$	31 March 2024 KHR'000 (Note 5)	31 March 2023 KHR'000 (Note 5)
Profit attributable to the shareholders of the Bank	26,544,428	38,504,113	108,062,366	157,250,798
Weighted average numbers of shares	433,163,019	433,163,019	433,163,019	433,163,019
Basic EPS	<u>0.06</u>	<u>0.09</u>	<u>0.25</u>	<u>0.36</u>
Diluted EPS	<u>0.06</u>	<u>0.09</u>	<u>0.25</u>	<u>0.36</u>

The Bank has no potentially dilutive ordinary shares as at the reporting date. As such, the diluted EPS is equal to the basic EPS.

39. FINANCIAL RISK MANAGEMENT

(a) Introduction and overview

The Bank is the leading and first listed bank in Cambodia and currently has the largest branch network and self-service banking which offers multiple products and services to its customers such as credits, deposits, fund transfers, cash management, trade finance, ACLEDA card, credit and debit cards, and digital services, including internet banking, ACLEDA mobile (mobile banking app), e-commerce payment gateway, ACLEDA ATM/POS, and term deposit machine. As disclosed in Note 13, the Bank's four subsidiaries are as follows:

- a. ACLEDA Bank Lao Ltd.,
- b. ACLEDA Securities Plc.,
- c. ACLEDA University of Business Co., Ltd.
- d. ACLEDA MFI Myanmar Co., Ltd.

In the competitive business environment along with the rapid evolution and development of technology and difference or change in laws and jurisdictions, the Group and the Bank need to have an effective risk management in place in order to manage and ensure all risks are within the risk appetite and tolerance. This also provides reasonable assurance regarding the achievement of the Group's and the Bank's objectives.

The established risk management framework comprises of core components such as (1) effective governance and oversight by the Board of Directors and senior management; (2) effective implementation of risk appetite and tolerance; (3) effective implementation of risk management processes; and (4) effective technology and data infrastructure. It must be integrated into the day-to-day management of the business and operations to provide transparent and consistent management of risks across the Group and the Bank.

The Group and the Bank instil proactive risk management by embedding accountability and risk ownership culture in managing risks for all levels, which includes the Group's and the Bank's Board of Directors, senior management, and employees. This culture is supported by (1) the Bank's employee's policies (ethics and human resource management, code of conduct, conflict of interest, remuneration and nomination, whistle blower's protection, managing misconduct, etc.); (2) alignment of compensation policies with the Bank's risk appetite and tolerance limits; and (3) availability of risk management training throughout the Group and the Bank.

Risk management within the Group and the Bank is managed by a Three Lines Model, supported by sufficient numbers of skilled personnel in the management of risks within all areas across the model.

(b) Objectives and principles

The objectives of the Group's and the Bank's risk management are:

- To ensure risks are within the risk appetite and tolerance and to provide reasonable assurance regarding the achievement of objectives.
- To manage risk effectively and to identify the risk before it occurs and minimise the potential risk properly and timely.
- To manage risk in a way that optimally balances managing risk while adding value to the Group and the Bank.

Risk appetite is defined as the amount and type of risk, on a broad level, the Group and the Bank are willing to accept in pursuit of long-term shareholder value. Risk tolerance refers to the variation amount of maximum risks which can be accepted, taking into account the appropriate measure to reduce the risk.

39. FINANCIAL RISK MANAGEMENT (continued)

(b) Objectives and principles (continued)

The Group's and the Bank's risk appetite and tolerance statement is prepared in accordance with its business strategy and the role of the Bank in the financial system.

The Board of Directors reviews and approves the Group's and the Bank's risk appetite and tolerance statement considering the most significant risks that specify the nature, types, and levels which the Group and the Bank are willing to assume, and provides an outline of the approach to manage these risks.

The risk management policy defines risk categories in line with the categories identified by the Basel Committee on Banking Supervision and the nature of the Group's and the Bank's business context. The policy sets risk tolerance/internal targets per individual risk category.

At all times, the Group and the Bank shall adhere to the prudential ratios and requirements as stipulated by the superintendent.

Unless specifically mentioned otherwise, the Group and the Bank shall adhere at all times to the risk appetite and tolerance/internal targets, as set by the Board of Directors in the risk management policy, in order to limit potential loss.

The Group's and the Bank's activities expose it to a variety of financial risks: credit risk, market risk (including foreign exchange rate risk and interest rate risk), and liquidity risk. Equity risk and commodity risk are not applicable given that the Group and the Bank do not hold any equity and commodity position.

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk

Credit risk is the potential risk that a counterparty would fail to meet its repayment obligations in accordance with agreed terms. While loans are the most obvious source of credit risk, other sources of credit risk exist throughout the activities of an institution, including in the banking book and the trading book, in both on and off-balance sheets. Institutions are facing credit risks in various financial instruments other than loans, including acceptance, trade financing, commitment and guarantee, interbank transaction, settlement of transactions, foreign exchange transactions, bonds, equities, and financial derivative instruments.

Principles of the credit risk:

- The Board of Directors recognises that the loan book is the main sources of income for the Group and the Bank and, conversely, also constitutes the greatest risk of losses.
- The Board of Directors considers that lending to the lower segments of the market of small business loans, provided the existing policies are implemented properly, carries a credit risk which is smaller than for larger loans as history has shown that losses due to default on these loans have been minimal. The Board of Directors considers the risk return equation favourable for loans provided to the lower segments in the market and considers these loans as the core product of the Group and the Bank.
- The Board of Directors considers that the Management has freedom to adjust, adapt or develop existing products and product lines but requires that new product lines need to be approved by the Board of Directors.
- The day-to-day responsibility for the credit risk lies with the senior management of the Credit Sale Management Division and of the branches.
- The credit risk is regularly measured by calculating the ECL taking probability of customer defaults, exposure in the event of default, and severity of LGD of the customer base where credit scoring is applied for.
- The Board of Directors requires that credit risk is spread across different sectors (like trade, agriculture, services, industrial, infrastructure, etc.) and products to avoid undue overexposure to one particular sector or industry.
- Systemic risk is the risk of system-wide breakdown of the financial sectors. The Board of Directors requires that credit risk on counterparty financial institutions should be subject to the same principles of the prudential assessment and controls as with the other forms of lending and prudential position limits that should be set to sufficiently protect the Group and the Bank from systemic risk.

