Message from Chairman

On behalf of ACLEDA Bank Plc. (“the Bank”) and the Board of Directors, I am pleased to present the second quarter of 2021 Report for the period starting from 1 April 2021 to 30 June 2021 to all stakeholders.

The prolongation of the 20th February COVID-19 community outbreak in Cambodia has caused the Royal Government to promulgate many strict measures such as 3 dos and 3 don’ts, lockdown of Phnom Penh and Takhmao, subsequent restrictions of movement in some zones in Phnom Penh, acceleration of vaccine injections, rapid test to prevent COVID-19 infection and spread as well as to save and recover the Cambodia’s economy.

On the solid foundation of its strategies to become a leading digital bank in the region, given its anticipation and thorough analysis of burgeoning considerable demands for digital banking products and services before the community outbreak, the Bank has been placing emphasizes the significant growth in the number of users registering to **ACLEDA mobile** app, together with engagement and involvement with partnerships that not only attract depositors but also increase cross-buying and the use of other products and services of the Bank as well as improve employees’ productivities and skills. Besides, the Bank will continue to do office-remodelling to transform into a more regional comprehensive digital bank. ATM, CDM, VTM, and TDM will be more equipped, along with POS and **ACLEDA mobile** app with the high and secured technologies which can attract and make its customers to do the easier, faster, and smoother online banking transactions from anywhere and anytime.

During the COVID-19 community outbreak, the Bank still continues carrying out the infection prevention measures to ensure that the health and wellbeing of its employees, and implementing for working from distance at least 50% of the total staffs of each division and department for one-week rotation to keep the Bank’s operations smooth and safe. This quarter, the Bank achieved positive outcomes as below:

As at 30 June 2021, total deposit increased by USD 614.94 million while total loan outstanding grew by USD 306.07 million compared to the year ended 2020. If compared with the end of June 2020, total deposit and total loan outstanding increased by USD 850.50 million (19.44%) and USD 899.59 million (22.99%) respectively.

The Bank achieved a profit attributable to owners of the Bank of USD 37.17 million, an increase of 23.24% equivalent to USD 7.01 million compared with the same period of 2020. For this second quarter of 2021, Return on Average Assets (ROAA) was 0.52%, and Return on Average Equity (ROAE) was 3.23%.

Finally, I would like to express our profound gratitude to all stakeholders, customers, and especially the relevant authorities for their continued cooperation and ongoing support to the Bank.

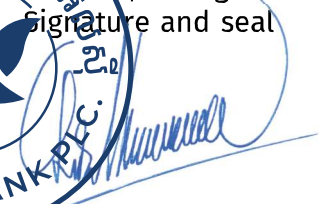

Phnom Penh, 10 August 2021

7- Factors and trends analysis affecting financial conditions and results

Covid-19 pandemic is negatively impacting businesses significantly in all industries around the world-Cambodia is not an exception. The Royal Government of Cambodia has handled the situation very well and worthy of compliment. As a result, major industries are well protected from the impact of this terrifying pandemic. There are signs that economic activity is beginning to grow in 2021 mainly due to effective vaccine being injected around the world.

Under the COVID-19 community outbreak in Cambodia for this second quarter of 2021, the Bank still continues expanding its self-automation banking service to enhance its capacities to respond to the latest technology, to be more convenient, fast, highly secured, and popular. The new **ACLEDA mobile** interface, the customers are able to do online banking transactions from anywhere anytime easily. The participation of our customers from using the self-automation banking service, is not only demonstrating the change of their attitudes in using traditional banking services, but also indicating the contribution in preventing the spread of COVID-19 with the Royal Government and the Ministry of Health.

B. Significant factors affecting profit

1- Demand and supply conditions analysis

ACLEDA Bank is successful in the market that brings profit due to two factors:

- The growth of loan portfolio due to high demand in the market for the Bank's loan products especially in the SME segment.
- The growth of Bank's deposits and other transactional products and services.

Both factors are associated with the continuous development of the bank's digital platform which provides customers with innovative and modern financial products and services.

ACLEDA Bank Plc. maintains a diversified infrastructure of choices with 319 offices, gradually transforming them to self-service centres with 846 **ACLEDA ATMs** and 4,295 POS terminals. It's interesting to note that the Bank issued 1.46 million **ACLEDA ATM** cards to its customers. Moreover, the digitized **ACLEDA mobile** has proved very popular, registered by more than 2.03 million users as at the end of June 2021.

Enriching customer experience and strengthening cyber security are at the heart of ACLEDA Bank's focus at present. To achieve solid progress in pursuing these objectives, the Bank will

continue to enhance our robust information technology infrastructure by investing in advanced technologies, fortify the Bank's human resource capacities, and expand and improve business processes. Strategically, the Bank is developing a payment platform to enable licensed partners of all sizes, locally as well as internationally, to join forces in servicing its customers mutually and beyond borders. This will not only benefit to our valued customers directly but their own business partners as well, recognizing that they are an important link for extending the Bank's outreach and growth together.

ACLEDA mobile has been extensively improved and redesigned to be more modern, convenient and highly secure with many unique features. Now, users can make deposits (current, saving and fixed/term) through **ACLEDA mobile** immediately and get high interest rates. You can also easily make your own fixed/term deposit with the Fixed Deposit Machine.

