The screenshot shows the bank's website interface. On the left, a navigation menu is visible with 'User Administrations' selected. Under 'User Administrations', 'User Token Verification' is highlighted with a red box labeled '1'. The main content area displays the 'User Token Verification' page, which includes a search bar and a table of users. The table has columns for User ID, User Name, Email, Mobile Phone, Default Authentication, Push-Authentication Status, Hard Token Status, Hard Token Serial, and Links. The first row of the table is highlighted, and a red box labeled '2' points to the 'View' icon in the 'Links' column of that row.