Internal targets on the credit risk:

The internal targets on credit products should be set by the Board Risk Management and IT Committee ("BRIC") and approved by the Board of Directors. The internal targets will be in line with the risk appetite of the Board of Directors.

The Risk Management Division regularly reviews all internal targets as set and approved by the Board of Directors and advises on any change deemed appropriate.

In order to maintain the credit growth in a prudent and reasonable way and to ensure the maintenance of portfolio quality, various control limits have been imposed to credit products, which must be strictly complied with:

- Loan exposure ratio: defined as the aggregate amount of loan assets in arrears > 30 days minus loan loss reserves divided by the net worth; should be less than 25%.
- Ceilings on lending to sectors and by product to put limits on concentration risk.
- The maximum exposure to a single client or group of clients is up to 5% of the net worth.
- Counterparty financial institutions.

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(a) Credit risk management

The Board of Directors has delegated responsibility for oversight of credit risk to its BRIC. Credit Division is responsible for management of the credit risk based on the following:

- Separation of roles between the persons involved in dealing with the clients who are responsible for the credit application and the persons involved in the authorisation of the credits.
- Separation of roles between the persons involved in dealing directly with clients and the credit administration.
- Principle of double authorisation to ensure a good balance of the interests of the clients and objectivity in the risk assessment process.
- Timely and full documentation of the agreements made with the client together with all the needed information, which is relevant in the assessment and control phase of the credit process.
- Careful credit control systems, with periodical reviews, through which timely signals can be derived for relevant information regarding risk management.
- Independent control to ensure conformity with approved procedures and regulations in the credit process (formal control) but also monitoring of the quality of risk aspects and credit control (material control).
- The Group and the Bank will maintain a diversified loan assets portfolio in terms of industry sector, geographical area, and currency and loan size.
- Loan analysis will strongly focus on the client's ability and willingness to repay the loan through character and cash flow-based assessment and in applying green-lining methodology.

The Group's and the Bank's total exposure to a single client or group of clients (one obligor principle) acting in concert shall not exceed 5% of the Bank's net worth. "Exposure" includes the aggregate of (i) the face amount of the assets of the Borrower with respect to which such Person is the obligor and (ii) any claim of such Person against the Borrower comprising any commitment to provide funds or credit to, or on behalf of such Person including, but not limited to, loan guarantees, letters of credit, and derivatives.

(b) Internal targets and mitigation policies

The Group and the Bank operate and provide loans and advances to individuals or enterprises within the Kingdom of Cambodia, Lao PDR, and the Republic of the Union of Myanmar. The Group and the Bank manage limits and controls concentration of credit risk whenever they are identified. Large exposure is defined by the NBC as overall exposure to any individual beneficiary which exceeds 10% of the net worth.

The Bank is required, under the conditions of Prakas No. B7-06-226 of the NBC, to maintain at all times a maximum ratio of 20% between its overall credit exposure to any individual beneficiary and the Bank's net worth. The aggregation of large credit exposure must not exceed 300% of the Bank's net worth.

ABL is required, based on the Letter No. 296 of the BOL, to maintain at all times a maximum ratio of 25% between its overall credit exposure to any individual beneficiary and its net worth. The aggregation of large credit exposure must not exceed 500% of its net worth. However, for AMM, there is no requirement by the Financial Regulatory Department of Myanmar.

The Group and the Bank employ a range of policies and practices to mitigate credit risk. The most traditional of these is the taking of security in the form of collateral for loans and advances, which is the common practice. The Group and the Bank implement guidelines on the acceptability of specific classes of collateral or credit risk mitigation. The principal collateral types to secure for loans and advances are:

- Mortgages over residential properties (land, building, and other properties);
- Charges over business assets such as land and buildings; and,
- Cash in the form of margin deposits.

ACLEDA BANK PLC.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(c) Maximum exposure to credit risk before collateral held or other credit enhancements

For financial assets reflected in the interim statement of financial position, the exposure to credit risk equals their carrying amount. For financial guarantees and similar contracts granted, it is the maximum amount that the Group and the Bank would have to pay if the guarantees were called upon. For credit-related commitments and contingents that are irrevocable over the life of the respective facilities, it is generally the full amount of the committed facilities.

The above table represents a worst-case scenario of credit risk exposure to the Group and the Bank as at 31 March 2024 and 31 December 2023, without taking into account any collateral held or other credit enhancements attached. For on-balance financial sheet assets, the exposures set out above are based on net carrying amounts.

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(c) Maximum exposure to credit risk before collateral held or other credit enhancements (continued)

As shown in the table in the previous page, as at 31 March 2024, 74.64% for the Group and 74.54% for the Bank of total maximum exposure is derived from loans and advances (31 December 2023: 75.65% and 75.51% for the Group and for the Bank, respectively).

The Management is confident in its ability to continue to control and sustain minimal exposure of credit risk to the Group and the Bank resulting from its loans and advances. Significant credit risk exposure is arising from loans and advances. In order to mitigate the exposure of credit risk arising from loans and advances, all loan size limits must not exceed 75% of estimated saleable value of the pledged collateral, except for other loans authorised by the Management Credit Committee wherein the loan to collateral value exceeds the 75% threshold. As at 31 March 2024, approximately 93.53% (31 December 2023: 94.16%) of these loans and advances are collateralised.

(d) Concentration of financial assets with credit risk exposure

A concentration of credit risk exists when a number of counterparties are engaged in similar activities and have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. The Group and the Bank analysed the concentration of credit risk by geographic purpose and industry sector on the succeeding pages.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(e) Write-off policy

Financial instruments can be written off under the judgment of the Management Credit Committee when the Group and the Bank lose control on its contractual rights over that facility or when all or part of the facility is deemed uncollectible; this is particularly the case when there is no realistic prospect of recovery from the counterparty or when the Group and the Bank have lost control over its contractual rights on the facility due to any decision of a court of law. Circumstances where a facility should be written off also include, but are not limited to:

- a) All forms of securities or collateral have been called and realised but proceeds failed to cover the entire outstanding amount of the facility.
- b) The Group and the Bank are unable to collect or there is no longer reasonable assurance that the Group and the Bank will collect all amounts due according to the contractual terms of the facility agreement.
- c) The counterparty has become bankrupt or is undergoing other forms of financial restructuring, and as a consequence, it will unlikely to service the facility.
- d) The facility has been classified under loss category.