The Bank has also significantly invested and keeps ongoing to invest in the enhancement of its self-banking facilities by installing additional **ACLEDA ATMs**, CRMs, POS Machine and expanding its network of QR code payments.

In order to support the banking and financial institutions (during the outbreak of COVID-19) to have more liquidity to meet its funding needs, the NBC has relaxed certain ratios such as solvency, capital buffer, reserve requirement, etc. and the MEF reduced the withholding tax on interest of borrowing as well as create additional liquidity in the market with lower cost. They open opportunity for price competition that may impact the revenue of the Bank for short term, however, it will help strong for long term.

2- Fluctuations in prices of raw materials analysis

None Applicable.

3- Tax Analysis

The Bank and its subsidiaries are under Law on Taxation of respective country jurisdictions; therefore, the Bank and its subsidiaries have their obligation to pay taxes in according to the tax regulations of their jurisdictions.

Tax payment commitment to the tax departments not just a role model and awarding with Certificate of **"Gold"** for 2020-2021, but also a contributor to society and economic growth.

Tax revenue is the most important source of revenue for a country. The more the government collects taxes, the greater the contribution to the country's development. ACLEDA Bank Plc. will be the fourth highest tax payer among all taxpayers by 2020. ACLEDA Bank Plc. is proud to be able to contribute to the economic development of our country.

4- Exceptional and extraordinary items analysis

The Bank did not experience any items, transactions or events of a material and unusual nature. However, economic conditions that impacted by COVID-19 community outbreak especially COVID-19 new variant in Cambodia for this second quarter of 2021 may affect the repayment capacity of customer as result the Bank loan quality may be slightly impacted.

C. Material changes in sales and revenue

In order to support the business growth of customers, ACLEDA Bank Plc. has reduced the interest rate for all new loan applications and by making it easier for its customers, all loan applications can be made through **ACLEDA mobile**. As a result, gross loan outstanding in the second quarter of 2021 increased by 1.38 trillion riels, equivalent to 7.58% compared to the end of 2020.

D. Impact of foreign exchange, interest rates and commodity prices

For the second quarter of 2021 (Q2-2021), the Khmer Riel (KHR) exchange rate against the US dollar (USD) has remained stable, even during the COVID pandemic – its value stays in range between 4,071 to 4,108 per USD, fluctuated more and less the same compared to the same period last year. ACLEDA Bank Plc. has strictly followed the regulatory requirements and its internal risk policy with regards to the FX Net Open Position. Thereby, the impact of exchange rate fluctuations on the Bank's business is minimal. And the effects are measured, monitored and managed on a daily basis for taking timely action as necessary.

In term of interest rate, the Bank operates its business based on fixed interest rate regime (both deposits and loans), which are not directly linked with the interest rate movements in the international financial markets. For local market, there has been minor fluctuation of interest rate due to market price competition. So, the impact of the interest rate fluctuations on the Bank's business is minimal and within the expectation and control. Moreover, the interest rate risk is measured, monitored and managed on a monthly basis in order to take timely remedial action to avoid adverse effects on result of the Bank's business performance.

The Bank has not involved in dealing with any commodity items.

E. Impact of inflation

The inflation rate for 2021 is projected at 3.1%, an average low. The Bank's operations are not significantly related to the level of inflation, so the impact of inflation on the Bank's business is minimal.

F. Economic / fiscal / monetary policy of Royal Government

▪ Economic Policy:

At the end of 2021, the Royal Government of Cambodia has re-estimated that the Cambodian economy will have a positive growth rate of 4% lower than expected at the end of 2020, based on (1) the Cambodian manufacturing sector expects positive growth in the context of global economic recovery, especially certain developed countries as trading partners. (2) foreign direct investment inflows are expected to increase, which will help diversify production and support the construction and real estate sectors. (3) The need for quarantine, concerns over COVID-19 infection, and the declining in revenues will continue to put further pressure on the tourism sector in both short and medium term. (4) The agricultural sector is expected to maintain growth due to the potential of growing crops and attracting investment and support measures of the Royal Government. Meanwhile, some international financial institutions such as the IMF, WB and ADB have forecast that Cambodia's economic growth will reach from 4.0% to 4.2% for 2021 and from 5.2% to 6.0% for 2022.

In the first half of 2021, the economic situation in Cambodia continues to be affected by the spread of COVID-19, in which tourism sector, domestic tourists continue to decline -38% (to 1.6 million of people) and international tourists entering into Cambodia continue to fall sharply - 90.8% (to 108 thousand of people) compared to the same period last year. At the same time, the price of total products in the manufacturing sector decreased by -24%, in which the price of export-industry product decreased by -15% and the price of domestic-market products decreased by -40%. For construction sector, the new construction projects decreased significantly, in which the number of projects, prices and construction area declining by -11.4%; -34.3% and -29.9%, respectively, while the unfinished construction

projects continue to operate normally. In contrast, the agricultural sector continued to improve, with rice continuing to improve, fisheries yielding the same as last year (while fish and shrimp farming increased by 6.6%) and rubber achieved high growth 5.8% with prices reaching \$1,792 per ton. Meanwhile, non-garment export activities (such as bicycles, electronic components, wood products and other agricultural products) have been maintaining well growth. The average inflation rate was 2.5% lower than the second half of 2020 (3.1%), of which food group inflation was 2.9%, while fuel-related goods and services continued to fluctuate from -3.3% to 5.3%.