(f) Credit quality of financial assets

CIFRS 9 provides ECL of which the Group and the Bank expect to experience on an account over either a 12-month horizon (Stage 1) or a lifetime horizon (Stage 2 and Stage 3). The change in approach to provisioning introduced by CIFRS 9 is designed to:

- Ensure a timely recognition of credit losses, which is more reflective than the previous Incurred Loss Model;
- Distinguish between financial instruments that have significantly deteriorated in credit quality and those that have not; and
- Provide a better estimate of ECL given the macroeconomic environment.

The Group and the Bank apply a three-stage approach based on the change in credit quality since initial recognition:

3-Stage approach	Stage 1	Stage 2	Stage 3
	Performing	Underperforming	Nonperforming
Recognition of ECL	12-month ECL	Lifetime ECL	Lifetime ECL
Criterion	No significant increase in credit risk	Credit risk increased significantly	Credit-impaired assets
Basis of calculation of profit revenue	On gross carrying amount	On gross carrying amount	On net carrying amount

ACLEDA BANK PLC.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(f) Credit quality of financial assets (continued)

Recognition of ECL

Financial assets that are measured at amortised cost or through other comprehensive income will be subjected to impairment assessment.

The Group and the Bank measured ECL by using the general approach and the simplified approach. The general approach consists of segregating the customers into three different stages according to the staging criteria by assessing the credit risk. 12-month ECL will be computed for Stage 1, while lifetime ECL will be computed for Stage 2 and Stage 3. At each reporting date, the Group and the Bank will assess credit risk of each account as compared to the risk level at origination date.

As for financial assets that are short-term in nature, simplified approach will be adopted where no staging criteria is required. It will be either performing (Stage1) or non-performing loan (“NPL”) (Stage 3) based on the default indicator.

Below is a table showing a summary of credit risk status and period for ECL calculation by stages:

ACLEDA Bank Plc.

Staging	Risk Level / Rating Grade	Days Past Due	NBC's Classification	Indicator	Default Indicator
1	1	LT*: $0 \leq \text{DPD} \leq 29$ ST**: $0 \leq \text{DPD} \leq 14$	Normal	-	Not in Default / Performing

Credit classification for financial assets

The Bank follows the mandatory loan classification and provisioning as required by the NBC's Prakas No. B7-017-344 dated 1 December 2017 and Circular No. B7-018-001 Sor Ror Chor Nor dated 16 February 2018 on Credit Risk Grading and Impairment Provisioning. Loans and advances and other financial assets are classified into five classifications as described below:

CLASSES/CRITERIA	PAYMENT EXPERIENCED	
	As for facilities, which have an original term of more than one year	As for facilities that have an original term of one year or less
1 - NORMAL Timely repayment of an outstanding facility classified in this class is not in doubt. Repayment is steadily made according to the contractual terms and the facility does not exhibit any potential weakness in repayment capacity, business, cash flow, and financial position of the counterparty.	Punctual	Punctual

**NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(f) Credit quality of financial assets (continued)

Credit classification for financial assets (continued)

CLASSES/ CRITERIA	PAYMENT EXPERIENCED	
	As for facilities, which have an original term of more than one year	As for facilities that have an original term of one year or less
<p>2 - SPECIAL MENTION</p> <p>A facility in this class is currently protected and may not be past due but it exhibits potential weaknesses that, if not corrected in a timely manner, may adversely affect repayment by the counterparty at a future date, and warrant close attention by the Bank. Examples of such weaknesses include, but are not limited to, a declining trend in the operations of the counterparty or in its financial position, adverse economic and market conditions that might all affect its profitability and its future repayment capacity, or deteriorating conditions on the collateral. This class has clearly its own rational and should not be used as a compromise between Normal and Substandard.</p>	<ul style="list-style-type: none"> - When any facility is past due from 30 days to 89 days. - When interest payments for 30 to 89 days have been capitalised, refinanced, or rolled over into a new facility. 	<ul style="list-style-type: none"> - When any facility is past due for a maximum of 30 days. - When interest payments for a maximum of 30 days have been capitalised, refinanced, or rolled over into a new facility. - In case of overdrafts, excess of the approval limit is for a maximum of 30 days, or the current account has been inactive for a maximum of 30 days, or the net inflows on the current account have not been enough to cover capitalised interests for a maximum of 30 days.

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(f) Credit quality of financial assets (continued)

Credit classification for financial assets (continued)

CLASSES/CRITERIA	PAYMENT EXPERIENCED	
	As for facilities, which have an original term of more than one year	As for facilities that have an original term of one year or less
<p>3 - SUBSTANDARD</p> <p>A facility in this class exhibits noticeable weakness and is not adequately protected by the current business, financial position, or repayment capacity of the counterparty. In essence, the primary source of repayment is not sufficient to service the debt and the Bank must look to secondary sources, such as the realisation of the collateral, in relation with the counterparty. Factors leading to a Substandard classification include:</p> <ul style="list-style-type: none"> ▪ Inability of the counterparty to meet the contractual repayments' terms. ▪ Unfavourable economic and market conditions that would affect the business and profitability of the counterparty in the future. ▪ Weakened financial condition and/or inability of the counterparty to generate enough cash flow to service the payments. ▪ Difficulties experienced by the counterparty in repaying other facilities granted by the Bank or by other institutions when the information is available. ▪ Breach of financial covenants by the counterparty. 	<ul style="list-style-type: none"> - When any facility is past due from 90 days to 179 days. - When interest payments for 90 to 179 days have been capitalised, refinanced, or rolled over into a new facility. 	<ul style="list-style-type: none"> - When any facility is past due for a maximum of 60 days. - When interest payments for a maximum of 60 days have been capitalised, refinanced, or rolled over into a new facility. - In case of overdrafts, excess of the approval limit is for a maximum of 60 days, or the current account has been inactive for a maximum of 60 days. - The overdraft that had no net inflow for 60 days must be modified into a term loan.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(f) Credit quality of financial assets (continued)

Credit classification for financial assets (continued)

CLASSES/CRITERIA	PAYMENT EXPERIENCED	
	As for facilities, which have an original term of more than one year	As for facilities that have an original term of one year or less
<p>4 - DOUBTFUL A facility classified in this category faces similar but more severe weaknesses than one classified as Substandard such that its full collection on the basis of existing facts, conditions, or collateral value is highly questionable or improbable. The prospect of loss is high, even if the exact amount remains undetermined for now.</p>	<ul style="list-style-type: none"> - When any facility is past due from 180 days to 359 days. - When interest payment for 180 to 359 days has been capitalised or rolled over into a new facility. 	<ul style="list-style-type: none"> - When any facility is past due for a maximum of 90 days. - When interest payment for a maximum of 90 days have been capitalised or rolled over into a new facility. - In case of overdrafts, excess of the approval limit is for a maximum of 90 days, or the current account has been inactive for a maximum of 90 days.
<p>5 - LOSS A facility is classified as Loss when it is not collectible, and little or nothing can be done to recover the outstanding amount from the counterparty.</p>	<ul style="list-style-type: none"> - When any facility is past due from 360 days. - When interest payment for 360 days or more have been capitalised or rolled over into a new facility. 	<ul style="list-style-type: none"> - When any facility is past due for a maximum of 180 days. - When interest payment for a maximum of 180 days have been capitalised or rolled over into a new facility. - In case of overdrafts, excess of the approval limit is for a maximum of 180 days, or the current account has been inactive for a maximum of 180 days.

With regard to facilities with repayments on a quarterly, semi-annual, or longer basis, facilities must be classified as Substandard or worse depending on the situation of the counterparty as soon as a default occurs. For the purpose of the table above, the default will be considered as having occurred 5 working days after the payment due date. The classification as Substandard will be allowed only in case where the counterparty has clearly demonstrated that its inability to pay in due time is only temporary.

ACLEDA BANK PLC.

Significant increase in credit risk

The Group and the Bank consider that a significant increase in credit risk occurs no later than when an asset is more than or equal to 30 days past due for long-term facilities or more than or equal to 15 days past due for short-term facilities. Days past due is determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. Due dates are determined without considering any grace period that might be available to the Borrower.

The Group and the Bank use the days past due (“DPD”) information, qualitative assessment in compliance with the Central Banks’ classification, and credit scoring/rating at origination for staging criteria.

If there is evidence that there is no longer a significant increase in credit risk relative to initial recognition, then the loss allowance on an instrument returns to being measured as 12-month ECL. Some qualitative indicators of an increase in credit risk, such as delinquency, may be indicative of an increased risk of default that persists after the indicator itself has ceased to exist. In these cases, the Group and the Bank determine a probation period during which the financial asset is required to demonstrate good behaviour to provide evidence that its credit risk has declined sufficiently. When contractual terms of a loan have been modified, evidence that the criteria for recognising lifetime ECL are no longer met includes a history of up-to-date payment performance against the modified contractual terms.

The Group and the Bank monitor the effectiveness of the criteria used to identify significant increases in credit risk by regular reviews to confirm that:

- the criteria are capable of identifying significant increases in credit risk before an exposure is in default;
- the criteria do not align with the point in time when an asset becomes past due;
- exposures are not generally transferred directly from 12-month ECL measurement to credit-impaired; and,
- there is no unwarranted volatility in loss allowance from transfers between 12-month PD (Stage 1) and lifetime PD (Stage 2).

Definition of default

The Group and the Bank consider a financial asset to be in default, as aligned with the NBC Prakas on Credit Risk Grading and Impairment Provisioning as stated in Article 17 and Article 19, when:

- 1) The default definition / non-performing facilities' definition for short-term and long-term facilities where original tenure is more than a year is as follows:

ACLEDA Bank Plc.

Days Past Due	Classification	Default Indicator
LT*: $0 \leq \text{DPD} < 30$ ST**: $0 \leq \text{DPD} \leq 14$	Normal	Not in Default / Performing
LT*: $30 \leq \text{DPD} < 90$ ST**: $15 \leq \text{DPD} \leq 30$	Special Mention	
LT*: $90 \leq \text{DPD} < 180$ ST**: $31 \leq \text{DPD} \leq 60$	Substandard	Default / Non-performing
LT*: $180 \leq \text{DPD} < 360$ ST**: $61 \leq \text{DPD} \leq 90$	Doubtful	
LT*: $\text{DPD} \geq 360$ ST**: $\text{DPD} \geq 91$	Loss	

*Long-term facilities; **Short-term facilities

ACLEDA Bank Lao Ltd.

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(g) Amounts arising from ECL (continued)

Definition of default (continued)

2) In addition to the classification according to days past due information, the Group and the Bank also perform manual classification when there is a sign of deterioration in the credit profile. The Group and the Bank might classify the loan into Substandard, Doubtful, or Loss even though the days past due is not falling within the default criteria.

Grouping of instruments for losses measured on a collective basis

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

Until 31 December 2023, the Bank grouped loans for losses measured on modelling of ECL calculation based on products. For the period ended 31 March 2024, the Bank assessed that grouping loans for losses measured on modelling of ECL calculation based on industry better reflected the shared risk characteristics from its most recent observations and evolvement of the current economic condition. Likewise, the forward-looking information were updated based on the change to grouping by industry.

Incorporation of forward-looking information

The Group and the Bank incorporate forward-looking information into both the assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and in the measurement of ECL.

The Group and the Bank formulate three economic scenarios to reflect macro-economic conditions and the business environment starting with baseline, good, and bad. According to the decision of the Group's and the Bank's senior management in December 2023, the probability-weighted of each scenario was determined based on specific drivers of credit risk by the economic sector as below:

No.	Business/Sub-Sector	Probabilities Weighted Outcome		
		Baseline	Upside	Downside
Agriculture				
1	Agriculture, forestry and fishing	60%	20%	20%
Industry				
2	Mining and quarrying	60%	20%	20%
3	Manufacturing	60%	20%	20%
4	Construction	55%	20%	25%
Service				
5	Utilities	60%	20%	20%
6	Wholesale trade	60%	20%	20%
7	Retail trade	60%	20%	20%
8	Accommodation and food service activities	55%	20%	25%
9	Arts, entertainment and recreation	60%	20%	20%
10	Financial and insurance activities	60%	20%	20%
11	Transport and storage	60%	20%	20%
12	Information and communications	60%	20%	20%
13	Rental and operational leasing activities, excluded real estate leasing and rentals	55%	20%	25%
14	Real estate activities	55%	20%	25%
15	Education	60%	20%	20%
16	Human health and social work activities	60%	20%	20%
17	Activities of households as employers; undifferentiated goods- and services-producing activities of households for own use	60%	20%	20%
18	Other lending	60%	20%	20%

**NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(g) Amounts arising from ECL (continued)

Incorporation of forward-looking information (continued)

For sub-sectors which were determined to have a probability 60% for baseline, 20% for upside, and 20% for down side due to the expectation of these sub-sector returning to pre-pandemic growth levels and the effective credit management practices of the Bank..

For sub-sectors which were determined to have a probability 55% for baseline, 20% for upside, and 25% for down side based on the anticipation that these sub-sectors will continue to grow, albeit at a slower pace.

This strategic approach allows the Group and the Bank to assess and manage credit risk across different sectors within varying economic scenarios, supporting informed decision-making and risk management practices.

External information considerations include economic data and forecasts published by governmental bodies and monetary authorities in the countries where the Group and the Bank operate, supranational organisations, such as the International Monetary Fund and selected private-sector and academic forecasters.

The Group and the Bank have identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments in accordance with each country and, by using an analysis of historical data, have estimated relationships between macroeconomic variables (“MEVs”) and credit risk and credit losses.

The economic scenarios of the Bank’s portfolio used included the following key indicators for Cambodia from years 2024 to 2028:

Exposure	2024	2025	2026	2027	2028

Predicted relationships between the key indicators and default and loss rates on various portfolios of financial assets have been developed based on analysing available historical data over the past 7 years.

Modified financial assets

The contractual terms of a loan may be modified for a number of reasons, including changing market conditions, customer retention, and other factors not related to a current or potential credit deterioration of the customer. An existing loan whose terms have been modified may be derecognised and the renegotiated loan recognised as a new loan at fair value in accordance with the accounting policy set out in Note 2(e)(iv).

When the terms of a financial asset are modified and the modification does not result in derecognition, the determination of whether the asset's credit risk has increased significantly reflects comparison of:

- the remaining lifetime PD at the reporting date based on the modified terms; and,
- the remaining lifetime PD estimated based on data on initial recognition and the original contractual terms.

ACLEDA BANK PLC.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED

39. FINANCIAL RISK MANAGEMENT (continued)

39.1 Credit risk (continued)

(g) Amounts arising from ECL (continued)

Modified financial assets (continued)

When modification results in derecognition, a new loan is recognised and allocated to Stage 1 (assuming it is not credit-impaired at that time).

The revised terms usually include extending the maturity, changing the timing of interest payments and amending the terms of loan covenants.

Loss allowance

During the period, the allowance for/(reversal of) impairment losses recognised in the interim statement of profit or loss and other comprehensive income are as follows:

Type	The Group				The Bank

39. FINANCIAL RISK MANAGEMENT (continued)

39.2 Market risk

The Group and the Bank are exposed to market risk, which is the risk of losses in on and off-balance sheet positions arising from movements in the market prices, such as interest rates, equity, foreign currency exchange rates, derivatives, and options, that could adversely affect the Group's and the Bank's future earnings, capital, or ability to meet business objectives.

The primary categories of market risk for the Group and the Bank are:

- (i) Interest rate risk: can lead to losses when there is an imbalance between assets and liabilities on which interest rates change periodically or at different intervals; and,
- (ii) Foreign exchange risk: can lead to losses when there is an imbalance between assets and liabilities in any particular currency.

Commodity risk and equity risk are not applicable at the moment given that the Group and the Bank do not hold any commodity or equity position.

The BRIC is established by the Board of Directors to assist in the effective discharge of its responsibilities for risk management and to regularly review the Management's ability to assess and manage the Group's and the Bank's risks.

Market risks are managed based on the following principles and internal targets:

Principles of the market risk:

- In line with sound banking principles, the Group and the Bank actively manage currencies and interest rate risk positions to hedge positions by matching assets and liabilities.
- The Group and the Bank shall not engage in activities to derive income from proprietary trading or speculation on the movements in exchange rates, interest rates, or value of securities.
- The position limits as set by the Central Banks are meant to limit the adverse impact of market risk and are not meant to create an opportunity for proprietary trading.
- The day-to-day responsibility for market risk lies with the senior management of the Treasury Department.

Internal targets on the market risk:

- The regulatory limits on foreign exchange currency mismatch per currency and cumulative mismatch for all foreign currencies should be observed at all times.
- The Group and the Bank will have, at all times, internal targets that are lower than the regulatory limits to allow for a safety margin to ensure permanent full compliance with regulatory limits.
- Relevant divisions and departments should regularly assess and monitor the perceived risks of non-compliance with the targets. Any breaches of internal targets should be reported to the ALCO and President & Group Managing Director.
- At all times, the Group and the Bank will have a contingency plan to be executed when it is perceived by the President & Group Managing Director that the safety margin may not be sufficient and there is a risk that the regulatory limit on foreign exchange currency mismatch could be reached. Such contingency plan should be sufficient to ensure that the regulatory limits on foreign exchange currency mismatch will not be breached.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED

39. FINANCIAL RISK MANAGEMENT (continued)

39.2 Market risk (continued)

(i) *Interest rate risk*

As at 31 March 2024 and 31 December 2023, the Group's and the Bank's derivative financial instruments and financial investments designated as FVOCI are valued at fair value in accordance with the methods as disclosed in Note 39. The Group and the Bank use derivative financial instruments, such as foreign exchange contract and interest rate swaps to hold its risk exposures.

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of the changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of the changes in the market interest rates. Interest margins may increase as a result of changes but may reduce losses in the event that unexpected movements arise.

The Group's and the Bank's interest rate risk arise from borrowings and subordinated debts. Borrowings issued at variable rates expose the Group and the Bank to cash flow interest rate risk. The Group and the Bank manage cash flow interest rate risk by using floating-to-fixed interest rate swaps. Such interest rate swaps have the economic effect of converting borrowings from floating rates to fixed rates and recognising the interest expense based on that fixed interest rate. The Group and the Bank raise borrowings at floating rates and swaps them into fixed rate that are lower than those available if the Group and the Bank borrowed at fixed rates directly. Under the interest rate swaps, the Group and the Bank agree with other parties to exchange, at specified intervals (primarily semi-annually), the difference between fixed contract rates and floating rate interest amounts calculated by reference to the agreed notional amounts.

The tables on the next pages summarise the Group's and the Bank's exposure to interest rate risks. It includes the financial instruments at carrying amounts, categorised by the earlier of contractual repricing or maturity dates.

39. FINANCIAL RISK MANAGEMENT (continued)

39.2 Market risk (continued)

(i) *Interest rate risk* (continued)

Fair value sensitivity analysis for fixed-rate instruments

The Group and the Bank do not account for any fixed-rate financial assets or financial liabilities at FVTPL. Therefore, a change in interest rates at the reporting date would not affect the interim statement of profit or loss and other comprehensive income.

Cash flow sensitivity analysis for variable-rate instruments

Interim statement of profit or loss and other comprehensive income is sensitive to higher/lower interest expenses from borrowings and subordinated debts as a result of changes in interest rates. The change of 25 basis points ("bp") in interest rates of borrowings and subordinated debts at the reporting date would not have a material effect on the interim statement of profit or loss and other comprehensive income of the Group and the Bank.

The Group's and the Bank's exposure to interest rate risk relates to borrowing of funds at both fixed and floating interest rates. This risk is managed by maintaining an appropriate mix between fixed and floating-rate borrowings and by the use of interest rate swap contracts and forward interest rate contracts. Hedging activities are evaluated regularly to align with interest rate views and defined risk appetite; ensuring optimal hedging strategies are applied, by either positioning the interim statement of financial position or protecting interest expense through different interest rate cycles.

(ii) *Foreign exchange risk*

The Group operates in Cambodia, Lao PDR, and the Republic of the Union of Myanmar and transacts in many currencies. It is exposed to various currency risks, primarily with respect to KHR, Euro ("EUR"), THB, LAK, Japanese Yen, Australian Dollar ("AUD"), Vietnamese Dong, Canadian Dollar, MMK, and others.

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is neither the Group's nor the Bank's functional currency.

The Management measures, closely monitors, and manages foreign exchange risk on a daily basis and takes action on time as necessary. Enough net open currency position is maintained which follows the regulatory requirements and internal risk policies.

The tables in the next pages summarise the Group's and the Bank's exposure to foreign currency exchange rate risk. Included in the tables are the financial instruments at carrying amount by currency.

39. FINANCIAL RISK MANAGEMENT (continued)

39.2 Market risk (continued)

(ii) *Foreign exchange risk* (continued)

Sensitivity analysis

The Group and the Bank are exposed to changes in USD and other foreign currencies' exchange rates. Due to a reasonably possible strengthening or weakening of the USD against foreign currencies, the Group's and the Bank's exposure to other foreign exchange movement is not material.

39.3 Liquidity risk

in a given economic and financial context and specific market situation. Typically, it is the risk of loss arising from situation where 1) the Group and the Bank do not have enough cash and cash equivalents to meet the needs of depositors, borrowers, and contingent liabilities, 2) the sale of non-liquid assets are lower than market price, and 3) non-liquid assets would not be sold at the desired time due to the lack of buyers.

The objective of the Group's and the Bank's liquidity risk management is to ensure that the Group and the Bank can meet its cash obligations in a timely and cost-effective manner. Up to the date of this report, the Group's and the Bank's liquidity and funding management policy is to maintain high quality and well-diversified portfolios of liquid assets and sources of funds under both normal business and stress conditions. Due to its large distribution network and strategic marketing focus, the Group and the Bank are able to maintain a diversified core deposit base comprising of savings, demand, and fixed deposits. This provides the Group and the Bank a large stable funding base.

(a) Liquidity risk management process

The day-to-day responsibility for liquidity risk management and control is delegated to the ALCO which reports monthly to the Executive Committee.

For day-to-day liquidity management, the Treasury Department will ensure sufficient funding to meet its payments and settlement obligations on a timely basis.

Principles of the liquidity risk:

- At all times, the related senior management of the Treasury Department shall ensure that the Group's and the Bank's operations can meet its current and future funding needs. The Treasury Department shall stress-test its liquidity position on a daily basis.
- The related senior management of Treasury Department has established a risk control framework and procedures to ensure it maintains sufficient liquidity at all times, including the holding of unencumbered eligible assets, to withstand a range of stress events, including the loss of funding sources, such as deposits, borrowings, and capital raising, and that the liquidity risk is managed in accordance with the requirements of the Board of Directors.
- Stress testing is performed regularly to assess various scenarios, which include short, medium and long-term, institution-specific and market-wide stress which may put the Group's and the Bank's liquidity at risk.
- The Treasury Department identifies, monitors, manages, and controls the risk associated with the daily liquidity as well as short, medium and long-term liquidity as these are key periods for liquidity management. The Treasury Department develops and implements stress tests on the projected cash flows. The outputs are used to inform the Group's and the Bank's contingency funding plan.
- The Group and the Bank incorporate liquidity cost, benefits, and risks in the internal pricing, performance measurement, and new products/services approval process for all significant business activities (both on and off-balance sheet) in order to align with the benefits from accepting risks of each business unit and liquidity risks affecting its business activities.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

39. FINANCIAL RISK MANAGEMENT (continued)

39.3 Liquidity risk (continued)

(a) Liquidity risk management process (continued)

Internal targets on the liquidity risk: (continued)

- The regulatory limit on the Liquidity Coverage Ratio (“LCR”) should be observed at all times.
- The Group and the Bank will have, at all times, an internal target that is higher than the regulatory limit to allow for a safety margin to ensure permanent full compliance with regulatory limit.
- Setting the level of the internal targets is at the discretion of the ALCO and needs to be both 1) stated and motivated in the ALCO minutes and 2) formally approved by the President & Group Managing Director.
- The risk tolerance/internal targets must be reviewed at least once a year to reflect the financial condition and the funding mobilisation capacity.
- Relevant divisions and departments should regularly assess and monitor the perceived risks of non-compliance with the targets. Any breaches of internal targets should be reported to the ALCO for remedial actions and President & Group Managing Director for approval.
- At all times, the Group and the Bank will have a contingency plan to be executed when it is perceived by the Management that the safety margin may not be sufficient and there is a risk that the regulatory limit on liquidity could be breached. Such contingency plan should be sufficient to ensure that the regulatory limits on liquidity will not be breached.
- In case the Group and the Bank experience a severe liquidity, the Bank must immediately notify the NBC and advise the action that is being taken to address the situation.

The Bank has put in place a robust and comprehensive liquidity risk management framework in accordance with the NBC's Prakas No. B7-017-301 dated 27 September 2017 on Liquidity Risk Management Framework, which consists of risk appetite, risk tolerance, policies, early warning indicators, and monitoring mechanism which are reviewed and endorsed by the BRIC and approved by the Board of Directors. The key elements of the framework are to ensure that the Bank maintains sufficient liquidity at all times, including the holding of unencumbered eligible assets, to withstand a range of stress events, including the loss of funding sources, either internally (as with deposits) or externally (as with borrowings or raising additional capital), and other issues. The Bank ensures that the business activities are mainly funded with stable sources of funding on an ongoing basis.

The Management designs a set of early warning indicators to aid its daily liquidity risk management processes in identifying the emergence of increased risk or vulnerabilities in its liquidity risk position or potential funding needs.

The Group's and the Bank's contingency funding plan is in place to alert and to enable the Management to act effectively and efficiently during a liquidity crisis and under adverse market conditions. The objective of contingency funding plan is to ensure that the Group and the Bank have a framework for managing the liquidity sufficiently and robustly in the event of liquidity crisis based on the result of liquidity stress testing.

The Group and the Bank are measuring, monitoring, and managing its liquidity positions to comply with the LCR.

The purpose of the LCR aims at promoting short-term resilience of each institution's liquidity risk profile, ensuring that each institution has an adequate stock of unencumbered liquid assets that can be converted into cash at no or little loss of value in markets, to meet its liquidity needs for a 30-day liquidity stress scenario, and ensuring that prompt corrective actions are taken by the Management when the LCR potentially falls below the minimum requirement.

39. FINANCIAL RISK MANAGEMENT (continued)

39.3 Liquidity risk (continued)

(a) Liquidity risk management process (continued)

The Group and the Bank also use a range of tools such as liquidity ratio, liquidity gap analysis, safety margin, and monthly cash flow projection to measure, monitor, and manage its liquidity position. In addition, The Group and the Bank also perform daily and monthly liquidity stress test in order to identify and quantify its exposures to possible future liquidity stresses and in analysing possible impacts on the cash flows, liquidity position, profitability, and solvency.

(b) Funding approach

The Group's and the Bank's main sources of liquidity arise from shareholder's paid-up capital, borrowings, subordinated debts, deposits and placements of other banks and financial institutions, and deposits from customers. The sources of liquidity are regularly reviewed via Management's daily review of maturity of fixed deposits and key depositors. The Group's and the Bank's borrowings and subordinated debts are also regularly reviewed via Management's daily review of interest and principal repayments and maturity.

(c) Non-derivative cash flows

The tables in the succeeding pages present the cash flows payable under non-derivative financial liabilities and the assets held for managing liquidity risk grouped using their remaining contractual maturities as at the end of the reporting period. The amounts disclosed in the tables are the contractual undiscounted cash flows, wherein the Group and the Bank manage the inherent liquidity risk based on contractual undiscounted cash flows.

(d) Derivative financial instruments

The following tables detail the Group's and the Bank's liquidity analysis for derivative financial instruments. The table has been drawn up based on the undiscounted net cash inflows or outflows from the derivative financial instruments that settle on a net basis and the undiscounted gross inflows or outflows from those derivatives that require gross settlement. The amount payable or receivable is not fixed; the amount disclosed has been determined with reference to the projected interest rates as illustrated by the yield curves existing as at the end of each reporting period.

ii. *Other financial facilities*

Other financial facilities are also included above based on the earliest contractual date as disclosed in Note 35(c).

40. FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments comprise of financial assets and financial liabilities as disclosed in Note 38. The Group and the Bank have an established framework and policies which provide guidance concerning the practical considerations, principles, and analytical approaches for the establishment of prudent valuation for financial instruments measured at fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The valuation of financial instruments is determined by reference to quoted prices in active markets or by using valuation techniques based on observable inputs or unobservable inputs. The Management's judgment is exercised in the selection and application of appropriate parameters, assumptions, and modelling techniques where some or all of the parameter inputs are not observable in deriving fair value.

Valuation adjustment is also an integral part of the valuation process. Valuation adjustment is to reflect the uncertainty in valuations generally for products that are less standardised, less frequently traded, and more complex in nature. In making a valuation adjustment, the Group and the Bank follow methodologies that consider factors, such as liquidity, bid-offer spread, and unobservable prices and inputs in the market and uncertainties in the assumptions and parameters.

The Group and the Bank continuously enhance the design, validation methodologies, and processes to ensure reasonable determination of the fair values.

Determination of fair value

The Group and the Bank classify its financial instruments measured at fair value according to the following hierarchy, reflecting the significance of the inputs in making the fair value measurements:

- Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets and liabilities in active markets; or
 - Quoted prices for identical or similar assets and liabilities in non-active markets; or
 - Inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 One or more inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Financial assets and financial liabilities are classified as Level 1 when the valuation is based on quoted prices for identical assets or liabilities in active markets.

Financial assets and financial liabilities are regarded as being quoted in an active market if the prices are readily available from a published and reliable source and those prices represent actual and regularly occurring market transactions on an arm's length basis.

When fair value is determined using quoted prices of similar assets and liabilities in active markets or quoted prices of identical or similar assets and liabilities in non-active markets, such assets and liabilities are classified as Level 2. In cases where quoted prices are generally not available, the Group and the Bank determine the fair value based on valuation techniques that use market parameters as inputs. Most valuation techniques employ observable market data, including but not limited to, yield curves, equity prices, volatilities, and foreign exchange rates.

Financial assets and financial liabilities are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data. Such inputs are determined based on observable inputs of a similar nature, historical observations, or other analytical techniques.

ACLEDA BANK PLC.

NOTES TO THE INTERIM FINANCIAL STATEMENT (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED

40. FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

Determination of fair value (continued)

If prices or quotes are not available for an instrument or a similar instrument, fair value will be established by using valuation techniques or Mark-to-Model. Judgment may be required to assess the need for valuation adjustments to appropriately reflect unobservable parameters. The valuation models shall also consider relevant transaction data, such as maturity. The inputs are then benchmarked and extrapolated to derive the fair value.

The following table shows the fair value of financial assets and liabilities analysed by various levels within the fair value hierarchy as at 31 March 2024 and 31 December 2023:

(a) Financial instruments measured at fair value

There were no transfers between Level 1 and Level 2 fair value measurements, and no transfers in and out of Level 3 fair value measurement during the three-month period ended 31 March 2024 (31 December 2023: Nil).

ACLEDA BANK PLC.

**NOTES TO THE INTERIM FINANCIAL STATEMENT (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

40. FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

Determination of fair value (continued)

(a) Financial instruments measured at fair value

i. Derivative financial instruments

As at the reporting date, the Group's and the Bank's derivative financial instruments are valued using the discounted cash flow method and are verified with the interest rate swap providers. Under the discounted cash flow method, future cash flows are estimated based on forward interest rates (from observable yield curves at the end of the reporting period) and contract interest rates, discounted at a rate that reflects the credit risk of various counterparties.

ii. Financial investments

Financial investments at FVOCI consist of the Bank's investment in CBC with 5% as equity cash investment and 1% through the Association of Banks in Cambodia amounting to US\$153,529 and in SWIFT required by the SWIFT SCRL from all its members amounting to US\$36,141 as at 31 March 2024 (31 December 2023: US\$153,529 and US\$36,141, respectively). There is no gain/loss recognised in other comprehensive income due to fair value approximate the carrying amount. These investments are neither redeemable nor transferable and there is no market for them. The Group and the Bank do not intend to dispose these investments.

(b) Financial instruments not measured at fair value

As at the reporting date, the fair values of the financial instruments of the Group and the Bank approximate their carrying amounts.

The estimated fair values are based on the following methodologies and assumptions:

i. Deposits and placements with other banks

Deposits and placements with other banks include current accounts which are non-interest bearing, savings deposits, and short-term deposits. The fair value of deposits and placements with other banks approximates their carrying values as at the reporting date due to the relatively short-term maturity of these instruments.

ii. Financial investments

Financial investments at amortised cost include NCD with the NBC with maturities of less than one year. The fair value of financial investments approximates their carrying values at the reporting date due to the relatively short-term maturity of these instruments. Debt securities include corporate and government bonds which were valued at amortised cost, and were purchased for the purpose of holding them until maturity and for earning interest.

iii. Loans and advances

The fair value of loans and advances is based on observable market transactions. Where observable market transactions are not available, fair value is estimated using valuation models, such as discounted cash flow techniques. Inputs into the valuation techniques include expected lifetime credit losses, interest rates, prepayment rates, and primary origination or secondary market spreads. For collateral-dependent impaired loans, the fair value is measured based on the value of the underlying collateral.

Inputs into the models may include data from third party and information obtained from other market participants, which include observed primary and secondary transactions. Its carrying value approximates fair value as at the reporting date.

**NOTES TO THE INTERIM FINANCIAL STATEMENT (CONTINUED)
AS AT 31 MARCH 2024 AND FOR THE THREE-MONTH PERIOD THEN ENDED**

40. FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

Determination of fair value (continued)

(b) Financial instruments not measured at fair value (continued)

iv. Deposits and placements of other banks and financial institutions and deposits from customers

The fair value of deposits and placements of other banks and financial institutions and deposits from customers with maturities of less than one year approximates their carrying amount due to the relatively short-term maturity of these instruments. While the fair value of deposits and placements of other banks and financial institutions and deposits from customers with remaining maturities of more than one year are expected to approximate their carrying amount since the Group and the Bank offer similar interest rate on the instrument with similar maturities and terms.

The estimated fair value of the deposits and placements with no stated maturities, which includes non-interest bearing deposits, and deposits payable on demand is the amount payable as at the reporting date.

v. Other financial assets and other financial liabilities

The carrying amounts of other financial assets and other financial liabilities are assumed to approximate their fair values as these items are not materially sensitive to the shift in market interest rates.

vi. Borrowings, subordinated debts, and lease liabilities

The fair value of borrowings, subordinated debts, and lease liabilities are estimated by discounting the expected future cash flows using the applicable prevailing market interest rates for borrowings with similar risk profiles. However, only the contractual interest rates, which are confirmed and provided by all lenders, are available as at the reporting date instead of the applicable prevailing market interest rates. The Group and the Bank believe that the effective interest rates were not significantly different with the prevailing market interest rates on the ground that there was no change in interest rates following the lenders' consideration of the Group's and the Bank's credit risk profile as at the reporting date. On this basis, the fair value of borrowings, subordinated debts, and lease liabilities approximates their carrying values as at the reporting date.

41. CAPITAL RISK MANAGEMENT

The Group's and the Bank's objectives when managing capital, which is a broader concept than the 'equity' on the face of the interim statement of financial position, are:

- To comply with the capital requirement set by the NBC;
- To safeguard the Group's and the Bank's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and,
- To maintain a strong capital base to support the development of business.

The NBC requires all commercial banks to i) hold minimum capital requirement, ii) maintain the Bank's net worth of at least equal to the minimum capital, and iii) comply with solvency ratios, LCRs and other prudential ratios.

The tables in the succeeding page summarise the composition of regulatory capital which follows the requirements of the NBC. These amounts are based on the consolidated and separate interim financial statements as at 31 March 2024 and 31 December 2023.
